The entire Hanson family welcomes you to our farm and thanks you for taking the time to come be a part of this day. It was a difficult decision to let these girls go but it is one that we did not make lightly. Here at Hanson Hilltop, as I'm sure it is at a lot of farms, it is a family affair. We rely heavily on everyone in our family to fill in when needed. There are four generations currently involved in our dairy. This all started back in 1965 when Bob began this endeavor and continued milking along with his wife, Gloria, and kids for 35 years. In 2000 they sold the cows for the first time but kept 100 youngstock back. In 2002, after coming back from college John began milking again. He started with just 25 cows and grew the herd to what it is today. At our farm we pride ourselves on breeding cows for high type, good feet and legs, udder composite, and longevity.

We want to take the time to thank all the people and businesses that have helped us throughout the years. While we would run out of room naming you all, we hope you know how much we appreciate everything you've done to assist us in becoming the farming operation we have today.

In this industry it is always a sad day when a farm bids farewell. While this is sad for our family, we can't be anything but proud of the cattle we have raised over the years and have provided for you to buy today.

We wish those who purchase our girls nothing but success in the future.

This chapter may be ending but a brand new chapter is just beginning.

Robert and Gloria and Family.

- 2) To the best of the seller's knowledge, each animal is sound and healthy in every respect and embryos have been recovered, processed, frozen, transferred and graded in keeping with IETS recommendations unless otherwise noted in the catalog or announced from the auction stand. Every precaution will be taken to represent the physical condition of each lot exactly as is known. Examination of all purchases should be made immediately after the purchase and before the close of the sale, and if found not to be as represented, complaint must be reported to the sale management before the close of the sale. In the event no complaint is filed, it is understood that the buyer assumes full ownership in the case of animals at sale site together with all risks, after which no representations of the seller can be challenged through the sale management. Heifers that never calved are in no way guaranteed as to the condition of their udders following calving.
- 3) **Breeding Warranty**
The seller guarantees all animals to be breeders, but not beyond the purchase price, with the following understanding:
 - a. Males - Should any bull after reaching the age of fourteen months fail to prove a breeder after being used for two months on cows or heifers known to be breeders, the matter shall be reported in writing to the seller within three months of the sale date. The report must include the animal's examination record, a written statement of treatment, and a statement of the animals' inability to breed,

by a licensed veterinarian. The seller has the option to refund the purchase price or make other settlement that is satisfactory to the buyer. In either case the rights of ownership of the animal return to the seller. The seller makes no guarantees with respect to the ability to freeze semen.

- b. Females - All females are guaranteed to be breeders with the exception of:
 1. Cows over 7 years of age when sold;
 2. Cows and/or heifers carrying a pregnancy that is the result of an embryo transfer.

Report of a non-breeder must occur in writing within 3 months of the date of sale or before the animal reaches 21 months of age and must be submitted to the seller. The report must include the animal's examination record, a written statement of treatment, and a statement of the animals' inability to breed, by a licensed veterinarian. The seller has the option to refund the purchase price or make other settlement that is satisfactory to the buyer. In either case the rights of ownership of the animal return to the seller.

Females bred when sold and pronounced in calf are presumed to be pregnant but pregnancy is not guaranteed unless so announced. The seller makes no warranty that pregnant cows will deliver calves or that they will carry calves full term.

- c. If, after the sale, embryos or oocytes are recovered from a female or an attempt is made to superovulate her, this negates the breeding warranty unless there is a separate written agreement between buyer and seller.
