Andrew Hetke

Welcome to the 2nd edition of the Triple-Hil Sires Progeny Classic!

This catalog is very meaningful to us, because it represents not only the type of genetics we have striven to provide to cattle breeders over the past 14 years, but even more importantly, the wonderful relationships and connections we've made over the years with all our friends in this industry!

Where do we begin to give recognition? Above all, we are grateful to our Creator and Lord and Savior Jesus Christ for all the blessings we've experienced in life. We also appreciate the support of our wives and families through the years.

Any success that Triple-Hil Sires has enjoyed we owe to the cattle breeders who have bred the bulls in our lineup. You believed in our breeding philosophy and goals and stuck your necks out to support a couple of teenage boys and their fledging bull stud. It's been such a privilege to spotlight the decades of balanced breeding that oftentimes gets overlooked by mainstream A.I.

Of course, we are indebted to the hundreds of dairymen and women who have supported our company for many years and have added THS bulls to your breeding program. We have stated many times over the course of this journey "Your success is our success", and it's still as true as ever! For us the true test of a bull comes when his first crop of daughters hit the milking string. If you as the farmer see enough improvements in the mating to go back and use that bull again - that's the most rewarding part of this business to us!

We also appreciate the partnerships with other industry companies, including Masterpiece Genetics, Browndale Specialty Sires, K.I. Samen, and Ayrshire Ambassadors Cooperative. These relationships have helped to expand Triple-Hil Sires' reach both geographically and into more dairy breeds!

We extend a warm thank-you to the companies who helped to sponsor this sale catalog. We appreciate your support! Take a moment to view their ads interspersed through these pages.

This sale has been in the makings for a couple of years, and over the past few months we've traveled the country making final selections. We are extremely excited about this group of consignments! These breeders opened their doors to us and let us take the cream of the crop! We hand-picked cattle that met our criteria, both in the quality of their pedigrees and also their overall balance and conformation. It's been gratifying to see many of the consignments from our 2021 sale go on to perform and score well for their new owners. We truly believe these offerings today can make you money and begin a new chapter to your breeding program!

Thanks for your interest in this sale, and we sincerely desire that Triple-Hil Sires can continuing being a positive and complimentary bull stud for the dairy-cattle breeders of the world!

Sincerely,

The Crew at Triple-Hil Sires

Area Lodging

Hampton Inn, Hagerstown: 301-739-6100
Holiday Inn Express & Suites, Hagerstown: 301-745-5644
Sleep Inn & Suites, Hagerstown: 301-766-9449
Microtel Inn & Suites, Hagerstown: 240-527-2700
Super 8, Hagerstown: 301-582-1992

Air Travel

BWI, Dulles, Reagan and Harrisburg Airports
all within 1 1/2 hour drive.

All cattle will be tested for TB and Brucellosis. A veterinarian will be onsite to write health papers for cattle sold out-of-state. For Canadian buyers, housing arrangements can be made until cattle leave for export.

Buyers must pay the day of the sale with cash or good check unless arrangements have been made beforehand. Credit cards can be used with a 3% buyers fee. Don't bid if you don't have the money. Announcements take precedence over printed material.

FIRST CHOICE FEMALES: 35% Down-payment at sale day; the remainder will be paid upon selection. Buyers of choices are guaranteed at least two live heifer calves to pick from. The buyer is responsible to make the selection by the time the youngest animal reaches four months old. The seller can charge for feeding and housing expenses following four months of age.

You won't need a bidder's number.
This auction will use the slip method.

View/bid in realtime at www.cowbuyer.com

Comments

Over the past few years at Triple-Hil Sires, we've purchased flush rights from several great cows that fit our criteria for bull mothers of future sires. Now you have the opportunity to own the heifers that resulted from these matings!

"Subliminal" is one of those one-name cows in the industry who has accomplished a staggering number of achievements. She achieved the maximum EX-97 classification score and produced over 300k of milk! This all the while being on the show circuit and making embryos at the same time. We congratulate her breeders and owners for developing this grand old Queen!

In today's high type Holsteins, some cows have lost the depth of rib and 'triangular' shape that defines a great dairy cow - but not Subliminal. She embodies "true dairyness"!

Comments

This R&W Winter Calf is the result of a mating that was made for a future stud. Combining Maneuver with this branch of the Apple's brings many qualites to the table. He just received his first proof in Canada and many good reports are flowing in on his milking daughters! Augustine is red and polled!

This is a special one! We purchased rights to flush Elouise and Eloquent is the only resulting heifer! She is marked like mamma, with an extreme amount of dairyness and depth of rib.

Elouise, bred by our friends at Tombeth, was just an amazing cow with youthfulness that belied her age! Soon after we made the mating, she was put up for EX-96 but tragically and unexpectedly died before the classifier committee saw her!

