Keightley & Core Jerseys

We first learned of RECAL PLUS the hard way at World Dairy Expo 2012 when we found ourselves with eight milk cows that didn't handle the trip very well. Luckily, Dr. G.W. Snider happened to be in our barn working with another cow. He instantly recommended RECAL boluses to help get the cows restarted. We were amazed at how quickly the cows started to get back on track. They seemed to immediately start eating better. When we got home, we couldn't wait to check out the website and call the phone number on the bottle of boluses. We quickly made the decision to put the whole herd on RECAL PLUS before our annual trip to the All-American Jersey Show. The great people at RECAL Microbials assured me that if we weren't happy after thirty days that we paid nothing for the product. Thirty days later after a successful All-American trip with cows that had fully rebounded from their World Dairy Expo trip, we were true believers in the RECAL PLUS product. When we started the RECAL PLUS on our whole herd of 70 cows, we were monitoring our dry matter intakes and milk production. We also did some manure screening before we started the product and also seven days after we started. We could not believe the difference in the manure screenings. The undigested feed that was left in the manure was much smaller in particle size and when dried down and weighed there was actually less undigested feed. With monitoring our dry matter intakes, we saw a 6% decrease in dry matter intake and our milk production and butter fat actually went up. This was due to better digestion and utilization of the feed. This makes for better feed efficiency and more profitability. We are also seeing improved reproduction. In the spring of 2013 Jamie wanted us to try the new RECAL PLUS SS. He informed us that it was the same as the RECAL PLUS but focused toward even better cow health. We were the first people to try the RECAL PLUS SS. The very first thing we noticed after we started feeding the SS was less udder edema in the fresh cows. Next, we noticed in the pre-fresh post fresh transition the cows performed much better. We have been seeing less ketosis, DA's and milk fevers and the cows just take off and milk. We have also noticed a lot more fresh cows showing early heats at 20-40 DIM without shots and much stronger heats. After being on the RECAL PLUS SS for over a year we are seeing much better hoof health, a lot less abscesses, ulcers and hairy warts. We have never had a significant problem with warts but enough to be problematic, and fortunately now we have no warts at all.

After 30 years in the dairy business I have heard a lot of sales pitches and tried a lot of products that didn't prove profitable. RECAL PLUS did exactly what it said it was supposed to do. As you can tell by our numbers, RECAL PLUS is a great aide in feed efficiency while also improving milk production and profitability. We are averaging 6% or more on our butterfat test consistently, proof positive that RECAL PLUS works!

UPDATE

2018 National
Champion Jersey
"Hirds Colton Dream"

For the last seven years we have used RECAL products, and we currently use RECAL PLUS SS. The capability and versatility of these products continue to impress us. Frequently cows stop responding to products after being on them for a long time. But even after all this time we continue to get results. This past year at the All-American Jersey show we were the winner of 4 cow classes and named National Champion Jersey with Hirds Colton Dream. However, we don't stop in the show ring. It is important for these animals to prove themselves in the bulk tank. Our herd averaged 21,429 lbs. milk 1,108 lbs. fat, and 825 lbs. of protein. This ranked us 5th for protein and 8th for fat in the nation with the American Jersey Cattle Association for our herd size. Frequently we are asked what products we recommend and we are able to recommend RECAL without hesitation for the consistent results we received. We look forward to including RECAL products for years to come.

HOLSTEIN ASSOCIATION TERMS AND CONDITIONS FOR PUBLIC SALES

EFFECTIVE MARCH 2, 1996 - Amended October 1, 1997, June 28, 2000, June 23, 2002, and March 26, 2010

TERMS: The terms of the sale are cash unless arrangements are made prior to the sale or are printed in the sale catalog. Only when the above conditions are met will the buyer be entitled to the warranties listed below. In no case will animals be released unless settlement is made with the clerk of the sale.

RESPONSIBILITY: The seller, buyer, and manager of this sale are obligated to comply with the provisions of these terms and conditions.

EXPORT SALES: Buyer assumes all responsibility for health tests required by the importing country.

BIDS: The highest bidder is the buyer. Bidding parties or their agents are responsible for all bids placed. Every animal or lot presented for bidding is pledged to absolute sale. In case of dispute, the animal or lot will again be put up for advance bids, and if there is no advance bid, the animal or lot will be sold to the person the auctioneer accepted the last bid from. In case two or more claim the bid, the auctioneer will indicate the party whose bid he recognized. Other claimants will be given an opportunity to increase the bid and bidding will be restricted to the two or more claimants.

