Sale Catalog

Sale begins at 1:00pm

Glenbrook Farm

About Us

Matt started raising commercial Katahdin sheep in 2008 on his parent's farm. In 2009, he sold that flock and bought a registered flock of Katahdins and moved them to the current farm location. In 2013, he joined the National Sheep Improvement Program which provides estimated breeding values to select animals using data. In 2018, he added a small flock of White Dorpers from Paul Lewis in Oregon. He also added a few Romanovs that same year. In 2022, we added Texels from the West Virginia University flock dispersal which brings our current ewe flock to approximately 130 Katahdins, 30 White Dorpers, 20 Romanovs, 20 Texels and 150 commercial ewes.

Our goal as a farm is to use data and visual appraisal to breed sheep that excel in commercial sheep production. For any questions please contact Matt Nolt at **(717) 419-1980**.

Thank you for your interest in our sheep!

Matt and Katie Nolt

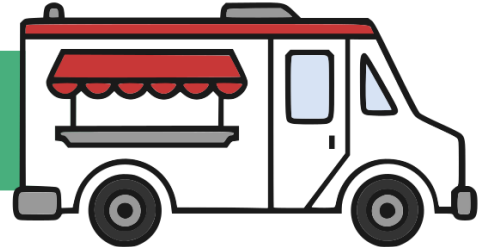

Schedule

7:30 AM—Coffee and Donuts

8:00 AM to 12:00PM — Sheep Production Sessions

1:00 PM — Sheep Sale Begins

Food Truck Available At Lunch!

Biosecurity is very important to us. PLEASE wear clothes and shoes that are clean or have not been in contact with your sheep.

Made Possible By

Special thanks to Cowbuyer.com for helping with the online auction and Tim Weaver Auction Service. The terms and conditions for the auction are as follows. The auction company and sellers are not responsible for accidents. Auction day announcements take precedence over all advertising. Forms of payment include cash, approved check or credit card with 3% fee.

Auctioneers for this event include Tim Weaver who can be reached by phone at **(717) 354-9524**. The license number is AY2109.

For those interested about the online auction service, live internet bidding is taking place at cowbuyer.com. Participants can view and bid online in real time, but high speed internet is required. Registration is also required at least one hour prior to sale time at www.cowbuyerlive.com. Please note that purchasing online constitutes as a legal contract and promise for payment of purchases must be paid within five days of sale date and prior to load and delivery of sheep purchased. Cowbuyer.com is a service provider and is not responsible for the activity or inactivity of any technology, internet connection at the sale site or connection and technology of the bidders. For more questions or information about Cowbuyer.com please contact Aaron Ray Tompkins by phone **(336) 363-4639** or by email at atompkin@vt.edu.

Terms Used Throughout Catalog

Registration

Lots listed with registration “available” can be registered at buyer request within 30 days after the sale. Seller will cover cost of registration for animals that sell for over \$500. Buyers cover the cost of registration for animals that sell for under \$500.

NSIP EBV and Indexes Descriptions

BWT: Birth Weight EBV (kg) estimates direct genetic effects on weight at birth. Positive selection is anticipated to increase birth weight and have correlated positive effects on early lamb survival, especially with twins and triplets. Negative selection is anticipated to reduce birth weight and lambing difficulty associated with oversize lambs, especially in singles.

WWT: Weaning Weight EBV (kg) provides an estimate of preweaning growth potential and will likely receive positive selection emphasis in most flocks.

PWWT: Postweaning Weight EBV (kg) combines information on preweaning and postweaning growth to predict genetic merit for postweaning weight at 120 days. Positive selection is expected to favor rapid growth to typical market ages.

NLB: Number of Lambs Born EBV evaluates genetic potential for prolificacy. Expressed as numbers of lambs born per ewe lambing. Ewes with +0.10 are expected to have an average of 0.10 more lambs at each lambing than average ewes and their daughters are expected to have an average of 0.05 more lambs at each lambing compare to daughters of average ewes.

NLW: Number of Lambs Weaned EBV evaluates combined ewe effects on prolificacy and lamb survival to weaning. Expressed as number of lambs weaned per ewe lambing. Ewes with 0.10 are expected to wean an average of 0.10 more lambs at each lambing than average ewes, and their daughters are expected to wean an average of 0.05.

MWWT: Maternal Weaning Weight EBV (kg) estimates the genetic effects of the ewe on the weaning weight of her lambs (a measure of the ewe’s merit for mothering ability). Mainly reflects genetic differences in ewe milk production. Ewes whose lambs grow faster than predicted are assumed to be better milk producers, those that grow slower are assumed to produce less milk.