We are excited to announce that a full-brother to Eloquent will be joining the lineup at THS in a few months. We love the potential of the Forrest x Elouise cross!

Comments

Jessa is an early Challenger-Red daughter, and she sells just fresh, along with her polled heifer calf!

This pedigree is special, as Jessa is backed by seven generations of EX-94 or higher cows! Her grand-dam is the great Talent Tilly and her Redburst dam is still alive and thriving for our friends at Skip Holsteins!

Comments

Annabelle is an exciting Winter Calf. Her dam is a max-scored Doc daughter of Afro. She's been dry for awhile as a donor dam, but the Engel's are gearing up to calve her again. If you were at the recent Luck-E sale and saw her, you would know this cow has a few points left in her easily! A full brother to Annabelle will be joining our lineup in the future.

Comments

We definitely took the road less traveled on this mating! But with the increasing interest in linebacks, we took the opportunity to use this gorgeous EX-95 lineback bull on Gloriana who is a 19th gen EX back to Audrey Posch.

These calves have the potential to be R&W, polled and lineback! They will be born by sale day, and they all will sell!

Comments

This spectacular Atlanta heifer is as sharp-looking as they come, and she's polled and A2 as well! Her dam is a typical Whiteout daughter, who has the makings to be a high VG or EX cow in a few years.

Comments

Horizon P-Red, a R&W polled lineback bull from the Helen family has received wide use from dairyman over the past year, including many foreign countries as well.

This sweet, dairy Horizon calf from from the Ashlyn's unfortunately didn't get the line, but she is polled!

-Ernest-Anthony Aphrodite (EX-95 2E)

Comments

Tri-Day Ashlyn still stands as the undefeated brood cow with the most EX daughters -- Currently 73 worldwide!

Here are 4 calves from her Atlanta granddaughter. This family generally excels in quality, large frames and good components.

This winter calf, by Radix is a well put together calf!

Comments

The dam of this polled Atlanta fall calf has a big future! Bringing in Harry Weier's breeding through her sire Storm Cloud and combining it with the Ashlyn's produced some incredible capacity. The next dam is an EX-92 Armani that we bred and developed at THS. She was a tremendous cow, with more points in her, and unfortunately died before her full potential could be realized.

Comments

Two offerings from the amazing Sassy family at Ocean-View. These are cattle that score high and milk well, and this Diamondback dam is developing true to her breeding! She could be a high-scoring cow someday!

Combine that with Malki's consistency and tremendous udders...this heifer is the real deal! She's black and balanced!

Comments

The dam of this sweet little spring calf hasn't been pictured yet, but she sure could use one! This hard-working Saloon daughter from the heart of Cedar-Crest breeding just calved in again and looks amazing. Crossing her with Cash should result in tremendous balance and tons of milk production!

Comments

Emoji should be getting a proof later this year, and there are already some good reviews coming in on his early milking daughters! This bred heifer is sleek and black, with an incredible amount of dairyness, and backed by 9 generations of VG and EX cows.

Welsh-Edge Pep Glee-Red

Reg: 3259989887 100% RHA-NA | I.D.#7 | DOB: 8-10-2022
 Bred 10-17-2023 to 204HO2050 Reality-Red
 Due to calve: 7-25-2024

Comments

What an amazing heifer! This R&W Pep springer looks like she could hit the tanbark. Her dam is a great EX-92 Heztry who just surpassed 200k in her productive career and is still going strong - and then straight back to the Queen of Welsh-Edge - Durham Gingerheart!

Lots to love about this one, and she is due to have you a R&W calf next month.

Comments

Great Guy is developing very well, and we're very excited about how his oldest heifers are looking at Welsh-Edge. This beautiful bred heifer is a close descendant of the Queen of Pennwood - Leader Rocklyn! This magnificent cow was one of the few that combine everything in one package- A commitee cow, huge production, high components, and a list of accomplishments in the show ring.

We do not understand:

Joy...until we face sorrow;

Faith...until it is tested;

Peace...until faced with conflict;

Love...until it is lost;

Hope...until confronted with doubts.

525HO122 Mt-Glen Jonah FORREST (EX-93)

We are the Jackson family, located in the shadows of Mt. Pisgah in Bradford County, Pennsylvania. Our breeding program focuses on balanced type with eye appeal, performance, transmitting ability, and longevity. When you can accomplish all of those things, it is amazing what the lifetime productivity of a cow can be. We want our cows and bulls to have these qualities, be easy to work with, and look good doing it.

I was very fortunate to have been raised in a family dedicated to the Holstein breed. Growing up in Bradford County gave me many opportunities to serve our Holstein industry at an early age. My Holstein career continued at the state level where I served as Director, on the Executive Committee, and as President.

