## ANNUAL PERFORMANCE TEST

### Special Representatives

Honorable Russell C. Redding, *Secretary of Agriculture*

Dr. David Wolfgang, *Director, BAHDS, Department of Agriculture*

Dr. Richard Roush, *Dean, Penn State College of Agricultural Sciences*

Dr. Terry Etherton, *Department Head, Penn State Animal Science*

Dr. Lester Griel, *Attending Veterinarian*

Greg Hubbard, *President, PA Sheep & Wool Growers Association*

### 2016 Ram Sale Committee

Ron Miller ..... Bernville, Berks Co.  
Dr. Lester Griel .... State College, Centre Co.  
Annette Lovell..... Paoli, Chester Co.  
David Watts ..... Geigertown, Berks Co.  
Cerrita Reed ..... Manheim, Lancaster Co.  
Robert Calvert ..... Mercer, Mercer Co.  
Martin Veneskey.. Carrolltown, Cambria Co.

### 2016 Goat Sale Committee

Carolyn Watts..... Geigertown, Berks Co.  
Sherrie Losch ..... Port Royal, Juniata Co.  
Jody Weist..... Middleburg, Union Co.  
Pam Miller ..... Everett, Bedford Co.  
Carol Hall..... Pennsdale, Lycoming Co.  
Dr. Lester Griel..... State College, Centre Co.  
Ron Miller ..... Bernville, Berks Co.

### Auctioneer

Mark Swope ..... New Enterprise, Bedford Co.

*Thank you to the consignors and buyers of the Livestock Evaluation Center's performance testing programs.*

*Thank you to Dr. Lester Griel for his veterinary expertise and additional support for all programs at the Livestock Evaluation Center.*

**COMMONWEALTH OF PENNSYLVANIA**

DEPARTMENT OF AGRICULTURE | RUSSELL C. REDDING, SECRETARY

August 6, 2016

Dear Agriculture Friends:

Welcome once again to the Pennsylvania Department of Agriculture's 2016 Performance Tested Ram Lamb and Meat Goat Buck Sale. This is the culmination of a 77-day test program for rams and 70-day test program for bucks at the Pennsylvania Livestock Evaluation Center.

These outstanding offerings demonstrate the commitment to excellence by breeders and the hard work undertaken at the center that together ensure Pennsylvania remains the Northeast's long-standing premier location for purchasing high-quality stock. Enhancing the experience are the presentations, contests and awards that help make this a well-rounded field day that unites and educates producers, especially those of the next generation.

Today's sale is proof that partnerships leverage results. This isn't an effort that any of us could take on alone. We'd like to thank our partners and contributors for their dedication:

- Livestock Technical Committee,
- Pennsylvania Animal Health and Diagnostic Commission,
- Pennsylvania State University,
- Sale Committee,
- Auctioneer, and
- Ringmen.

And I sincerely thank each of you – for working in an important segment of Pennsylvania's agriculture industry, helping improve our state's respected flocks and goat herds, and increasing the quality of products offered to consumers. I look forward to our continued partnership. Enjoy the sale.

Sincerely,

A handwritten signature in blue ink that reads "Russell C. Redding".

Russell C. Redding  
Secretary

# 2016 PA Sheep and Goat Field Day

## Schedule – Saturday, Aug. 6

**10:30 a.m. PSWGA Sheep and Meat Goat Informational Program**

### **Junior Shepherds' Skill-A-Thon**

The competition is open to shepherds of all ages. Register on the day of competition. Prizes awarded.

**12:45 p.m. Awards and Updates**

PA Sheep and Wool Growers Association  
Keystone Goat Producers Association

**1 p.m. Sales**

Performance Tested Rams and Invitational Ewes  
Performance Tested Bucks and Invitational Does

## Ram and Goat Sale Order

Rams will sell in the following order: Suffolk, Dorper, White Dorper, Dorset, Texel. Sale order within breeds or breed groups will be by index. Ewes will be sold following rams

Boer bucks will sell in the following order: Senior Full Bloods, Junior Full Bloods, Senior Percentages, Junior Percentages. Sale order will be by index. Does will be sold following bucks.

All animals are cataloged in their order of sale.

## Suggested Care and Management

1. Rams and bucks are well developed and properly cared for and should adequately cover females.
2. Ram lambs and young bucks should not be expected to breed more than 25 females the first year. As they are still growing, give them grain and grass or quality hay.  
**DO NOT OVERWORK RAM LAMBS OR YOUNG BUCKS.**
3. After placing a young ram or buck with females, allow several weeks for the animal to adjust and begin servicing the flock or herd.
4. Unfamiliar rams or bucks will fight when first introduced. If rams or bucks must be housed in the same pen, ensure it is small enough the animals can't gain enough momentum to hurt each other. Otherwise, placement in adjacent pens for several days before group housing should relieve this problem.
5. Ensure the success of your lamb or kid crop by periodically checking to see if ewes or does are settling.
6. Keep the new ram or buck around the barn or in a small lot for at least a week after arrival. This will allow him rest from the trip and to become accustomed to his new surroundings.

