**PA Ram Lamb & Meat Goat Buck Performance Tested Sale
and Small Ruminant Field Day
Thursday, August 15, 2024**

Held in conjunction with Penn State's Ag Progress Days

1:30 PM – 2:15 PM “Financial Planning for Flock/ Herd Profitability”

Chelsea Hill, Livestock Extension Educator, Penn State University

2:30 PM- 3:15 PM “How to Use Parasite Test Data to Make Sound Genetic Decisions in Your Operation”

Scott A. Bowdridge, Ph.D., Professor of Food Animal Production, Division of Animal and Nutritional Sciences, West Virginia University

3:30- 4:15 PM “Tools for Flock/Herds Genetic Improvement”

Austin Brown, Small Ruminant Extension Specialist, Penn State University

6:00 PM Performance Tested Ram and Buck Sale and Consignment Breeding Stock Sale

Suggested Care and Management

1. Rams and bucks are well developed and properly cared for and should adequately cover females.
2. Ram lambs and young bucks should not be expected to breed more than 25 females in the first year. As they are still growing, give them grain and grass or quality hay.
DO NOT OVERWORK RAM LAMBS OR YOUNG BUCKS.
3. After placing a young ram or buck with females, allow several weeks for the animal to adjust and begin servicing the flock or herd.
4. Unfamiliar rams or bucks will fight when first introduced. If rams or bucks must be housed in the same pen, ensure it is small enough the animals can't gain enough momentum to hurt each other. Otherwise, placement in adjacent pens for several days before group housing should relieve this problem.
5. Ensure the success of your lamb or kid crop by periodically checking to see if ewes or does are settling.
6. Keep the new ram or buck around the barn or in a small lot for at least a week after arrival. This will allow him to rest from the trip and to become accustomed to his new surroundings.

General Information

1. MANAGEMENT OF THE RAMS AND BUCKS

Participating rams and Boer bucks have completed an official 77-day performance test at the Livestock Evaluation Center on July 2. Prior to the start of the tests, rams and bucks were allowed a 7-day adjustment period during which they were dewormed, introduced to the LEC ration, and prepared to begin the test.

Throughout the performance tests, rams and bucks were self-fed a pelleted 16% protein feed. All animals received a mix grass/legume hay.

2. PERFORMANCE RECORDS

Individual performance records exist for each ram and buck cataloged. These records include:

- a. Average Daily Gain – weight gained over course of test divided by days on test
- b. Weight Per Day of Age – average weight gain per day since birth
- c. Loin Eye Area – ultrasonically scanned between the last two ribs, then adjusted based on finish weight specific to breed.
- d. Fat – measured ultrasonically, and to some degree indicates composition of gain.
- e. Ratio – The percent above or below average a ram or buck is within his own breed group for a particular trait. A ratio of 100 is average.

3. INDEX

Ram Index = (.35 x average daily gain ratio) + (.35 x final weight per day of age ratio) + (.15 x adjusted fat thickness value) + (.15 x adjusted loin eye muscle area value)

Buck Index = (.30 x average daily gain ratio) + (.30 x final weight per day of age ratio) + (.20 x adjusted loin eye muscle area) + (.20 x adjusted hind leg circumference measurement)

Animal's index divided by the average animal index within a breed provides the index ratio.

4. HEALTH

Participating rams and bucks are in very good health and can go anywhere. All rams and bucks have been examined for reproductive soundness, and all rams have been gene tested for the scrapie resistance gene. Semen has been collected from all senior rams and senior goats and have passed minimum standards required by the American Society of Theriogenology.

5. The rams and bucks have been evaluated for performance, but potential buyers are responsible for evaluation of type, soundness, and breed character. All rams and bucks sell as is.
6. Kids born from percentage boer parents may not be eligible for registry in certain Boer goat associations. Buyers interested in registering percentage Boer goats should contact their breed registry.

Health Procedure Summary

Meat goats upon admission to center

- Vitamin E and Selenium by injection
- Contagious Ecthyma (Soremouth) exposure
- Clostridium CD/Tetanus – 2nd dose given in May

End of test

- Physical exam for breeding soundness
- Tuberculosis and Brucellosis test administered 30 days from sale.

- Dewormed with Cydectin, Levamisol, Valbazen) May/July
- Rams upon admission to center
- Vitamin E and Selenium by injection
- Contagious Ecthyma (Soremouth) exposure
- Clostridium CD/Tetanus – 2nd dose given in May
- Rabies vaccine (Imrab®)
- Dewormed with Cydectin, Levamisol, Valbazen) May/July
- Sale bucks fecal test negative
- Semen evaluation on fall-born goats

End of test

- Physical exam for breeding soundness
- Sale rams fecal test negative
- Semen evaluation on fall-born rams

Fecal Egg Count Information

Parasite Resistance evaluation was performed on all Rams and Bucks enrolled in the Pennsylvania Livestock Evaluation Center Ram Lamb and Meat Goat Buck Testing Programs for 2024. Parasite resistance to anthelmintics (dewormers) is a large problem for small ruminant producers. Farm losses due to parasites in small ruminants are significant. Current research has shown specific genetic lines are less susceptible to parasites. Selection of breeding stock which is less susceptible to parasites will benefit both the producer and the industry.

