Reflections from Betley Family Farms

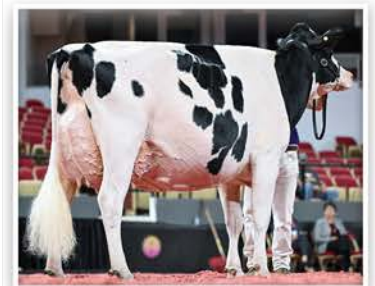

We frequently find ourselves revisiting the memories from the past five years and the iconic moments that have led to our genetics program to the place it is today. Partnering with Trent and Laura to define and achieve our goals in the registered dairy cattle business has created some of the best memories and experiences one can hope for.

We welcome everyone to Hofa Park to our farm for a continued sale series of the Breeders Bash. While Hofa Park is not our mailing address, it has been home to us for many years. Betley Farms was established in 1943 just north of town with 13 milk cows and 40 acres of land, and has grown to 3,000 milking cows with visions of expansion in progress. The Betley story has a lot of success and pride in making high quality milk, sustainability in the workplace, and always envisioning the future of farming and agriculture through technology. In 2024, we successfully started up our own methane manure digester to produce natural gas for the community, animal bedding for our cows, and an aqua system to return water back to the earth to keep our community and water sources clean and safe for generations to come.

In January 2020, Trent and Laura entered the business. Trent was raised in west Hofa Park originally and was looking to relocate back to the area to be closer to Laura. Little did we know that we would ignite the fire to create some memorable years in the show ring for both of our families! Trent and Laura welcomed their son Lee to the team this last November.

Betley Farms expanded our investment in our genetic program in 2022 when we remodeled an existing heifer barn to better support our show cattle at all stages. It started with the heifer focus in 2022, milking cattle in 2023, and in 2024 we built an additional milk cow facility along with an IVF lab. We now offer donor housing for embryo collection, along with embryo implants, and live calf care from resulting embryo implants.

In 2019, the Betley's took on World Dairy Expo with Claire exhibiting the 12th place spring yearling in the Red & White show, a descendant of the famous brood cow Hilrose Advent Anna-Red, EX-95. Another pivotal moment that year, the Betley's purchased OCD JO Lionking-Red-ET from the World Classic Sale as a fall calf. Pretty incredible to say that both Anna and Lionking have helped our breeding program to generate the success it has the last five years. We owe everything to these two ladies.

SS-Maplescrest Tattoo Jasmine EX-94

Lionking has written a lot of great chapters in her book of life, which is hard to pick the best one, but we will mention some highlights.

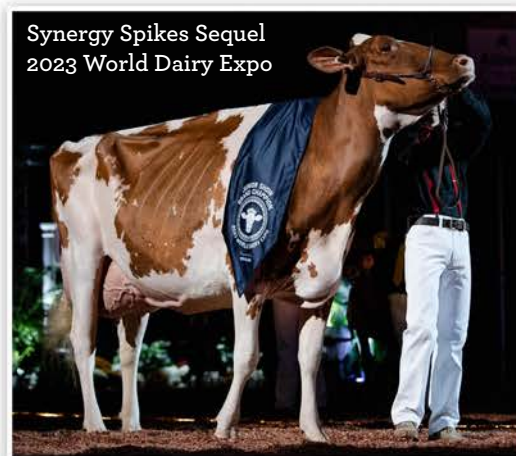

- Daughters won the **Premier Breeder Banner** of the Red & White Heifer Show at the 2024 World Dairy Expo
- **4 daughters** and **1 granddaughter** brought home **13 JC or Res. JC banners** at national qualifying shows.
- **3x Unanimous All-American Junior Best 3 Females** with daughters and a granddaughter
- **2 Excellent Daughters** and **2 Very Good Daughters** to date, two being max score.
- Lionking's offspring have generated **28 All-American Nominations** (18 open, 10 junior) and **6 All-Canadian Nominations** to date.
- **3 Daughters Bred & Owned winners** at WDE with **2 named Bred & Owned Champions**

We will forever hold the memories of 2023 in our hearts as "Our Year." With the trust of our great friends and neighbors, Jay and Heather Jauquet and their family, we invested into a beautiful cow - Synergy Spikes Sequel-Red. Sequel was one of the three animals that came from our program that year to World Dairy Expo that we had the pleasure of watching parade under the lights for the Supreme Champion parade. Sequel, Lucille, and Lightsout are all represented in the sale with having daughters or sisters selling.