# General Information

## 1. MANAGEMENT OF THE RAMS AND BUCKS

Participating rams completed an official 77-day performance test and the Boer bucks have completed an official 70-day performance test at the Livestock Evaluation Center on July 5. Prior to the start of the tests, rams were allowed a 14-day adjustment period and bucks a 21-day period during which they were dewormed, introduced to the LEC ration and prepared to begin the test.

Throughout the performance tests, rams were self-fed a textured 16% protein feed. Bucks were self-fed a pelleted 16% protein feed. All animals received a small amount of grass hay.

## 2. PERFORMANCE RECORDS

Individual performance records exist for each ram and buck cataloged. These records include:

- Average Daily Gain – weight gained over course of test divided by days on test
- Weight Per Day of Age – average weight gain per day since birth
- Loin Area – ultrasonically scanned between the last two ribs, then adjusted based on average weight within breed
- Fat – measured ultrasonically, and to some degree indicates composition of gain
- Type – all rams scored 12 or higher at delivery time
- Ratio – The percent above or below average a ram or buck is within his own breed group for a particular trait. A ratio of 100 is average.

## 3. INDEX

Ram Index = (.35 x average daily gain ratio) + (.35 x final weight per day of age ratio) + (.15 x adjusted fat thickness value) + (.15 x adjusted loin muscle area value)

Buck Index = (.40 x average daily gain ratio) + (.20 x final weight per day of age ratio) + (.20 x loin muscle area value adjusted by test goat's breed avg. metabolic weight) + (.20 x hind leg circumference measurement adjusted by test goat's breed avg. metabolic weight)

Animal's index divided by the average animal index within a breed provides the index ratio.

## 4. HEALTH

Participating rams and bucks are in very good health and can go anywhere. All rams and bucks have been examined for reproductive soundness, and all rams have been gene tested for the scrapie resistance gene. Semen has been collected from all senior rams and senior goats and have passed minimum standards required by the American Society of Theriogenology.

5. The rams and bucks have been evaluated for performance, but potential buyers are responsible for evaluation of type, soundness and breed character. All rams and bucks sell as is.

6. Kids born from percentage boer parents may not be eligible for registry in certain Boer goat associations. Buyers interested in registering percentage Boer goats should contact their breed registry.

# Health Procedure Summary

### Meat goats upon admission to center

- Vitamin E and Selenium by injection
- Contagious Ecthyma (Soremouth) exposure
- Clostridium CD/Tetanus – 2<sup>nd</sup> dose given in May
- metaphylaxis (prevention) for pneumonia
- Wormed with fenbendazole (Panacur®) in May
- Fecal exams on group in May and July were negative

### Rams upon admission to center

- Vitamin E and Selenium by injection
- Contagious Ecthyma (Soremouth) exposure
- Clostridium CD/Tetanus – 2<sup>nd</sup> dose given in May
- Rabies vaccine (Imrab®)
- Wormed with fenbendazole (Panacur®) in May. Fecal exams on group in May and July were negative.

### End of test

- Physical exam for breeding soundness
- Tuberculosis and Brucellosis test administered 30 days from sale.
- Sale rams receive booster dose of CD/Tetanus
- Semen evaluation on fall-born goats

### End of test

- Physical exam for breeding soundness
- Sale rams receive booster dose of CD/Tetanus
- Semen evaluation on fall-born rams

