## A Note From Outfront Cattle Service

I've always felt one of life's more important lessons is to realize that the only constant thing is "CHANGE"! Certainly, this year qualifies for changes! We all want things to be back to normal as soon as possible. The resilience of cattle people has been tested, but that is exactly why we are going forward with the Appalachian Sale June 6th in Knoxville. Everyone needs to be able to market their product as efficiently and timely as possible. We have had to drop a few lots and have added several more lots by combining some of the lots from the Little W Sale, Virginia Beef Expo, and the Central Kentucky Sale. The changes/additions are listed in this supplemental catalog and there could be more changes sale day, but for now please look over the excellent additions to this important Charolais Sale. The Charolais bull sales have been tremendous all spring and we have had numerous inquiries about this sale. With that I hope you can participate with us either online with Cowbuyer.com or attend the sale. We will try to follow all proper health protocol to insure your health as much as possible. We're all working to promote Charolais and our economic responsibilities. If you didn't get the previous catalog, give me a call and I'll make sure you get both copies. Please pray for our nation and your fellow man!

## MORE PROFIT.

Breeding good cattle isn't complicated. Cattle feeders give us the ultimate report card. According to Jared Wareham, Top Dollar Angus, *"No other option offers the greatest terminal crossbreeding value from the ranch through the feeder like a really good set of smokes or buckskins that are at least 50% Angus or Red Angus."*

Use a registered Charolais bull and genetic verification through CharAdvantage to earn more premiums.

### Why?

- Market demand
- Predictability
- Increased weaning & yearling weights
- Easy calving
- More live calves
- Adaptability
- Value of Charolais-cross females
