- L23 comes from the 1122 cow. 1122 is a 13-year-old still producing quality calves here at Parker Brothers. She is truly a Matriarch here. Study his pedigree he comes from a line of Proven Genetics. If you are looking for a calving ease bull he works. Look at his udder and teat numbers, his daughters should have really nice udders.
- Commercial men and women look at the BMI and BII. Baldie Maternal Index top 2%, and Brahman Influence Index top 3%. He should work well in any program. He is scurred.
