AMP UP YOUR GENETIC BASE

HILMAR, CALIFORNIA

@vierradairyfarms

We are very excited and honored to welcome you to Vierra Dairy - a place that has been near and dear to our hearts for many generations. Our family has been in the dairy business since the 1940's. Anthony and Marie Vierra landed at this location in Hilmar in 1967 and we have been operating here ever since. Anthony and Marie's eldest daughter Maria, and her husband, Matt Swanson, took over the dairy in 2009, and built it to what it is today. The family business has continued to today, as Matt and Maria's eldest daughter Maia, and her husband, Peter Cipponeri, now manage the 1,500 acre dairy and herd of 6,000 cows. Most days, you can see Maia, Peter, and five-year-old twins, Reagan and River, on the dairy, raising their children in the dairy lifestyle, as the generations before them.

We are incredibly blessed to continue what Anthony and Marie started so many years ago. The strong foundation of Vierra Dairy has been set by the family before us and we look forward to continuing the legacy for years to come!

Our main goal is to concentrate on breeding an elite genetic herd. We have invested in top genetic families, and now continue to enhance these families by using top production bulls like Chief, Skyler, Tenpenny, and Heritage resulting in current and future high impact sires such as – TheBoss, Monarch, Michigan, and Mastodon. We have additional exciting bulls starting the collection process including Cool, Rammstein, and Voodoo Child. Looking to the future, we are excited for the potential impact from our donor program and continue to add high impact females to meet genetic needs for production, health, and udders.

In 2018, we purchased Showdown Justine (E-93%), and that purchase led to the growth and development of our show string and elite type genetic program. We are honored to have had Grand and Reserve Grand Champion in the International Jersey Show at World Dairy Expo for the past four consecutive years. We are also excited to launch Vierra Genetics, powered by JLG, as an outlet to share elite type sires from our best Type genetics from the heart of our show string.

The 2022 AMPLIFY Sale was a tremendous success! Many All-Americans and several champions were in that sale offering. With an extensive IVF and flush program, we are again in the position to offer some of our best genetics as well as an incredible group of consignments to our industry friends. We would like to thank all of the consignors for giving us your best for this exciting event. The success we have experienced in the dairy industry is bigger than us. We feel tremendously blessed and feel that the Lord has allowed our brand, Vierra Dairy, to become world-renowned to give us a platform to glorify the Kingdom of Jesus Christ.

Welcome to Vierra Dairy and the AMPLIFY -Amp Up Your Genetic Base Sale!

IVF SESSION

Buyer is purchasing rights to control the next IVF session(s). Buyer is guaranteed IVF sessions until a minimum of 8 #1 or #2 IVF embryos are produced. Embryo grades are determined at the time of transfer if fresh embryos or at time of freezing if freezing is requested by buyer. Buyer keeps all resulting embryos from these controlled IVF sessions. Buyer is responsible for all costs of the aspiration and mating sire decisions.

NOTES

*AMPLIFY at Vierra Dairy
is excited to announce...*

\$500 JR INCENTIVE PROGRAM

Eligibility:

- Animal is purchased by a jr member at the AMPLIFY sale.
- Animal must be exhibited at the Western Classic (Tulare) by the Jr member.
- Entry fee for the Western Classic is covered courtesy of Vierra Dairy.
- Jr purchase and participation in the Western Classic Jr Show enables a \$400 sale credit off of your purchase!
- If the same jr member exhibits the same sale purchase at the Western Dairy Classic in fall of 2024 (Turlock), they will receive an additional check for \$100!

***A HUGE thank you to
Associated Feed and
Nutrius for sponsoring
this opportunity for the
future of our industry!***

HOLSTEIN ASSOCIATION TERMS AND CONDITIONS FOR PUBLIC SALES

EFFECTIVE MARCH 2, 1996 - Amended October 1, 1997, June 28, 2000, June 23, 2002, and March 26, 2010

TERMS: The terms of the sale are cash unless arrangements are made prior to the sale or are printed in the sale catalog. Only when the above conditions are met will the buyer be entitled to the warranties listed below. In no case will animals be released unless settlement is made with the clerk of the sale.

RESPONSIBILITY: The seller, buyer, and manager of this sale are obligated to comply with the provisions of these terms and conditions.

EXPORT SALES: Buyer assumes all responsibility for health tests required by the importing country.

BIDS: The highest bidder is the buyer. Bidding parties or their agents are responsible for all bids placed. Every animal or lot presented for bidding is pledged to absolute sale. In case of dispute, the animal or lot will again be put up for advance bids, and if there is no advance bid, the animal or lot will be sold to the person the auctioneer accepted the last bid from. In case two or more claim the bid, the auctioneer will indicate the party whose bid he recognized. Other claimants will be given an opportunity to increase the bid and bidding will be restricted to the two or more claimants.

BY-BIDDING: Bidding directly or indirectly by the sole owner of any animal or lot is prohibited unless the intention to bid is disclosed specific to each animal in the catalog and announced when the animal enters the ring. Bidding by any member of a partnership, syndicate, or other entity having an ownership interest in an animal or lot is permitted.

TRANSFER OF OWNERSHIP: For all Registered HolsteinsSM, the transfer of ownership to the buyer will be recorded on the records of Holstein Association USA and a certificate of registration showing that transfer of ownership will be provided to the buyer free of charge. For embryos, the transfer of ownership to the buyer will be recorded on the records of Holstein Association USA free of charge to the buyer.

