Embryo Safe

Excellence and Excelerant Embryo Sale

Welcome to our embryo sale! This sale is unique in that all of the embryos selling are Mutually Agreeable Sire embryos. We will do our best to work with you to get your preferred sire for mating. These will be made in the next month or so, although if you want to wait a bit and target fresh embryos, we may be able to do that as well with some donors. All our donors are available to make exportable embryos. Whether you are in Canada, Australia, or Europe, we can make embryos for your market and do the testing to make them export eligible. These will all be made at Boviteq's Madison location.

When we started excelerant genetics a few years ago we had a few goals for what we wanted to build. We wanted a quality facility with high quality cows. Cows that aged gracefully. That got better each lactation, and that had quality pedigrees to back up their succes. We are well on our way to accomplishing these goals. Our pens are filled with cows that continue to gain points and fans. Now, the first animals with our prefix are starting to have show-ring success and while we have a few premier exhibitor banners, we think that premier breeder is a realistic goal. Thank you to all who have shared you advice with us as we integrate into this community and thank you to those who continue to have faith in our genetics.