Thank you for allowing me to serve as your National Director for the last three years. I ask for your continued support as I run for another three-year term starting in June 2024. Respectfully, Dean Jackson

Comments

This beautiful Black Eagle daughter is backed by two tremendous cows who exemplify the strength of Mt-Glen's breeding program.

Her grand-dam, Jonah Lexi was the very first Jonah daughter to calve at Mt-Glen and she has gone on to score EX-94 and now with 9 calvings under her belt, is amassing a huge lifetime record.

Louie Lemonade is following in her mother's footsteps and will be calving in with her 7th calf this year!

Comments

*Mt-Glen Dundee Lovely was an iconic cow in her own right, in terms of conformation and production. She's played a major influence at Triple-Hil Sires through her son, grandson and great-grandson. Her daughter by Buck is shaping up to be a real brood cow also. Here's her incredible *RC, polled Risk heifer!*

Comments

Two branches of the "L" family converged here to produce this wonderful young two year old cow!

Lion King is stamping out a lot of solid cows with a will to milk. Add in a dose of Aftershock and you can't go wrong!

Here's a rare chance to own one of the best young cows at Mt-Glen today!

Comments

The first crop of Forrest daughters at Mt-Glen are tremendous, with three already scoring EX!

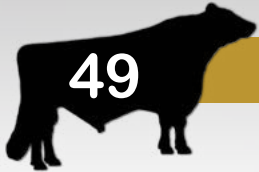

The dam of this Radix heifer is arguably one of the best Forrest daughters, with a balanced frame, high wide rear udder and high milk production!

This pedigree is stacked with high performance. Here's Radix Hooray!

Comments

This promising Lithium springer hails from Ju-Vindale breeding. This line traces back to the very first cow the Wagner's purchased when they started dairying in 1976. The Jackson's have done a great job developing this wonderful EX-93 Trump that is the dam of the heifer selling.

BALANCED BREEDING

Left to Right:

Wilonna Odyssey Mitzi (EX-95 4E)

Sire: Dreamstreet Odyssey-ET

Wilonna Inspir Calypso-Red (EX-92 4E)

Sire: Hanoverhill Inspiration

Wilonna Sexy Lightning-Twin (EX-93 3E)

Sire: Ocean-View Sexation

Pictured in front the famous Balanced Rock near Buhl Idaho. This impressive rock is 48 feet tall, weighs over 40 tons, and is balanced precariously on a pedestal only 3 feet by 17 inches.

From the very beginning, our program has been about balanced breeding. My belief is that the more generations of VG and EX you add on top and bottom of the pedigree, the more likely I am to achieve the results I'm looking for - more generations of VG and EX cows!

This has worked very well for us through the years. We started the Wilonna prefix in 1985 and since then, we've bred approximately 175 EX animals in a herd averaging 70-75 cows. In that group there has been 3 EX-95's, 11 EX-94's, 14 EX-93's, 28 EX-92's and our current BAA stands at 111.3%

We now have a Trans Ova IVF center just a few miles from the farm, making embryo production easy and efficient. I encourage anyone who is interested in embryos from our genetics, don't hesitate to reach out!

Our relationship with Triple-Hil Sires began when they started marketing semen on Wilonna sires years ago. We shared similar ideas and breeding goals and it's been a great experience working together to supply Holstein breeders with balanced genetics! --Bill Stoltzfus

We believe the bulls at Masterpiece Genetics can greatly compliment THIS genetic lines- and that is exactly what this mating does! Crossing the high-type Mirand and Unstop-pabul blood with the great Wilonna breeding should give you an amazing blend of qualities! The dam of these embryos is an EX-94 Jonah daughter x a VG Sexation x an EX-94 Deslacs Midite x EX-93 Triple-Threat. You can't get much more unique than this, folks. Invest in the future with these embryos!

Comments

Bill Stoltzfus has spent the last several decades developinig a herd of cows that will thrive with minimal input, breed back every year and stay in the herd for a long time. That's exactly what this particlular pedigree is filled with to the brim. Like begets like. Bid with confidence!

Comments

A breeding age Battle daughter! Her dam is a beautiful young cow, who now fresh with her 2nd calf, will be re-scored before sale day.

Heide is a red carrier from the great Dream family!

Comments

This breeding-age Denali heifer traces back to the incredible EX-94 Linjet that you see pictured above.

This pedigree includes influence from Luck-E and Burket-Falls breeding programs- Denali x Atlanta x Clique x Contender - Now you can continue this line of balanced breeding.

WHOLE RAW MILK

Hilltop-Haven Chelio Amelia
(VG-87 3yr)

Hilltop-Haven Aspen Fiddle
(EX-93 4E EEEEE)

FOOD THAT IS ALIVE

"Milk is a food, not a drink; and other beverages aren't food."