RISK: All animals located at sale site are at the purchaser's risk as soon as struck off, but will be cared for free of charge for a maximum of 24 hours following the end of the sale.

WARRANTIES:

- 1) Each consignor warrants clear title to the animal or lot, and the right to sell same.
- 2) To the best of the seller's knowledge, each animal is sound and healthy in every respect and embryos have been recovered, processed, frozen, transferred and graded in keeping with IETS recommendations unless otherwise noted in the catalog or announced from the auction stand. Every precaution will be taken to represent the physical condition of each lot exactly as is known. Examination of all purchases should be made immediately after the purchase and before the close of the sale, and if found not to be as represented, complaint must be reported to the sale management before the close of the sale. In the event no complaint is filed, it is understood that the buyer assumes full ownership in the case of animals at sale site together with all risks, after which no representations of the seller can be challenged through the sale management. Heifers that never calved are in no way guaranteed as to the condition of their udders following calving.

3) Breeding Warranty

The seller guarantees all animals to be breeders, but not beyond the purchase price, with the following understanding:

- a. Males - Should any bull after reaching the age of fourteen months fail to prove a breeder after being used for two months on cows or heifers known to be breeders, the matter shall be reported in writing to the seller within three months of the sale date. The report must include the animal's examination record, a written statement of treatment, and a statement of the animals' inability to breed,

by a licensed veterinarian. The seller has the option to refund the purchase price or make other settlement that is satisfactory to the buyer. In either case the rights of ownership of the animal return to the seller. The seller makes no guarantees with respect to the ability to freeze semen.

- b. Females - All females are guaranteed to be breeders with the exception of:

1. Cows over 7 years of age when sold;
2. Cows and/or heifers carrying a pregnancy that is the result of an embryo transfer.

Report of a non-breeder must occur in writing within 3 months of the date of sale or before the animal reaches 21 months of age and must be submitted to the seller. The report must include the animal's examination record, a written statement of treatment, and a statement of the animals' inability to breed, by a licensed veterinarian. The seller has the option to refund the purchase price or make other settlement that is satisfactory to the buyer. In either case the rights of ownership of the animal return to the seller.

Females bred when sold and pronounced in calf are presumed to be pregnant but pregnancy is not guaranteed unless so announced. The seller makes no warranty that pregnant cows will deliver calves or that they will carry calves full term.

- c. If, after the sale, embryos or oocytes are recovered from a female or an attempt is made to superovulate her, this negates the breeding warranty unless there is a separate written agreement between buyer and seller.

SHIPPING: Assistance will be given in arranging shipping of the animals after the sale. All costs, risks and responsibility will be borne by the purchaser.

PEDIGREE INFORMATION: All production, classification, type and production summaries are current. Only information recorded on Holstein Association USA pedigrees is used. Any production or classification records supplied by the seller or consignor will be properly identified as provided by owner. Records in progress are identified as such.

GENOMIC INFORMATION: If genomic information on the animal or embryo is available, it must be dated and disclosed at or before the time of sale.

EMBRYO TRANSFER: All registered animals that have resulted from embryo transfer are identified with one of the following suffixes in the name: ET, ETS (from split embryo), or ETN (from nuclear transfer). If unregistered, the appropriate technology will be identified. Donor dams are identified.

HEALTH WARRANTY: The seller will provide an official health certificate to the buyer for each animal showing the results of all health tests made in preparation for this sale as required by the state where the cattle reside. Other health tests completed for this sale will be disclosed.

ERRORS: The material in this catalog has been carefully edited. If any errors or omissions are discovered, they will be announced. Such announcements take precedence over that printed in this catalog.

ACCIDENT: The sale management, the consignors, and the owner of the grounds will not be responsible in any case for the condition of the grounds or the behavior of the animals and disclaim any liability in the event of personal accident or property loss.

LIMITATIONS OF WARRANTIES: Warranties contained herein, unless terminated earlier, will cease upon the resale of an animal.

THE MOST EFFECTIVE PEST CONTROL AVAILABLE

Our Year-Round IPM (Integrated Pest Management) program is designed to reduce fly populations at your dairy by targeting not just adult flies, but the eggs, larve, and pupae that hide in soil and turn your farm into a breeding site.

- Systematic pesticide applications will alleviate adult fly pressure
- Good sanitation will reduce food and harborage that flies need in order to maintain high populations

INTEGRATING TECHNOLOGY AND PEST MANAGEMENT

At Clark, we use the latest technologies available when implementing a dairy pest management program.

Clark is dedicated to providing its clients with the most effective dairy pest management program in the world.

STRATA
WITH EPA/DHA OMEGA-3s

The Pregnancy Nutrient

Feeding Strata with EPA/DHA at an essential level fills an important nutrient gap that is extremely common in today's dairy diets. The result? Faster resolution of inflammation, healthy embryo development, and improved pregnancy retention.

Days to Pregnancy: 21 Days Sooner

Significant improvements in rate of pregnancy seen when EPA/DHA omega-3s fed vs. cows with no supplemental omega-3s.

Reduced Heat Stress Effects with EPA/DHA

EPA/DHA helps resolve inflammation, thus sparing glucose for milk during heat stress