We are thankful for our talented team of employees, mentors, friends and family for their support in this journey. We are proud to call Shawano County our home!

We wish the buyers the best of luck with their purchases.
We will always be your biggest fans and supporters!

Jeff, Jena, Claire and Jacob · Trent, Laura and Lee

There is a unique sense of community that develops within a group of dairy kids who share the same passions. In Shawano County, we are blessed to have an amazing group of families and youth within our dairy clan - both past and present. This group appreciates great dairy cattle, but most importantly values the friendships and memories made as part of those dairy-centered events.

In 2024, the unthinkable happened and we lost Chloe Zernicke from our dairy family. The loss has hit our tight-knit group hard, especially as we have watched her parents, siblings and closest friends navigate several favorite events without their daughter, sister and friend, Chloe.

As they continue to miss Chloe here on Earth, her amazing family has chosen to grow something positive moving forward. A memorial fund in Chloe's honor was established to help support youth activities and events that create a similar sense of home for kids who share a passion.

Here are some favorite memories that Chloe's dairy friends wanted to share:

- When I think of Chloe, I think of FUN. She loved life and ALWAYS had a smile on her face. Chloe loved pickles so much that she would even drink the pickle juice! Exhibiting at the fair gave us a chance to connect through laughter and shared experiences. Chloe, I will continue to carry on your legacy in the showring.
- Our favorite memories with Chloe were playing volleyball in the barn aisles and visiting the commercial building to spread smiles and laughter during the fair.
- Chloe lit up every room she walked into. She had the ability to make anyone laugh - at the fair, at judging practice or in line for the Zipper, she brightened every moment. I will always be thankful for the friendship we had and the memories we share.

This calf has been donated with all proceeds going directly to the Chloe Zernicke Memorial Fund.

VALLEY VETERINARY CLINIC

With Valley Veterinary Clinic, a leading dairy veterinary practice in Wisconsin established in 1971, you will experience an unrivaled combination of expertise, innovation and individualized care. What makes us different?

- **PERSONAL RELATIONSHIP:** At VVC we provide comprehensive dairy and cattle veterinary services to farms of all shapes, sizes, and generational makeups in Northeastern Wisconsin.
- **COLLABORATIVE APPROACH:** We strive to meet your individual needs and work with your team to better your herd overall.
- **PROGRESSIVE MINDSET:** We strive to provide cutting edge services to all our clients.
- **WIDE KNOWLEDGE BASE:** As our client, you have access to the collective skillsets, stability, and the wealth of knowledge of more than a dozen doctors.
- **DIVERSE SUPPORT TEAM:** Our entire team shares a common set of core values, but offer a broad range of specialized skills and services.
- **CONTACT US:** We can't wait to work with you!
 - Address: 707 Woodland Plaza Seymour, WI 54165
 - Phone: 920-833-6833
 - Email: vvc@vvcvets.com
 - Website: www.vvcvets.com
 - Facebook: <https://www.facebook.com/VVCValleyVet>

Unlock the Value of your milk samples

Research shows that one hour of lost resting time leads to approximately 3.5 pounds less milk/day.¹ Unlike traditional methods, testing milk samples to gain insights for production, health and physiology promotes resting time and eliminates labor to find, sort, and lock-up cows. Ask your CentralStar team about the convenience of using milk samples, improving resting time and production, all while saving you labor and money.

Leukosis

Finds infected animals, including those most likely to spread disease. High disease prevalence in the U.S. with negative impacts on production, longevity and salvage value.

