Spring Turn Out

BULL & FEMALE SALE

APRIL 24, 2021
12:00 NOON

Granville County Livestock Arena
Oxford, North Carolina

20 BULLS & 40+ FEMALES

Angus • Gelbvieh • Balancer • Hereford • Red Angus
Commercial & Registered Females

We are extremely pleased to join with friends and customers to bring you this set of cattle. We have been talking about a bull and female sale in North Carolina and finally decided it was time to pull the trigger and get one started. We believe that sound structure, actual performance, and phenotype are the key to productive cattle with longevity that will help add dollars to your program.

Our bulls are developed on pasture supplemented by high roughage feed so that they do not fall apart when they are turned out on pasture. The bulls in the offering have passed a BSE, have been tested PI-BVD negative, vaccinated with Vira Shield VL5 HB Somnus and Vision 7 with spur and poured with Eprinex within the last 30 days. Genomics have been sent in on the Gelbvieh and Angus bulls and should be available sale day. These bulls have survived 3 rounds of culling: at weaning, at yearling, and at picturing. Cows offered in the sale have tested PI-BVD negative, been vaccinated with the same vaccines, and poured with Cydectin within the last 30 days. We are a certified and accredited herd so all cattle over 2 have been tested negative for TB (4/10/21) and brucellosis (4/20/21).

Green Hills is a family operation and have been involved in cattle breeding for 30 plus years. As many of you know, our 3 sons are actively involved in our program, so we feel our program has many productive years ahead. We look forward to working with old friends and customers and making new ones on April 24th.

See you in the barn,

Walter, Lee, Garrett, Justin, and Austin Teeter

Welcome to the Green Hills Gelbvieh & HOPE Cattle Spring Turn Out Bull & Female sale. It is a privilege to be working with the Teeters to bring you this sale offering. We want to say thank you for taking your time to review the bulls and females that are available in the sale offering. We strive to produce real world type cattle that will work for all types of cattlemen. We feel that bulls should not only have good numbers but just as important have sound feet and legs along with phenotype to actually go out and perform. Not only do we feel that they have to have a good foundation to stand and travel and the phenotype that we desire, but we also pick and cull for disposition. The majority of the cattle work is all done by Cortney and I by ourselves. We feel that that it is extremely important and beneficial to have easy handling cattle. These cattle are not pampered, as they run and calve on grass pastures until weaning. Once weaned, they are sorted and run on pastures being supplemented with a high roughage feed to allow for them to grow and express their genetic potential without being detrimental to the longevity of a breeding bull. All bulls have been evaluated and passed screening/culling to guarantee that we are bringing you high quality bulls that will work. Thanks again for looking at this sale offering. If you have any questions please feel free to contact us.

Sincerely,

Karl & Cortney Holshouser

Auctioneer

E.B. Harris Inc/Auctioneers
E.B. Harris: 252-257-2140

Food and Refreshments

Food will be available for purchase on site from
Risin' Smoke BBQ.

Online Bidding

Live online bidding will be available on sale day
through Cowbuyer at www.cowbuyer.com. For
questions regarding online bidding, contact a
Cowbuyer representative. You must register for
an account to bid online.

Aaron Ray Tompkins: 336-363-4639
Drew Bray: 276-952-5013

Terms and Conditions

Cash or check. Settlement must be made before cattle
are loaded out. Cattle sell under standard conditions as
suggested by the American Gelbvieh Association.

Supplemental Information

Updates will be available sale day. Announcements from
the block take precedent over catalog and supplement
sheet. Sale order will be posted sale day.

Trucking

Buyer is responsible for trucking. Sellers will help with
arrangements if needed.

Liability

All persons attending the sale do so at their own risk.
Consignors, Granville Livestock Arena, and/or sale con-
sultants assume no liability for accident, theft or damag-
es occurring at the sale facility.

Health

Valid health certificates ready for immediate shipment
within the continental US. Bulls have passed a breeding
soundness exam and are guaranteed breeders, notwith-
standing injury or neglect after purchase. The Green Hills
Gelbvieh vet is Dr. Jay Moore, DVM (704-267-9571).

We start the sale off with a lot 1 bull that is a really complete 316 son that comes from an impressive Connealy Impression daughter that we got out of the Springfield program that has been an awesome uddered, good footed, no miss kind of cow for us. This guy is one that offers a good look and plenty of power in a super sound, correct package with very strong set of EPDs. He should work as a calving ease bull or to cover all groups to make calves that weigh up or awesome replacement females.

Another high performing powerfully built 316 son that comes from our top Angus cow family and is one that offers added frame and length. He does all of this without giving up muscle or body mass. If you are looking for a really laid-back, pound heavy bull that will last a long time and add weight and sire a great set of replacement females then this guy should be at the top of your list. Great EPD profile on this guy.