All sheep and goats were dewormed prior to the start of the test. Animals were infected with a specific variety of *Haemonchus Contortus* (barber-pole worm) larvae which is sensitive to all classes of dewormer. Animals had fecal-egg count data taken from this infection on set dates through the test. Following final data collection, all animals were dewormed and reviewed by fecal egg count to be clear of the parasite. Fecal egg count data from the test is listed in the catalog to assist producers in selections of genetics.

Terms and Conditions of Sale

1. Terms of the sale are cash or check. All checks must be made payable to cowbuyer.com. No ram or buck may leave the premises until payment has been received.
2. Each ram or buck will be sold to the highest bidder.
3. The auctioneer will settle any disputes regarding bids that may arise. This decision will be final.
4. Certificates of registry will be furnished, and transfers will be made by the sale management, at the seller's expense, to the purchaser within a reasonable time after the sale. Registration certificates for any progeny of these sires are dependent upon the breed association. (i.e., kids from percentage Boer bucks may not have the ability to be registered within certain breed associations).
5. All rams and bucks are at the seller's risk until sold and will be the buyer's risk as soon as sold. However, if it is not convenient for the buyer to remove the ram or buck the afternoon of the sale, the ram or buck will be cared for up to a maximum of 72 hours after the sale at the buyer's risk. After 72 hours there will be a nominal fee.
6. Certificates of Veterinary Inspection will be furnished by the Pennsylvania Department of Agriculture.
7. All rams and bucks are guaranteed breeders by the sellers, providing they are properly cared for and not exhibited on the show circuit prior to being used for breeding. Any ram or buck that settles one third of the healthy females he services will be considered a breeder. In the event a ram or buck is thought to be a non-breeder by the buyer, he may be returned to the seller at the buyer's expense within six months of the sale date. In the case of a ram or buck claimed to be a non-breeder, the seller is entitled to the period of time, following return of the ram or buck, required to take him through the next regular breeding season, in which to demonstrate that the ram or buck is a breeder. If in that time the ram or buck proves a non-breeder, then refunding of the purchase price shall be considered full settlement. Other procedures for settlement may be taken if satisfactory to both the buyer and the seller.
8. The above guarantee and terms of the sale shall constitute a contract between the buyer and the seller for each ram or buck sold and shall be equally binding upon both. The Pennsylvania Department of Agriculture, Pennsylvania State University, Pennsylvania Sheep and Wool Growers Association, test sale management or any other person or organization connected with the management of the sale do not assume liability, legal or otherwise, except to help make any needed adjustments.
9. All persons attending the sale do so at their own risk. Neither the Pennsylvania Department of Agriculture, nor any other person or organization connected with the sale will assume liability, legal or otherwise, for the safety in the buildings, on the premises or in behavior of the animals.

PA Sheep and Wool Growers Association

Since its establishment more than six decades ago, the Pennsylvania Sheep and Wool Growers Association has represented sheep producers committed to the betterment of the sheep and wool industry. By working together through the association, breeders have increased awareness of the benefits of sheep, wool, and all byproducts. With local, county, and regional member organizations and nearly 130 members across the state, the association plays a vital role in the industry's success.

The association hosts and co-sponsors programs and events throughout the year, including the "Make it with Wool" contest, State Lamb and Wool Queen program, Ag Progress Days Booth, state "Sheep to Shawl" competition, Outstanding Young Shepherd awards, wool marketing, Shepherd's Symposium and Annual Meeting and today's sale and field day. These activities showcase and celebrate the prosperity and potential of Pennsylvania's sheep and wool industry.

Whether educating the public, encouraging youth, or working with others in agriculture, the PSWGA characterizes excellence and tradition within the sheep and wool industry. For more information, contact:

President:
Dan Turner
210 Big Pond Rd.
Shippensburg, PA 17257
danturner44@gmail.com

Treasurer:
Greg Hubbard
1736 Bethel Hollow Rd.
New Paris, PA 15554

Directions

The center is between Pine Grove Mills and the Ag Progress Days site, approximately nine miles southwest of State College on PA Route 45.

Bid Online!

The sale will be broadcast on www.cowbuyer.com with audio and video of sale lots live streaming.

Download the Cowbuyer app at iTunes or Google Play. Call 336-363-4639 with questions.