To identify the most infectious (super-shedders) animals in a herd use the AntelBio™ STRATA-G™ BLV PCR.

A1/A2

An unofficial test to assist with breeding decisions, that does not require genomic testing. Call 800.631.3510 for sample submission guidelines.

Mastitis PCR

Identifies contagious and environmental mastitis causing pathogens for targeted management. More sensitive than culture, results in 48 hours. Test available as Complete 16, Contagious 4 or Single Organism (*M. bovis* or *Staph. aureus*).

Pregnancy

Use 28-days post breeding and beyond to confirm pregnancy. As effective as traditional methods.

Johne's

Detects infected animals so actions can be taken to avoid further transmission. Prevalent in U.S. dairy herds; negatively impacts production, causes chronic diarrhea and death.

BVD

Identifies persistently infected (PI) cows using individual milk samples. Infected cows are the main reservoir of new infection. BVD control requires identification and elimination. High analytical sensitivity of the BVD PCR test allows pooling of samples to reduce whole-herd testing costs.

CentralStar

**Send samples direct or submit
through routine DHI testing.**

¹Grand 2004

From spring to fall, we offer it all! Family owned and operated, established in 1981, Hylok Harvesting works endless hours to provide all your demands. At Hylok Farms and Harvesting we strive to provide excellent services unique to your operation! With the latest technology and equipment, we provide: spring tillage, custom applying, planting, forage harvesting, packing, combining, fall tillage, and drainage tile.

What we offer:

- **Drainage tile:** ability to survey land, create drainage plans using RTK GPS. Our plow is a self-propelled Bron 550. Ability to do surface drainage and create waterways.
- **Harvesting:** Three large forage harvesters, two large combines, 13 semis with forage and grain trailers.
- **Custom Applications:** Spraying and nitrogen applications, John Deere R4044 120ft booms with exact apply nozzles, Y-drops at 80ft swath. R3048 dry spreader
- **Planting:** 16-row high speed corn planter, in furrow and 2x2x2 fertilizer applications and a 40 foot air drill with 7.5/15in spacing.

HOLSTEIN ASSOCIATION TERMS AND CONDITIONS FOR PUBLIC SALES

EFFECTIVE MARCH 2, 1996 - Amended October 1, 1997, June 28, 2000, June 23, 2002, and March 26, 2010

TERMS: The terms of the sale are cash unless arrangements are made prior to the sale or are printed in the sale catalog. Only when the above conditions are met will the buyer be entitled to the warranties listed below. In no case will animals be released unless settlement is made with the clerk of the sale.

RESPONSIBILITY: The seller, buyer, and manager of this sale are obligated to comply with the provisions of these terms and conditions.

EXPORT SALES: Buyer assumes all responsibility for health tests required by the importing country.

BIDS: The highest bidder is the buyer. Bidding parties or their agents are responsible for all bids placed. Every animal or lot presented for bidding is pledged to absolute sale. In case of dispute, the animal or lot will again be put up for advance bids, and if there is no advance bid, the animal or lot will be sold to the person the auctioneer accepted the last bid from. In case two or more claim the bid, the auctioneer will indicate the party whose bid he recognized. Other claimants will be given an opportunity to increase the bid and bidding will be restricted to the two or more claimants.

BY-BIDDING: Bidding directly or indirectly by the sole owner of any animal or lot is prohibited unless the intention to bid is disclosed specific to each animal in the catalog and announced when the animal enters the ring. Bidding by any member of a partnership, syndicate, or other entity having an ownership interest in an animal or lot is permitted.

TRANSFER OF OWNERSHIP: For all Registered HolsteinsSM, the transfer of ownership to the buyer will be recorded on the records of Holstein Association USA and a certificate of registration showing that transfer of ownership will be provided to the buyer free of charge. For embryos, the transfer of ownership to the buyer will be recorded on the records of Holstein Association USA free of charge to the buyer.

