GENOMIC
SELECT SALE

February 2, 2024 • 11:30am CST

*Sale will be conducted online with Real Time bidding on [Cowbuyer.com](https://www.cowbuyer.com)

We met 20 years ago, not surprisingly, at a cow show. We were married 5 years after that. With both of us being heavily involved in the dairy cattle industry, and a passion for marketing genetics, we set on a path that was important to us, to create our niche and define our goals. Starting with an interest in showing cattle, like many of us, we were and are still involved in showing at all levels, but with the onset of genomics, we set out to work with other breeders, sharing insights of what works and how we can make the Holstein breed more efficient, more productive and add to all dairymen's bottom line. We like balanced cattle, embracing high GTPI and NM\$ coupled with great type and we believe you will see that as you review our catalog. We seek out advice from everyone and take what works for us to define, "Danhof Genetics" that both sells in the marketplace and improves the Holstein breeds genetics base.

Through our travels and the friendships we have made in the registered dairy cattle business, we have gained a great insight into international marketing. We have been heavily influenced by the European market and proud of the genetics we have shipped overseas since we started world-wide marketing, even establishing a strong nucleus genetic herd in the EU with strategic partners. As you review each lot available, we believe, the right sire cross was used to make the next generation better and afford breeders an opportunity to take home a female that will improve the genetics in their herd.

We love the camaraderie in the Holstein business and value the ties we have with the breeders we have purchased genetics from as well. Feel free to reach out after the sale anytime for opinions or advice, we wish you nothing but the best!