## Terms and Conditions of Sale

1. Terms of the sale are cash or check. Any owner of a ram or buck qualified for sale requesting that payment be made in cash rather than by check must first do so in writing to the Pennsylvania Department of Agriculture Livestock Evaluation Center prior to sale day. This condition will then be announced prior to the sale of that animal. All checks must be made payable to Swope Auctioneering and Associates. No ram or buck may leave the premises until payment has been received.
2. Each ram or buck will be sold to the highest bidder.
3. The auctioneer will settle any disputes regarding bids that may arise. This decision will be final.
4. Certificates of registry will be furnished and transfers will be made by the sale committee, at the seller's expense, to the purchaser within a reasonable time after the sale. Registration certificates for any progeny of these sires are dependent upon the breed association. (i.e. kids from percentage Boer bucks may not have the ability to be registered within certain breed associations).
5. All rams and bucks are at the seller's risk until sold and will be the buyer's risk as soon as sold. However, if not convenient for the buyer to remove the ram or buck the afternoon of the sale, the ram or buck will be cared for up to a maximum of 72 hours after the sale at the buyer's risk. After 72 hours there will be a nominal fee.
6. Certificates of Veterinary Inspection will be furnished by the Pennsylvania Department of Agriculture.
7. All rams and bucks are guaranteed breeders by the sellers, providing they are properly cared for and not exhibited on the show circuit prior to being used for breeding. Any ram or buck that settles one third of the healthy females he services will be considered a breeder. In the event a ram or buck is thought to be a non-breeder by the buyer, he may be returned to the seller at the buyer's expense within six months of the sale date. In the case of a ram or buck claimed to be a non-breeder, the seller is entitled to the period of time, following return of the ram or buck, required to take him through the next regular breeding season, in which to demonstrate that the ram or buck is a breeder. If in that time the ram or buck proves a non-breeder, then refunding of the purchase price shall be considered full settlement. Other procedures for settlement may be taken if satisfactory to both the buyer and the seller.
8. The above guarantee and terms of the sale shall constitute a contract between the buyer and the seller for each ram or buck sold and shall be equally binding upon both. The Pennsylvania Department of Agriculture, Pennsylvania State University, Pennsylvania Sheep and Wool Growers Association, test sale management or any other person or organization connected with the management of the sale do not assume liability, legal or otherwise, except to help make any needed adjustments.
9. All persons attending the sale do so at their own risk. Neither the Pennsylvania Department of Agriculture, nor any other person or organization connected with the sale will assume liability, legal or otherwise, for the safety in the buildings, on the premises or in behavior of the animals.

## PA Sheep and Wool Growers Association

Since its establishment more than six decades ago, the Pennsylvania Sheep and Wool Growers Association has represented sheep producers committed to the betterment of the sheep and wool industry. By working together through the association, breeders have increased awareness of the benefits of sheep, wool and all byproducts. With local, county and regional member organizations and nearly 130 members across the state, the association plays a vital role in the industry's success.

The association hosts and co-sponsors programs and events throughout the year, including the "Make it with Wool" contest, State Lamb and Wool Queen program, Ag Progress Days Lamb Food Booth, state "Sheep to Shawl" competition, Outstanding Young Shepherd awards, Keystone Bred Ewe Spectacular Sale, wool marketing, Shepherd's Symposium and Annual Meeting and today's sale and field day. These activities showcase and celebrate the prosperity and potential of Pennsylvania's sheep and wool industry.

Whether educating the public, encouraging youth or working with others in agriculture, the PSWGA characterizes excellence and tradition within the sheep and wool industry. For more information, contact:

President:	Treasurer:
Greg Hubbard	Tom Calvert
1736 Bethel Hollow Rd.	137 Archery Rd.
New Paris, PA 15554	Berlin, PA 15530

## Directions

The center is between Pine Grove Mills and the Ag Progress Days site, approximately nine miles southwest of State College on PA Route 45.

### **Southeast – From Route 322**

Take the Boalsburg/Oak Hall exit to Route 45 west. Follow Route 45 west to Pine Grove Mills. Pass through the blinking light and travel approximately two miles. The Livestock Evaluation Center will be on the left.

### **Northeast and Northwest – From I-80**

Take the Route 220 west exit. Continue to Route 322 east. Travel 322 east two exits to the Boalsburg/Oak Hall exit to Route 45 west. Follow Route 45 west to Pine Grove Mills. Pass through the blinking light and

travel approximately two miles. The Livestock Evaluation Center will be on the left.

### **Southwest – From I-99**

Take the Tyrone/Route 550 exit. Travel approximately one mile and turn left onto Route 550 east. Travel Route 550 east to Warriors Mark. At the stop sign in Warriors Mark, turn right onto Route 350 south. Follow Route 350 south to Route 45. Turn left onto Route 45 east. Travel Route 45 east approximately six miles, passing the Ag Progress Days site. The Livestock Evaluation Center will be on the right.

<b>Birth Type</b>	<b>Birth Date</b>	<b>Scrapie Geno type</b>	We knew this was a definite keeper ewe lamb at birth. Grow this ewe lamb to her full potential, she'll have good show lambs and be a good brood ewe in 2018. We had planned to show this ewe lamb this summer. Ewe 1604 should be 140 lbs. by Aug. 6th. Ewe has had all her shots.

<b>Performance</b>		<b>Comments:</b>		
<b>Birth Type</b>	<b>Birth Date</b>	<b>Scrapie Geno type</b>	1026 is a percentage ewe – Sire is a Todd Franz Hampshire Ram (Minnesota) that we leased in 2009. Vorac 1633 has a 75% percentage registration from the Suffolk Association. We have 17 keeper Suffolk ewe lambs this year, plus five Hamp. ewe lambs – and are able to put two of our better ewe lambs in this sale. Ewe has had all her shots.
