(cattle location: 8208 Bayard Rd, Minerva, Ohio)

Dear Friends and Fellow Holstein Enthusiasts,

After much thought and reflection, I have made the decision to retire and disperse my Registered Holstein herd. This marks the closing of an incredible chapter — one built over 66 years on this farm as a proud third-generation dairy operation.

I was born and raised a cow guy, and caring for cattle has never simply been a job — it has been a way of life. My philosophy has always been simple: *“If you keep taking care of the cows, the cows will take care of you.”*

That belief has guided every breeding decision, every early morning, and every late night. My goals have centered on building cow families that are functional, long-lasting, and profitable — with sound udders, strong feet and legs, balanced production, and the kind of consistency that works in the real world.

Over the decades, I have taken pride in maintaining a disciplined herd health program, working closely with trusted advisors, and striving to leave both the land and the herd better than I found them. The friendships built through the Registered Holstein community have meant more to me than words can express.

As you study this offering, I believe you will find cattle backed by years of thoughtful breeding, daily hands-on management, and a deep respect for the Holstein breed. It has been an honor to steward this herd, and I sincerely thank you for your interest and support.

I wish you success and many good years ahead with your purchases.

Sincerely,  
Lawrence Whiteleather

## Herd Health Statement

The cattle in the Lawrence Whiteleather Registered Holstein Dispersal have been maintained under a comprehensive and consistent herd health program.

- Vaccination protocol: Up to date on all core and reproductive vaccinations.
- Veterinary care: The herd is evaluated weekly by a licensed, registered veterinarian for routine herd health and reproductive management, including regular pregnancy checks.
- Pregnancy status: All cows selling as bred will have current pregnancy confirmations.
- Hoof care: Professional hoof trimming is performed monthly, with all dry cows trimmed at dry-off to ensure soundness and longevity.
- Nutrition program: The herd is managed in consultation with a professional herd nutritionist to support optimal production, reproduction, and overall health.

This has been a well-managed herd with an emphasis on longevity, structural correctness, reproductive performance, and production consistency.
