

The **PEN-COL** **GAMECHANGERS SALE**

Friday, May 21, 2021
12 Noon EDT at www.cowbuyer.com

Welcome

I Have always said “agriculture is where cutting edge technology and applied science meet.” Farmers appreciate the importance of sound science and how incorporating that into their operations means efficiency, profitability and sustainability. The use of disease and drought resistant crops, precision farming techniques, balanced nutrition in their feeding programs and good genetics in their breeding programs are just a few examples.

The cattle we are offering in our sale represent traditional deep pedigrees from the breeds best cow families along with some of the highest genomics in the world. This offering is from 3 great cow families that not only milk and score well but also have the unique ability to reproduce extremely well both in quantity and quality of offspring.

We choose the name Gamechangers because that is what this offering can do for any breeding program. This sale is an opportunity to put more value in your heifer pens whether you are investing in the next generation for your milking herd or offering high end consignments to a national sale. Many Dairy farmers are using genomics and embryo transfer to improve their cash flow rather than using beef bulls on the lower end of their herds.

On behalf of Josey and I as well as our friends from Hembury Farms, we hope you take time to review our offering. These Three cow families have been gamechangers for our farm and we are sure they will do the same for their new owners.

Sincerely,
Denny Wolf

LOT 19 IVF Session

**Buyer is purchasing rights to control the next IVF session(s). Buyer is guaranteed IVF sessions until a minimum of 8 #1 or #2 IVF embryos are produced. Embryo grades are determined at the time of transfer if fresh embryos or at time of freezing if freezing is requested by buyer. Buyer keeps all resulting embryos from these controlled IVF sessions. Buyer is responsible for all costs of the aspiration and mating sire decisions.*