- Dr. Jana Kraft, Human Nutritionist

Hilltop-Haven Holsteins

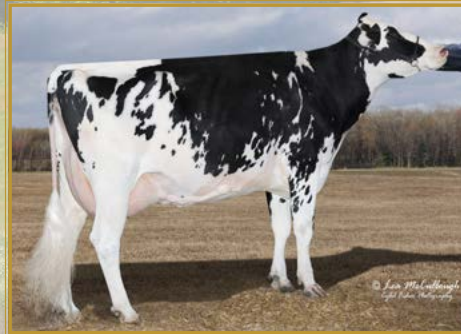

Nevin Martin Family
3422 Carter Road
Moravia, NY 13118
315-730-6044

Here at Hilltop-Haven Farms, we house around eighty cows that are fed a high-forage diet that includes about seven months of rotational grazing.

Our cows are not pushed for high production, but rather high components, and we emphasize high-quality raw milk for our customers.

Muranda Rubens Lottery
(EX-90 EEEVV)

Hilltop-Haven Bice Kate
(EX-90 2E EEEVE)

Hilltop-Haven Peg-ET
(EX-92 2E EEEVE)

Over thirty years ago we moved from Ephrata, PA to central New York with a genetic base from Spring Shade Holsteins. We were able to tap into more good genetics from astute breeders such as Pineyvale, Ridgedale, and Muranda Holsteins. In 2000 we had the privilege of bringing in three cows from the Wimpy family from Nu-Wing Holsteins, and they also have had a tremendous impact on our herd. We are indebted to these five breeders for the foundation of our herd.

We've used mostly Triple-Hil Sires for nearly 7 years and have been very satisfied with the results. Using these deep-pedigreed sires, along with aAa as our mating program makes breeding cows easy and produces solid, functional cattle that will last!

Comments

This very correct Whiteout heifer comes from a royal heritage - none other than the EX-96 Stormi Hazel! Whiteout x Goldchip should be an excellent cross. When you think of all the sires in this pedigree that are known for making old cows that last- Leader, Linjet, Gold Chip, Aftershock, etc - the odds are stacked in your favor for sure!

This Done Right 2 year old is the type of cow that will just keep getting better with each calf and go on to be an EX cow. She traces her maternal line back through the same great Jericho-Dairy breeding that produced the likes of Barley and Baracuda. Add another generation of greatness with her R&W Lu-Tenant heifer!

Springlake Holsteins

We started dairy farming in the summer of 2022 when we had the opportunity to buy part of the Willye herd from Tunkhannock, PA. The Wilson family, owners of Willye Holsteins, have developed a nice herd of cows with many good cow families represented, including Chapel-Bank Outside Hellen, Jerico-Dairy Baracuda, Ridgedale Estelle, and Greenlea Rub Marlene.

Comments

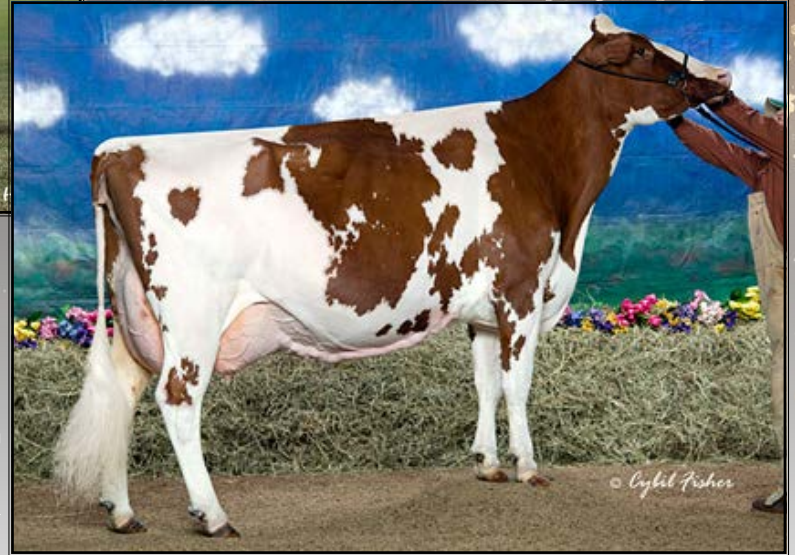

The impressive award-winning EX-96 'Baracuda' is the grand-dam of this lovely R&W Lu-Tenant winter calf!

This family line has proven to be very successful in many different branches, with conformation, components and longevity being transmitted. The dam is still in the barn and should make another great record this year.

Comments

Here's a R&W Challenger heifer from the same cow family behind one of the early sires at THS- 525HO102 Ready-Red (EX-93). Richard Green's Greenlea prefix was synonymous with high-quality red & whites in the early 2000's.

Now this pretty heifer has Apple as her grand-dam on the top side, increasing the great blood flowing in her veins!

