# Welcome . . .

We would like to welcome you to the Slattery Holsteins Complete Dispersal. Slattery Farm has changed significantly over the years from the first 40 acres being homesteaded in 1881, to the 'new' hip roof barn built in 1901, to the first registered Holstein purchased in 1995, and a new free stall barn and parlor built in 2007.

The herd was first classified in September, 2005. Since then, Slattery Holsteins has developed 32 Excellent cows, with 27 being bred and owned. The herd has been the recipient of the Progressive Breeder Registry award five times and Progressive Genetic Award four times. The herd received both awards in 2020 and is 100% homebred.

We have had the pleasure of raising three sons on the farm, Thank you for your help and support throughout the years. As a family we have met many close friends through showing cattle, dairy bowl and dairy judging.

Thank you to the vet clinics, feed consultants, AI technicians and other businesses that have provided support to the farm over the many years.

The cows selling today are a great group of cows to work with every day. They are housed in a sand-bedded free stall barn, on a full vaccination program, and a routine hoof trimming.

We would like to thank everyone who has expressed interest in the cattle. We wish the buyers of the cattle the best of milking, breeding or showing the cattle.

Thank you,  
Pat and Carol Slattery