RISK: All animals located at sale site are at the purchaser's risk as soon as struck off, but will be cared for free of charge for a maximum of 24 hours following the end of the sale.

WARRANTIES:

- 1) Each consignor warrants clear title to the animal or lot, and the right to sell same.
- 2) To the best of the seller's knowledge, each animal is sound and healthy in every respect and embryos have been recovered, processed, frozen, transferred and graded in keeping with IETS recommendations unless otherwise noted in the catalog or announced from the auction stand. Every precaution will be taken to represent the physical condition of each lot exactly as is known. Examination of all purchases should be made immediately after the purchase and before the close of the sale, and if found not to be as represented, complaint must be reported to the sale management before the close of the sale. In the event no complaint is filed, it is understood that the buyer assumes full ownership in the case of animals at sale site together with all risks, after which no representations of the seller can be challenged through the sale management. Heifers that never calved are in no way guaranteed as to the condition of their udders following calving.

3) Breeding Warranty

The seller guarantees all animals to be breeders, but not beyond the purchase price, with the following understanding:

- a. Males - Should any bull after reaching the age of fourteen months fail to prove a breeder after being used for two months on cows or heifers known to be breeders, the matter shall be reported in writing to the seller within three months of the sale date. The report must include the animal's examination record, a written statement of treatment, and a statement of the animals' inability to breed,

by a licensed veterinarian. The seller has the option to refund the purchase price or make other settlement that is satisfactory to the buyer. In either case the rights of ownership of the animal return to the seller. The seller makes no guarantees with respect to the ability to freeze semen.

- b. Females - All females are guaranteed to be breeders with the exception of:

1. Cows over 7 years of age when sold;
2. Cows and/or heifers carrying a pregnancy that is the result of an embryo transfer.

Report of a non-breeder must occur in writing within 3 months of the date of sale or before the animal reaches 21 months of age and must be submitted to the seller. The report must include the animal's examination record, a written statement of treatment, and a statement of the animals' inability to breed, by a licensed veterinarian. The seller has the option to refund the purchase price or make other settlement that is satisfactory to the buyer. In either case the rights of ownership of the animal return to the seller.

Females bred when sold and pronounced in calf are presumed to be pregnant but pregnancy is not guaranteed unless so announced. The seller makes no warranty that pregnant cows will deliver calves or that they will carry calves full term.

- c. If, after the sale, embryos or oocytes are recovered from a female or an attempt is made to superovulate her, this negates the breeding warranty unless there is a separate written agreement between buyer and seller.

SHIPPING: Assistance will be given in arranging shipping of the animals after the sale. All costs, risks and responsibility will be borne by the purchaser.

PEDIGREE INFORMATION: All production, classification, type and production summaries are current. Only information recorded on Holstein Association USA pedigrees is used. Any production or classification records supplied by the seller or consignor will be properly identified as provided by owner. Records in progress are identified as such.

GENOMIC INFORMATION: If genomic information on the animal or embryo is available, it must be dated and disclosed at or before the time of sale.

EMBRYO TRANSFER: All registered animals that have resulted from embryo transfer are identified with one of the following suffixes in the name: ET, ETS (from split embryo), or ETN (from nuclear transfer). If unregistered, the appropriate technology will be identified. Donor dams are identified.

HEALTH WARRANTY: The seller will provide an official health certificate to the buyer for each animal showing the results of all health tests made in preparation for this sale as required by the state where the cattle reside. Other health tests completed for this sale will be disclosed.

ERRORS: The material in this catalog has been carefully edited. If any errors or omissions are discovered, they will be announced. Such announcements take precedence over that printed in this catalog.

ACCIDENT: The sale management, the consignors, and the owner of the grounds will not be responsible in any case for the condition of the grounds or the behavior of the animals and disclaim any liability in the event of personal accident or property loss.

LIMITATIONS OF WARRANTIES: Warranties contained herein, unless terminated earlier, will cease upon the resale of an animal.