For more information on EBV’s visit <https://nsip.org>

Scrapie Genotype Resistance Descriptions

RR — Resistant **QR** — Moderately Susceptible **QQ** — Highly Susceptible

Scrotal Circumference: Rams with larger scrotal circumference tend to product more semen of greater viability and tend to sire daughters that reach puberty earlier and ovulate more eggs.

Our Sires

LWD 20241: Dorper Sire Ram

Registration: RP54227 **Genotype:** **Date of Birth:** 3/27/2020

Birth Type: 1

Weight: 222 lbs. as of 6/13/2023

Sire: Ida Vale 112227

Dam: LWD 160063

NSIP ID: 470LWD2020200241

Scrotal Circumference: 44.5 cm as of 6/13/2023

BWT	WWT	PWWT	NLB	NLW	MWWT
.06	1.5	4.3	-4	-3	.5

About This Sire

I bought this sire at Paul Lewis' sale in the spring of 2021. This is an awesome sire who's offspring will add pounds and quality to your lambs. Clean shedding coat. Note his scrotal circumference! We will be selling this ram on this sale as Lot #16.

GLENBROOK 666: Katahdin Sire Ram

Registration: 134853 **Genotype:** QR **Date of Birth:** 2/6/2017

Birth Type: 2

Weight: 226 lbs. as of 6/13/2023

Sire: ABT 16150

Dam: PS 927

NSIP ID: 6401052017mn0666

Scrotal Circumference: 34 cm as of 6/13/2023

BWT	WWT	PWWT	NLB	NLW	MWWT
.28	2.9	4.74	-16	4	1.83

About This Sire

This is a homegrown sire with over 390 progeny in 5 different NSIP flocks; he is one of the most proven rams out there. He is wide and deep which gives him lots of capacity for forage and for lambs in his daughters. With a low NLB & NLW, high MWWT and solid growth his offspring is perfect for flocks that don't want bottle lambs. We have semen available to sell from this ram.

GLENBROOK 20223: Katahdin Sire Ram

Registration: 186336 **Genotype:** QR **Date of Birth:** 4/25/2020
Birth Type: 2
Weight: 136 lbs. as of 6/13/2023
Sire: GLENBROOK 19279
Dam: NGM 1598
NSIP ID: 6401052020GB0223
Scrotal Circumference: 34.5 cm as of 6/13/2023

BWT	WWT	PWWT	NLB	NLW	MWWT
.58	2.91	5.95	17	14	-1.04

About This Sire

This sire is out of a line I have been working for a while. He stamps his lambs with heavy bone, fast growth, and early maturing. We really like this sire and his offspring have been the highest selling on our sales! We have semen available to sell from this ram.

ELR 21271: Katahdin Sire Ram

Registration: 181008 **Genotype:** QR **Date of Birth:** 3/24/2021
Birth Type: 2
Weight: 158 lbs. as of 6/1/2022
Sire: WRI 19065
Dam: ELR 010
NSIP ID: 6401562021ELR271

BWT	WWT	PWWT	NLB	NLW	MWWT
.17	2.6	6.2	9	19	.1

About This Sire

This is one of 3 rams we bought from Ewe Lamb Right Farm (ELR) in the last 2 years. Sired by their WRI 19065 (the General) which was the highest selling ram at the 2019 Virginia Tech ram sale. I really liked the built and confirmation of this ram. Unfortunately, we lost this ram to fighting last spring and will have limited offerings from him.

ELR 21400: Katahdin 50% Sire Ram

Registration: x182907 **Genotype:** QR **Date of Birth:** 10/12/2021
Birth Type: 4
Weight: 169 lbs. as of 6/13/2023
Sire: WRI 19065
Dam: ELR 5052
NSIP ID: 6401562021ELR400
Scrotal Circumference: 30 cm as of 6/13/2023

BWT	WWT	PWWT	NLB	NLW	MWWT
.35	3.2	5.7	34	38	1.3

About This Sire

There is currently no other Katahdin in NSIP with this combination of high traits! Sired by ELR WRI 19065 (the General) the highest selling ram at the 2019 Virginia Tech ram sale and the dam is ELR's Quad Queen, a Katahdin ewe of unknown origin or age, that had 22 lambs in 8 years recorded in NSIP. Whether you want to improve growth or maternal traits this sires offspring will do it.