Comments

One of the bulls whose daughters really stood out to us during our sale selection travels, was 525H0143 Sunrise P-Red. They are good! Square, wide-rumped, with lots of spring and depth of rib! Take this girl home and breed her to the sire of your choice.

Lots to like here with this dam/daughter pair that sells! We picked out this balanced Action daughter as a cow who typifies the kind of balance that we're looking for. She's the right size to fit in any management system, with moderate stature, width throughout, solid F&L, and a wonderful mammary system. And she carries the Deep-Valley prefix, from the same cow family that Deep-Valley Contender-Red hails from. Her Ice Cloud calf was a standout in her pen. She's black, with lots of strength and straight lines! This is the only daughter of the EX-95 Ice Cloud selling!

Another really good Sunrise daughter. We saw dam as a dry cow, and she looks like an easy EX cow when she calves in again! Behind her are generations of Globe-Run breeding.

Comments

What an exciting opportunity! A fancy fresh daughter of crowd-favorite "The Yoder"! Space doesn't allow us to catalog all the achievements in this pedigree, which includes 2 of the greatest cows to ever grace the barns at Liddleholme. Yazmine could bring limitless potential to your herd!

Million-Heir Cash Hottie-ET

Reg: 145596701 100% RHA-NA | I.D. # | DOB: 3-06-2023 | *RC

Comments

The Cash x Hotstuff mating was made in effort to make as stud bull. Unfortunately no bulls resulted from it, but here is a beautiful heifer to take your breeding program to the next level! Cash is proving to be a great source of width, dairyness and style, and we think combining him with this big league brood cow might just hit one out of the park!

Comments

Invest in the future with these HOT embryos-
Sired by the popular R&W polled Blaze-Red, the
resulting calves will be grand-daughters of the
famous cow everyone knows as "The Doc".
Our friends at Pine-Tree are developing this
Lambda heifer and have big hopes for her future!

Comments

Although her sister has received more attention, this Done Right daughter of Apple is developing well for her owner, and has all the makings to be an EX cow. Feature P should be a wonderful mating on her, and the calved could be red and polled!

Comments

Here are two exciting offerings from Ja-Bob's first and only 10th generation EX cows. Jolly is a beautiful cow with tons of width and dairyness combined. Her production is impressive, with her last lactation producing over 2,000 lbs of fat!

Both of these matings bring great potential! Performer-Red, from K-I Samen is a bull that has impressed us greatly with his milking daughters here in America!

The Risk embryos could make you R&W homozygous polled calves from this phenomenal world-famous cow family!

Comments

What an opportunity! This fancy, fancy Atlanta heifer is right out of the EX-94 Airlift sister to Radix!

As you can see in the photo above, Analise is an incredible cow, with all the length, stretch, dairyness and strength that you can wish for in a mature Holstein cow.

The matriarch of this pedigree, Elk-Lick Charles Ardel, often described as a hidden gem, transmitted with extreme consistency to her progeny. This heifer could change the trajectory of your herd, just like her grand-dam did for the Mast family!

Comments

This is a unique offering! Most Wanted is a very popular young sire in Europe and hails from a component-rich pedigree. His dam is a beautiful cow who is in her 7th lactation. Backed by 7 generations of EX-94 or higher, the EX-92 Crown-P dam of this choice made a huge record, and just calved again recently.

Comments

*A R&W Sunrise daughter from the Talent Tilly family!
 She's long and balanced, with deep sweeping rib and backed
 by 11 generation of EX cows!
 Her Awesome-Red dam was Lot 7 in the 2022 Lin-Ro dis-
 persal. As a typical Awesome, her udder is her best point.*

Comments

A very special offering indeed! You get to pick from three early Bravo calves that will already be born by sale day.

Their dam is an EX-94 Goldwyn sister to Talent Barbara. Of course, you could fill pages with the success of this maternal line, going back to the iconic 4th dam, Tony Beauty herself!

Think about it - with this pedigree, you are combining the likes of Advent Barley, Chelios Cheerio, Outside Breeze and Gypsy Grand! Like begets like!

Comments

A milking 2yr old daughter of the most popular bull in THS history, and she's backed by a tremendous maternal line as well! Banner is a typical Rex daughter, with moderate size, great feet & legs, and a smashed on udder! Her dam, an EX-91 Corvette daughter of Barley looks like 91 points won't be stopping her. And check out the 3yr record she just finished up!

Comments

For those who like balanced young cattle, you're sure to love this Cash springer! She's due in September, so you won't have long to wait till she joins the milking string and starts making you a profit. Money's Diamondback dam should go up in score, and behind her are 9 generations of EX cows, including the one-and-only Barbie!

Comments

This fancy R&W Winter Calf has a cool pedigree! Her sire, Reality-Red is a bull that we have marketed at THS for years. He's a well-respected R&W sire of great dairy cattle and excels in transmitting butterfat.

