

Lauver Farm On-site Dairy Herd Dispersal!!

Friday, October 8th, 2021 at 10:00 am.

Located at 7998 Rowe Run Rd. Chambersburg, Pa 17202

This outstanding sale will consist of the top 120 cows handpicked from a 203 cow holstein herd! 74 in 1st lac. and 37 in 2nd lac. with cows in various stages of lactation. With tremendous udders, and great feet and legs, this is one of the top herds getting sold in the area! Averaging **84 lb. w/ a 23,034 lb RHA 3.7F 3.0P and low SCC!! 25 cows milking over 100 Lb with the top cow at 154 lb. on Dhia test!! 32 fresh in the last 60 days!** Genex Mating Service using some of the top Genex bulls.

The herd is fed by ANC and is in great body condition. Just hoof trimmed the beginning of August, housed in a freestall and milked in a tiestall so they should transition well to any set-up.

Great frames and built the way you like them! All Ai sired using good Genex bulls.

The Lauvers decided they need to scale back their dairy herd due to high cost of labor, so they've agreed to let us pick the top 120 cows and they're not holding any back! This is a tremendous opportunity to add their best cows to your herd, or put together a herd of your own!!

***** Can't make the sale? Participate on-line via Cowbuyer.com**

Herd is owned by Marcus & Melanie Lauver. Trucking Available. Call for more info.
