

Conrad Farms

REGISTERED HOLSTEINS

Complete Dispersal

February 8th & 9th, 2024

10:00 AM each day

Grafton, Ohio

We would like to welcome everyone and thank you for the interest in our auction. We would like everyone to be aware of one of our main reason for this dispersal. In April of 2022 we had an unannounced visit by the US EPA. We asked, why us? Because of the Clean Water Act, they were targeting livestock operations along rivers and waters that drain into the Great Lakes. Everything checked out OK except our retention that collects all of the runoff from our Feed area was not big enough. We hired an environmental company and an attorney and found to comply we needed to either build a waste water treatment facility and apply for discharge permit, or sell the cows. In April of 2023 we made the very difficult decision to have an auction.

Conrad Farms LLC is a fourth-generation Dairy & Grain operation established in 1946. In 2002, we started hyper-focusing on efficiency. We focused on investing in genetics, artificial insemination, flush work, and purchasing top-notch heifers. We started Genomic testing all newborns in 2015. Our main focus was to identify the low genomic animals and sell them before we spent 2 years raising them. By using nex gen sires and other high genomic sires, sexed semen on all all new young heifers and high end cows, and beef on low genetics has helped propel our herd. In the last four years we have purchased four high genomic heifers from sales in Ohio. The focus on functional type components and genomics has given us the ability to become more efficient without adding cow numbers. To those purchasing our genetics, we thank you and wish you nothing but the best!

Sincerely,
Rick & Dave

Conrad Farms

Registered Holsteins Complete Dispersal

February 8th & 9th, 2024 • 10 AM each day (EST) • Grafton, OH

(full sale schedule on next catalog page)

DHI Herd Code 31-47-0919 • RHA 32,044M 4.1% 1299F 3.4% 1085P

Ryan M. Kiko, 330-831-8565, ryankiko@kikocompany.com

SCHEDULE NOTE: Genomic Lots 1 thru 17 will sell by catalog order at the start of Day 2 at 10:00 AM, February 9. They will be followed immediately by these 8 pregnant recipients carrying high value genomic embryos: 3043, 3053, 3063, 3067, 3068, 3084, 3097, 3098

Special terms on Lot 1 only:

This consignment is the result of NxGEN semen use, has been genomic tested and the results fall within the terms of the NxGEN agreement. Therefore, the sale of this heifer requires:

- 1.) buyer of consignment must be a current, in good standing, NxGEN member and continue to adhere to the terms of their NxGEN agreement **OR**
- 2.) buyer of consignment agrees to pre-arranged terms on sire selection and progeny contract purchase results on each and all progeny according to the terms of pre-agreed upon contract.

NOTE: All terms and conditions stated follow on to the new owners of said heifer post Conrad Dispersal sale. A.I. studs are not eligible for purchasing this heifer. The Herd agrees to sell to SELECT bull(s) resulting from SELECT agreed upon matings from the HERD'S breeding program under the following terms and conditions:

This Agreement relates to the exclusive access to the first three reproductive sessions of:

Con-River 3213 Letchworth-ET 3278826863 Born: 9/30/2023

During these first three sessions, a minimum of 20 transferrable embryos must be implanted in new owner's herd or recipient contracted herd, or additional sessions (with agreed upon matings) will be conducted until a minimum of 20 transferrable embryos are made. No non-Select embryos may be made until this 20 embryo minimum and first three reproductive sessions are fulfilled.

Note: for option #2, the full contract will be at the sale and must be signed by the buyer before the heifer moves.