FETT 274J: Romanov Sire Ram

Registration: U16744 **Genotype:** QR **Date of Birth:** 3/27/2021

Birth Type: 2

Weight: 125 lbs. as of 6/13/2023

Sire: USAMARC 1514103

Dam: FETT 111H

NSIP ID: N/A

Scrotal Circumference: 30 cm as of 6/13/2023

About This Sire

I picked this ram up in Iowa while on our belated honeymoon! We needed new Romanov genetics and are happy with him. If you want to increase your lambing percentages or do accelerated lambing, try a Romanov ram on your flock and keep all the daughters. They won't be the prettiest sheep but I'm willing to bet they will be your most profitable.

Auction Lots

Lot #1

GLENBROOK 23192

Katahdin 75% Ewe lamb

Registration: Available **Birth Date:** 5/3/2023

Birth Type: 3

Weight: 125 lbs. as of 2/29/2024

Sire: ELR 21400

Dam: GLENBROOK 683

NSIP ID: 6401052023GB3192

BWT	WWT	PWWT	NLB	NLW	MWWT
0.01	1.6	3.0	21	26	0.9

These first ten lots were exposed for May lambs to GB 23027, GB 23038, & GB 23151 which are top quality Katahdin rams. We will ultrasound them before the sale. It's hard to beat this ewe in confirmation or EBV's. MWWT is in the top 25% and NLW is in the top 2% of NSIP!

Lot #2

Lot #11**10 Head Commercial Katahdin Ewe lambs****Registration:** Unavailable **Birth Date:** Sept/Oct 2023

A pen of good commercial Katahdin ewe lambs. Fall born aseasonal genetics! Take 5 or all; gate cut.

Lot #12

30 Head Commercial Katahdin Ewes

Registration: Unavailable **Birth Date:** Jan/Feb. 2023

This is a group of yearling ewes that lambed this winter. They will be available for pick-up in May after their lambs are weaned. Take 10 or more; gate cut.

Lot #13

30 Head Commercial Katahdin Ewes

Registration: Unavailable **Birth Date:** May 2022

This is a group of two year old ewes that currently have their second lamb crop. They will be available for pick-up in May after their lambs are weaned. Take 10 or more; gate cut.

Lot #14

20 Head Consignment Katahdin Ewe lambs

Registration: Unavailable **Birth Date:** Dec/Jan

These ewes are consigned by Philip Martin, 762 Center Church Rd, East Earl, PA 17519. PH # (717) 445-0620. These are a nice uniform group of ewes sired by GB 22034 (a GB 20223 son) with great growth, GB 19373 (a fall born ram with balanced EBV's out of CMG 16015) and another commercial Katahdin ram. Dams are commercial Katahdins. These ewe lambs were weaned 3/4/24 and are ready to grow! Consignment ewes will stay on farm and will not be at the sale. Take half or all; gate cut

Lot #15

9 Head Consignment Katahdin Ewe lambs

Registration: Unavailable **Birth Date:** Sept/Oct 2023

These ewes are consigned by Christian K. Fisher 5546 Meadville Rd, Gap, PA 17527, PH # (717) 842-0787. This is an awesome set of ewes with Glenbrook Farm genetics on both sides. They are sired by: GB 20203 (a GB 666 son) with great growth and MWWT, and GB 20253 (who is a half brother to GB 20223) with good growth and sound maternal numbers. Dams are a well-proven flock of commercial Katahdins sired by GB 19033(a good maternal ram sired by GB 554). Christian has a well-proven flock that regularly lambs spring and fall. Proven aseasonal genetics! Consignment ewes will stay on farm and will not be at the sale.

Lot #16

LWD 20241

Dorper Proven Ram

Registration: RP154227 **Birth Date:** 3/27/2020

Birth Type: 1

Weight: 222 lbs. as of 6/13/2023

Sire: Ida Vale 112227

Dam: LWD 160063

NSIP ID: 470LWD2020200241

Scrotal Circumference: 44.5cm as of 6/13/2023

BWT	WWT	PWWT	NLB	NLW	MWWT
.06	1.5	4.3	-4	-3	.5

This ram has been used on our flock since 2021 and is the best Dorper ram we have ever owned. We hate to sell him but we have his semen in storage and many of his daughters in our flock.

Lot #17

GLENBROOK 23095

Dorper Yearling Ram

Registration: Available **Birth Date:** 2/3/2023

Birth Type: 1

Weight: 183 lbs. as of 2/29/2024
