Further, I hereby authorize the transfer of ownership as shown above on the books of the American Milking Shorthorn Society. In making this application, I hereby agree to comply with and be bound by the Articles of Incorporation and By-Laws of the American Milking Shorthorn Society and all other rules and regulations of said Association and its Board of Directors.

Recorded Owner of Cow \_\_\_\_\_  
Please Print

Signature \_\_\_\_\_  
Owner of Authorize Agent

Address \_\_\_\_\_ Cust. No. \_\_\_\_\_

City \_\_\_\_\_ State \_\_\_\_\_ Zip Code \_\_\_\_\_

Phone \_\_\_\_\_

### STATEMENT ON GENETIC ABNORMALITIES

Animals which have parents or grandparents designated as carriers of a genetic abnormality are so noted with a line indicating such on the certificate itself.

The genetic abnormality is inherited as a simple recessive. Animals with a carrier parent have a 50% chance of being a carrier while animals with a carrier grandparent have 25% chance of being a carrier.

Genetically abnormal animals are produced only when carriers are mated. Careful selection of mates for animals with carriers in their pedigree is needed to avoid producing affected progeny.

Any questions concerning genetic abnormalities may be obtained by contacting the American Milking Shorthorn Office.