You won't find many Angus bulls very often with this much hip and muscle. A massive, slick-haired, good-footed son of our long time herd sire Gambles Hot Rod who will be heifer safe and still add the power, size, and length to his calves that is needed to make them weigh up at weaning and catch the buyer's eye at sale time. A full brother to this bull sold to Mark Bray in Lawsonville, NC a few years ago and has been one of his favorite bulls, doing a great job for him.

You will find added mass, size, and length in this bull with a top cow family to back him up. The Paycheck herd sire has done a tremendous job at Karl and Cortney's and is one who will always add the extra pounds to his calves while putting some added length of spine in to them. Here is one that I would want to keep all the daughters out of because they will be super productive, good-uddered cattle who will flat milk and his calves should weigh up at sale time.

Females

Registered Angus bred heifers from NCSU Beef Unit. Here are three outstanding fall bred heifers that come from the very top of the Beef Unit's bred heifer pen and I would even go as far to say these three very well may be three of the best the NCSU beef unit has ever raised. These girls are really sound structured, easy keeping with added length of body and a very productive look. All three sell bred to GHGF Whole Lotta Love for late fall calves that will be 5/8 Angus 3/8 Gelbvieh Balancer. GHGF Whole Lotta Love is a calving ease specialist who the NCSU Beef Unit leased from us this winter.

5 fall bred commercial angus cross heifers from Zac Bray who came right from the top of his replacement pen. These girls are bred to a calving ease Angus bull for late fall 2021 or January 2022 calves. Exposed from late January until sale time and will be confirmed bred prior to sale day. Zac has been a long-time customer who has a tremendous cow herd that is built on the values of hard-working, low maintenance cattle who offer extra power and growth while maintaining good feet and udders and tons of longevity. These cattle have been brought through the winter on grass and have only received 3 rolls of hay and 1 protein tub all winter. They have been vaccinated twice with Calvary 9 and CattleMaster 5 and will have received one more round by sale day.

1 heavy spring bred 2019 commercial angus heifer from Hope Cattle. Here is a female that you cannot help but like when you see her. She offers added size, power, and rib and is going to have an excellent udder and be a calf raising machine for years to come! She very well may have an added coupon at side by sale day! Sells bred to CCC Paycheck Z15.

28	Commercial Black & Polled	Angus - Sitz Tradition	Commercial Angus	Spring 2019	Sells with a heifer calf at side, born 4/10 sired by CCC Paycheck Z15 (AAA 17291987)

3 Pairs coming from another long-time bull customer Drew Bray. Here is a set of young black commercial Angus cows who come to you with late fall and early spring Angus-sired calves. These young cows are really functional, easy keeping cows who are good footed with a lot of years ahead of them in production.

Females

6 Red Angus and Red Angus Cross cows from Claryville Farms. All cows are 4 years old. Claryville Farms is one of our many great bull customers who run a top end commercial Gelbvieh and Red Angus cross herd that is focused on low input cattle who can survive on grass with very little additional input. These cattle are from the top of their herd and all raised replacements this year or would not be being offered. They are heat tolerant cattle, easy keeping red cattle who have grazed stockpiled pasture through the winter with little to no supplement while raising big calves and breeding back. Cattle have been vaccinated with Vision 7 with somnus and Triangle 10, poured with Ivermectin and the breds have been confirmed bred by blood test to GHGF Dodge City.

(4) Bred Red Angus cross cows are bred for late fall 2021 calves, (1) exposed cow with January Red Angus sired heifer calf (Exposed 1/20/21-4/3/2021), and (1) registered Red Angus bred cow bred to 3 ACES Durango.

Females

9 head of 4-7 year old bred cows and pairs from Green Hills bred to the Angus bull Gambles Hot Rod 9620 who has sired many of our high sellers through the years. This group of females comes right from the heart of our herd and always brings in some of the heaviest calves and breed right back. All are good footed, good uddered, hard milking cows who just got done raising a really good set of fall heifers who all are going into the keeper pen or will sell with late fall calves at side.

4 head of 3-7 year old, fall bred Gelbvieh/Balancer cows from Green Hills bred to Purebred Gelbvieh AI sires GHGF Cowntown and EGL Encore. These girls once again are coming straight from the heart of the head and all cows that have had females make the keeper pen and bull calves who have made our bull sale pen every year. We wanted to offer some of our best and we felt like these girls represented the hard working, low maintenance kind of females we strive for to a high degree. These are the kind that can be corner stone cows for any cow herd. 3 registered Gelbvieh/Balancers. These girls are bred to be carrying your next herd sire or top end replacements.
