The Virginia Hereford Association is pleased to announce the 2023 Virginia Hereford Association Honorees are

Bob Kube

Congratulations to this year's 2023 Virginia Hereford Association Honoree, Mr. Robert "Bob" Kube. Bob resides in Broad Run, Virginia, with his wife, Lucy. They own and operate Fauquier Farm which has been in business for over 70 years and are lifetime members of the American Hereford Association. Bob and Lucy have two children, Kurt Kube and Kim Crowe and 5 grandkids, Marshall, Drake, Rachel, Katie and Brooke.

Kayla Harrover states that, "Bob Kube has done what every breeder strives to do ... Survive the times. As breeders we often chase the newest trend or genetic trait but his herd still to this day is known for its functional, maternally based momma cows. The FFV prefix, although not found as often anymore, can still be found in pedigrees on many cattle across the United States. Quite a few of our current Hereford breeders in Virginia got their start by purchasing heifers from Bob. For years he employed local high school students (including myself) teaching us how to operate equipment (and what NOT to do), prep cattle for sale, how to spot pinkeye and other health issues, proper nutrition, and the true meaning of a hard days work. If you've ever worked cows with Bob then you know two things: he only has one speed and don't let him back up the trailer!"

Virginia Hereford Secretary, Cameron Kolinski states that "Bob Kube has a servant's heart. His passion for youth is contagious. I am forever grateful for being selected as a two -time recipient of the Fauquier Farms Scholarship." Bob Kube served on the HYFA Board for several years. The Fauquier Farms Scholarship is a \$2500 scholarship that is awarded every Fall to Hereford Youth in honor of Bob and Lucy's commitment to future generations.

As an Association we cannot think of anyone more deserving. Thank You Mr. Kube for your lifelong dedication to the Hereford Breed, the people, and most importantly the Hereford Youth!

- If you're looking for a herd bull that has the beef and can produce calves potentially equal to or even better than some AI sires, here is your chance. Enduros is an Endure son. Endure is extremely marketable. This bull is dark red, red-necked, red to the ground and has huge goggle eyes. Now look at his GE-EPDs. Calving ease and growth in one package. Imagine what his calves are going to look like and the fun you'll have selling them.

- We have been very impressed with the Historic calves and this heifer is a prime example of why we are continuing to use him in our program. Out of all the heifer calves weaned, Aurora had the highest weaning weight. She is a big-boned, balanced heifer that has so much eye appeal with her deep red color and nice front end. She has the potential to make a junior a nice show heifer for the 2024 season.

- Sired by our current herd sire, Historian, who is a Historic son, this heifer would probably not be in the sale if we were not trying to limit the number of females we are keeping out of him so that we can continue to use him. Out of a first calf heifer that is a former show heifer of Will's, Clementine has really come on in the last month or so. You have to appreciate the size and length that she offers, while being very balanced and correct.
- Study her EPDs, they are incredibly balanced and offer a lot of potential to breed her many different ways depending on the needs of your operation.
- Clementine sells broke to tie and to lead, and we feel that her true potential lies in the cow that she will make for you!
- Sells open and ready to breed to the bull of your choice.

- We all have those cows that are just the "doesn't miss" type and the dam of this heifer is one of ours. A Times a Wastin daughter, she may not be the prettiest cow in the field, but regardless of what you breed her to, her calves perform well.
- Glory is sired by Catapult and has the added thickness and substance of bone that you would expect from that mating.
- This horned heifer is broke to tie and to lead, but her true value will be her ability to produce offspring that will add value to your herd just like her dam.
- Sells open and ready to breed to the bull of your choice.

- A dark, cherry red heifer here that is still super green, but we love her kind. In the right hands, this one could turn some heads. She has all the right pieces, being straight in her lines, long fronted, big footed and big middled. Her dam was a popular grand champion heifer at the Mid-Atlantic Fall Classic a few years back. Her genetics are making their mark on our herd in a good way, and we feel this one can for you, too!

- This unique built Logic daughter is as stout as you can make one. She is so rugged in her build with huge foot and bone underneath her, while still remaining so long necked and elegant fronted. Her mother was a reserve division winner in the owned heifer show at junior nationals. Breed this one to something pretty and you might just hit the jackpot!

- This three-year-old cow is one full of power, yet stills has a soundness to her that keeps her maternal. Fiona is just as successful in the field as she was in the show ring.
