

Lot 5 Dam scored VG-89 @ 2-09

Lot 13 Brilliant's first IVF Session from Jan. 22nd, 2024, to Jerry Lewis resulted in 26 oocyst produced, 21 cleaved, and 8 embryos frozen (6 #1 and 2 #2 Quality)

**SPECIAL OPTION:** The buyer has the option to take control of Brilliant's current IVF Session that was performed by Trans Ova. Brilliant was OPU on Feb. 5th which resulted in 30 oocysts being collected and fertilized to Sexed Bullseye in the TOG - Madison Lab. If the Buyer chooses, they are responsible for all costs associated with this IVF Session. If the buyer chooses to take this option they will receive special pricing through Budjon & Trans Ova. Contact Tom at Budjon for any further details or questions.

Lot 19 The embryos are at the consignor's farm but the consignor will deliver to Klinedell Farms, a Trans Ova facility if that helps the buyer.
