## About the Farm

Schalley's Dairy Farm was established in 1995 and is owned by Ken Challener and Susie Gawlinski. The initial focus was on raising red and white heifers as well as hay and other crops. The farm transitioned into dairy when children Ryan and Tristan entered 4H around 2000. Milk cows were initially milked at a neighbor's farm while the parlor was being built. A new larger barn was built in 2005 and the herd expanded from 20 milk cows to 40 and then to 60. Jersey and Swiss were added with 4H in 2002 as well as one Ayrshire a couple years later. Most of the cattle on the farm are descendants from the original 4H cows. The "P" family and "R" family of jerseys have been present from the outset, as well as the "B" swiss girls. Red & White Holsteins were the project of Ken Challener and are from an original purchase in 1995 from a herd in Binghamton, NY. Almost every animal on the farm is registered. A group of 6 grade cows were purchased around 2012 to increase milk production. Offspring of any animal that was a "Grade" was started on an identification tract. Cows were bred for stature, depth of rib, and excellent feet and udders.

All animals have been vaccinated with InForce (Nasalgen) two doses at birth. They have also received two doses of Salmonella vaccine. A Modified Live Vaccine as given at 6 months, and an annual Triangle 10. All animals have had J-Vac at age 14 months or older, and at least annually. Last J-Vac and Triangle 10 were in July, 2020. Veterinary care has been provided by Greener Pastures, primarily Bryan Nogay and Christi Rynd. Feet have been trimmed every 4 months by Junior Raider, last trimmed 10/2020. Nutrition support has been handled by Jeff Shaffer from Cargil Animal Nutrition. Heifers and Dairy have been fed TMR. The dairy is currently on a 50/50 ration of corn silage and baleage.

It is with great sadness and some excitement that we move to the next stage. The cows will be sorely missed after 30 years, but times change, and we must change with it. Ryan has moved on to Michigan to pursue a career in astrophysics. Tristan is in Kansas working as an aviation software engineer. We wish for a good home and continued success for all our "girls". They have been the source of great joy and pride for us. If you have any questions or need any information, contact Ken at (814) 282-0982.

Sincerely,  
Ken Challener