The grand-dam of Realblue-Red is the spectacular EX-94 Goldwyn pictured at the top left. You can sure see the similarities to her grand-dam pictured beside her-the great Barbie herself!

Comments

*This sleek, black Rex daughter is directly from the excellent Canadian Comestar breeding in Canada!
 Rex-PP-Red is one of the most consistent sires we've ever worked with, and the best ones are usually from sharper, high-type maternal lines like Hopra Atwood!*

Comments

Another result of a former THS Progeny sale, the dam of this choice sold as a yearling heifer to the Horst brothers in Pennsylvania. She has developed into a magnificent cow! We saw her recently, and she is the kind of cow that could easily gain another point or two with another calf! And she sure knows how to put milk in the tank too! The resulting McDavid PP calves will all be polled and they could be red also!

Comments

The dam of this young cow was purchased at our 2020 tag sale. Since then, the next 2 generations behind her both scored EX, making it an unbroken line of EX cows back to August! We saw the Atlanta recently, and she looks like a potential EX cow herself.

Comments

*Add the title of 'great lineback breeder' to the list of Burket-Falls accomplishments! They have bred an EX-95 lineback cow and an EX-95 lineback bull to date! Top-Of-The-Line was a gorgeous bovine specimen, and now you can own this polled, *RC daughter. Her grand-dam is a tremendous old EX-92 Dominant daughter who made well over 200,000 lifetime production.*

Comments

This Enlight daughter is an wonderful example of Burket-Falls breeding. Don't let her 2 year old score fool you -she hasn't been seen by a classifer for several years, but she will be scored again before the sale.

She's a proven profit-maker, and has everything in place to go on and make a great addition to your herd. Red & white and polled cow from Burket-Falls!

Comments

This polled, R&W heifer traces back to Roxy on both top and bottom. The Peachey family focused on breeding balanced cows who would be healthy, breed back, and stay in the herd for years. Roxbury has the odds stacked on her side!

Comments

This is quite an exciting dam/daughter pair! They hail from a well-known brood cow family-the great Penn-Gate Skychief Finesse.

Silky sells fresh with her 2nd calf, and will be scored again before sale day. She's good! Her daughter by Panic is beautiful heifer as well, and you won't have long to wait as she's due in August! Homozygous polled and A2A2!

Comments

This is the only milking Radix daughter in the sale, and she is special! Bred by Cedar-Crest Holsteins, Dance hails from a long line of highly productive cows! Both her dam and grand-dam are still in the herd.

Comments

No THS Progeny sale would be complete without representation of Dun-Did breeding! Howe-Ae Holsteins sends this complete lineback package that is linebred top and bottom through the great EX-94 Senator Aleasha who you find in the pedigrees of several Dun-Did sires in our sire lineup over the years. Aztec-Red is a R&W polled grand-son of Apple herself. If you want to get involved in top quality linebacks - here's your chance!

Comments

Incredible upside to this show-aged R&W lineback Aztec heifer! Her dam is a wonderful EX-92 Absolute daughter who is still in the herd today, and already has one EX and two VG daughters to her name.

This cow family traces through mostly R&W cows way back to the 70's when good R&W cows were a rare commodity. 525HOT20 Redcloud-Red hails from this line as well, and you can see his incredible Advent dam pictured above.

The Howe family sent us the cream of the crop with this heifer! A polled Maneuver daughter, due to calve in September! Her dam was a powerhouse producer, and in 2023 received recognition as the top milk cow in their county! Behind her are two more generations of EX cows with 30,000 lb records-

The Maneuvers in Canada are getting great reviews, and you only have a few months to wait until this one calves in!

Comments

Our good friends at Midnite-Blu Holsteins sent us a pair of nice heifers! They focus on breeding cattle with strong, wide frames and welded on mammary systems that will thrive and produce in a very low-input management system-

This Black Onyx heifer comes from a dam and grand-dam who have milked quite well in their setup, and with the reputation of Black Onyx, this solid heifer could really put some milk in your tank!

Comments

This fancy polled heifer is the oldest Feature daughter to sell! Her grand-dam is currently the highest scored Pep daughter that we know of, and she's still in the herd, calving in every year on the dot.

These cattle are bred to mature gracefully, and we would expect that this heifer's Ice Cloud dam will be an EX cow someday. Backed by 6 generations of EX cows from Midnite-Blu!

HOLSTEIN ASSOCIATION TERMS AND CONDITIONS FOR PUBLIC SALES

EFFECTIVE MARCH 2, 1996 - Amended October 1, 1997, June 28, 2000, June 23, 2002, March 26, 2010 and March 24, 2016

TERMS: The terms of the sale are cash unless arrangements are made prior to the sale or are printed in the sale catalog. Only when the above conditions are met will the buyer be entitled to the warranties listed below. In no case will animals be released unless settlement is made with the clerk of the sale.

