General Information

The ABWPA allows breed up, in the first generation either the cow or bull must be 93.75% pure which is the highest level that the breed records. Each successive generation must be sired by a 93.75% White Park bull. In the breed all bulls must be 93.75% to be purebred and registered. Females are considered purebred at 87.5%. As an example a 75% female bred to a purebred bull will produce a purebred heifer calf.

Horns: Horns in the breed are rare and the association will not register horned animals.

Scurrs: Scurrs are small growths where horns usually are, they never attach to the skull and therefore will wiggle when handled. Scurrs are acceptable and register able in the association.

Health: Each animal sells with a state approved health certificate for interstate shipment. Buyer should make themselves aware of requirements for their respective states. Most of the cattle are calfhod vaccinated, wormed and vaccinated for shipping fever.

Breeding Guarantee: All heifers are guaranteed to be breeders. Bred heifers are by definition considered breeders with no further guarantee. Open heifers are guaranteed open and that they will breed. The extent of this guarantee is the purchase price of the heifer and the buyer must return the heifer to our farm to receive reimbursement.

At each sale I like to offer a great young cow and heifer calf pair. This year my choice is actually a cow that I bought on this sale three years ago. The calf at her side is her third and is sired by Terra Rubra's Romeo. She is a proven cow and we think her May calf is pretty flashy. 636 is pasture exposed to Wolf's Carter.

Sired by a bull that I hold in high regard and out of our national champion cow Coco. In my opinion if you are looking for our best look at this one.

When I purchased Emilia at the White Park Sale 3 years ago it was my intention for her & Buster to make one like this. This long necked, big hipped lady caught my eye every time I rode the pasture this summer. She is one of the cleanest fronted heifers we have ever produced. Broke to lead and pampered as a show heifer since weaning.