BY-BIDDING: Bidding directly or indirectly by the sole owner of any animal or lot is prohibited unless the intention to bid is disclosed specific to each animal in the catalog and announced when the animal enters the ring. Bidding by any member of a partnership, syndicate, or other entity having an ownership interest in an animal or lot is permitted.

TRANSFER OF OWNERSHIP: For all Registered HolsteinsSM, the transfer of ownership to the buyer will be recorded on the records of Holstein Association USA and a certificate of registration showing that transfer of ownership will be provided to the buyer free of charge. For embryos, the transfer of ownership to the buyer will be recorded on the records of Holstein Association USA free of charge to the buyer.

RISK: All animals located at sale site are at the purchaser's risk as soon as struck off, but will be cared for free of charge for a maximum of 24 hours following the end of the sale.

WARRANTIES:

- 1) Each consignor warrants clear title to the animal or lot, and the right to sell same.
- 2) To the best of the seller's knowledge, each animal is sound and healthy in every respect and embryos have been recovered, processed, frozen, transferred and graded in keeping with IETS recommendations unless otherwise noted in the catalog or announced from the auction stand. Every precaution will be taken to represent the physical condition of each lot exactly as is known. Examination of all purchases should be made immediately after the purchase and before the close of the sale, and if found not to be as represented, complaint must be reported to the sale management before the close of the sale. In the event no complaint is filed, it is understood that the buyer assumes full ownership in the case of animals at sale site together with all risks, after which no representations of the seller can be challenged through the sale management. Heifers that never calved are in no way guaranteed as to the condition of their udders following calving.
- 3) **Breeding Warranty**
The seller guarantees all animals to be breeders, but not beyond the purchase price, with the following understanding:

- a. Males - Should any bull after reaching the age of fourteen months fail to prove a breeder after being used for two months on cows or heifers known to be breeders, the matter shall be reported in writing to the seller within three months of the sale date. The report must include the animal's examination record, a written statement of treatment, and a statement of the animals' inability to breed,

by a licensed veterinarian. The seller has the option to refund the purchase price or make other settlement that is satisfactory to the buyer. In either case the rights of ownership of the animal return to the seller. The seller makes no guarantees with respect to the ability to freeze semen.

- b. Females - All females are guaranteed to be breeders with the exception of:
 1. Cows over 7 years of age when sold;
 2. Cows and/or heifers carrying a pregnancy that is the result of an embryo transfer.

Report of a non-breeder must occur in writing within 3 months of the date of sale or before the animal reaches 21 months of age and must be submitted to the seller. The report must include the animal's examination record, a written statement of treatment, and a statement of the animals' inability to breed, by a licensed veterinarian. The seller has the option to refund the purchase price or make other settlement that is satisfactory to the buyer. In either case the rights of ownership of the animal return to the seller.

Females bred when sold and pronounced in calf are presumed to be pregnant but pregnancy is not guaranteed unless so announced. The seller makes no warranty that pregnant cows will deliver calves or that they will carry calves full term.

- c. If, after the sale, embryos or oocytes are recovered from a female or an attempt is made to superovulate her, this negates the breeding warranty unless there is a separate written agreement between buyer and seller.

SHIPPING: Assistance will be given in arranging shipping of the animals after the sale. All costs, risks and responsibility will be borne by the purchaser.

PEDIGREE INFORMATION: All production, classification, type and production summaries are current. Only information recorded on Holstein Association USA pedigrees is used. Any production or classification records supplied by the seller or consignor will be properly identified as provided by owner. Records in progress are identified as such.

GENOMIC INFORMATION: If genomic information on the animal or embryo is available, it must be dated and disclosed at or before the time of sale.

EMBRYO TRANSFER: All registered animals that have resulted from embryo transfer are identified with one of the following suffixes in the name: ET, ETS (from split embryo), or ETN (from nuclear transfer). If unregistered, the appropriate technology will be identified. Donor dams are identified.

HEALTH WARRANTY: The seller will provide an official health certificate to the buyer for each animal showing the results of all health tests made in preparation for this sale as required by the state where the cattle reside. Other health tests completed for this sale will be disclosed.

ERRORS: The material in this catalog has been carefully edited. If any errors or omissions are discovered, they will be announced. Such announcements take precedence over that printed in this catalog.

ACCIDENT: The sale management, the consignors, and the owner of the grounds will not be responsible in any case for the condition of the grounds or the behavior of the animals and disclaim any liability in the event of personal accident or property loss.

LIMITATIONS OF WARRANTIES: Warranties contained herein, unless terminated earlier, will cease upon the resale of an animal.