RESPONSIBILITY: The seller, buyer, and manager of this sale are obligated to comply with the provisions of these terms and conditions.

EXPORT SALES: Buyer assumes all responsibility for health tests required by the importing country.

BIDS: The highest bidder is the buyer. Bidding parties or their agents are responsible for all bids placed. Every animal or lot presented for bidding is pledged to absolute sale. In case of dispute, the animal or lot will again be put up for advance bids, and if there is no advance bid, the animal or lot will be sold to the person the auctioneer accepted the last bid from. In case two or more claim the bid, the auctioneer will indicate the party whose bid he recognized. Other claimants will be given an opportunity to increase the bid and bidding will be restricted to the two or more claimants.

BY-BIDDING: Bidding directly or indirectly by the sole owner of any animal or lot is prohibited unless the intention to bid is disclosed specific to each animal in the catalog and announced when the animal enters the ring. Bidding by any member of a partnership, syndicate, or other entity having an ownership interest in an animal or lot is permitted.

TRANSFER OF OWNERSHIP: For all Registered HolsteinsSM, the transfer of ownership to the buyer will be recorded on the records of Holstein Association USA and a certificate of registration showing that transfer of ownership will be provided to the buyer free of charge. For embryos, the transfer of ownership to the buyer will be recorded on the records of Holstein Association USA free of charge to the buyer.

RISK: All animals located at sale site are at the purchaser's risk as soon as struck off, but will be cared for free of charge for a maximum of 24 hours following the end of the sale.

WARRANTIES:

- 1) Each consignor warrants clear title to the animal or lot, and the right to sell same.
- 2) To the best of the seller's knowledge, each animal is sound and healthy in every respect and embryos have been recovered, processed, frozen, transferred and graded in keeping with IETS recommendations unless otherwise noted in the catalog or announced from the auction stand. Every precaution will be taken to represent the physical condition of each lot exactly as is known. Examination of all purchases should be made immediately after the purchase and before the close of the sale, and if found not to be as represented, complaint must be reported to the sale management before the close of the sale. In the event no complaint is filed, it is understood that the buyer assumes full ownership in the case of animals at sale site together with all risks, after which no representations of the seller can be challenged through the sale management. Heifers that never calved are in no way guaranteed as to the condition of their udders following calving. The sex of an embryo or fetus is in no way guaranteed.

3) Breeding Warranty

The seller guarantees all animals to be breeders, but not beyond the purchase price, with the following understanding:

- a. Males - Should any bull after reaching the age of fourteen months fail to prove a breeder after being used for two months on cows or heifers known to be breeders, the matter shall be reported in writing to the seller within three months of the sale date. The report must include the animal's examination record, a written statement of treatment, and a statement of the animals' inability to breed,

by a licensed veterinarian. The seller has the option to refund the purchase price or make other settlement that is satisfactory to the buyer. In either case the rights of ownership of the animal return to the seller. The seller makes no guarantees with respect to the ability to freeze semen.

- b. Females - All females are guaranteed to be breeders with the exception of:
 1. Cows over 7 years of age when sold;
 2. Cows and/or heifers carrying a pregnancy that is the result of an embryo transfer.

Report of a non-breeder must occur in writing within 3 months of the date of sale or before the animal reaches 21 months of age and must be submitted to the seller. The report must include the animal's examination record, a written statement of treatment, and a statement of the animals' inability to breed, by a licensed veterinarian. The seller has the option to refund the purchase price or make other settlement that is satisfactory to the buyer. In either case the rights of ownership of the animal return to the seller.

Females bred when sold and pronounced in calf are presumed to be pregnant but pregnancy is not guaranteed unless so announced. The seller makes no warranty that pregnant cows will deliver calves or that they will carry calves full term.

- c. If, after the sale, embryos or oocytes are recovered from a female or an attempt is made to superovulate her, this negates the breeding warranty unless there is a separate written agreement between buyer and seller.

SHIPPING: Assistance will be given in arranging shipping of the animals after the sale. All costs, risks and responsibility will be borne by the purchaser.

PEDIGREE INFORMATION: All production, classification, type and production summaries are current. Only information recorded on Holstein Association USA pedigrees is used. Any production or classification records supplied by the seller or consignor will be properly identified as provided by owner. Records in progress are identified as such.

GENOMIC INFORMATION: If genomic information on the animal or embryo is available, it must be dated and disclosed at or before the time of sale.

EMBRYO TRANSFER: All registered animals that have resulted from embryo transfer are identified with one of the following suffixes in the name: ET, ETS (from split embryo), or ETN (from nuclear transfer). If unregistered, the appropriate technology will be identified. Donor dams are identified.

HEALTH WARRANTY: The seller will provide an official health certificate to the buyer for each animal showing the results of all health tests made in preparation for this sale as required by the state where the cattle reside. Other health tests completed for this sale will be disclosed.

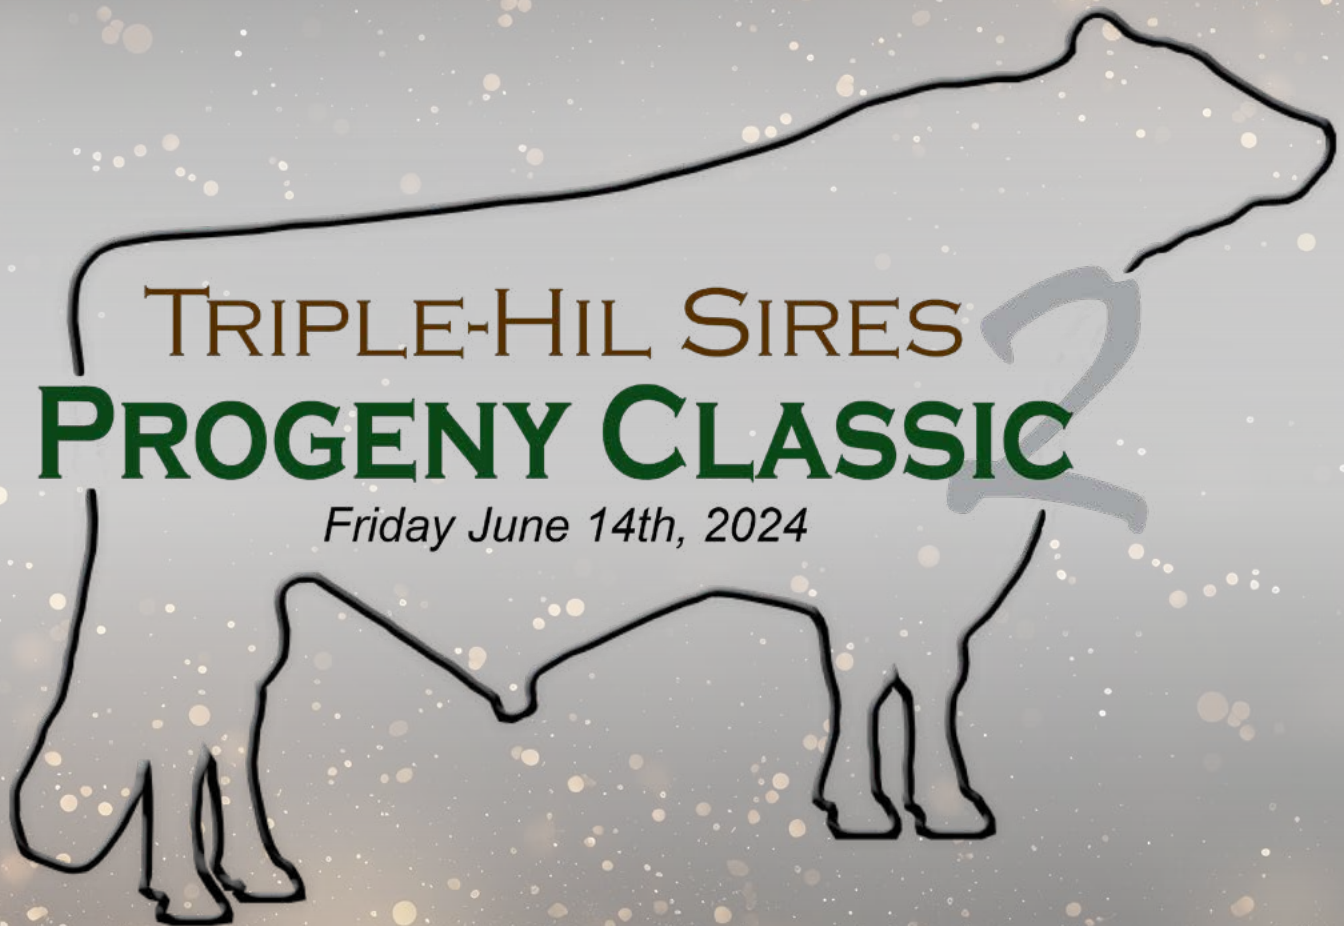

ERRORS: The material in this catalog has been carefully edited. If any errors or omissions are discovered, they will be announced. Such announcements take precedence over that printed in this catalog.

ACCIDENT: The sale management, the consignors, and the owner of the grounds will not be responsible in any case for the condition of the grounds or the behavior of the animals and disclaim any liability in the event of personal accident or property loss.

LIMITATIONS OF WARRANTIES: Warranties contained herein, unless terminated earlier, will cease upon the resale of an animal.

“The person who follows the crowd will usually go no further than the crowd.

The person who walks alone is likely to find himself in places no one has ever seen before. - Albert Einstein
