

47th Annual SC Dairy Project

Bred Heifer Sale

Wednesday, October 27, 2021

7:00 P.M.

Cowbuyer.com

Dear Friend,

Greetings and thank you for your interest in the 2021 South Carolina Dairy Heifer Project Bred Heifer Sale. We are proud that 2021 marks the 47th year of this sale. In the past 47 years, just over 1,800 bred heifers have been sold through this sale, paying hard working youth project members over 2.3 million dollars. This project has had a HUGE impact on the youth in South Carolina, but not just dollar wise. These youth, as you will see through the pages of this catalog, have learned about responsibility, hard work, sportsmanship, and integrity. They have gained knowledge about the dairy industry, but have also gained confidence and friendships that will last a lifetime. This project would not have been so successful over the past 46 years without the support of the South Carolina dairy industry, former project members, and South Carolina 4-H alumni; through their generosity in providing top quality heifers, mentoring to these youth, and supporting this sale each year.

The project began in 1973 to provide youth, who do not have milking facilities, an opportunity to experience the dairy industry. Generous dairy producers from throughout South Carolina and surrounding states provide quality heifers to this program and project members spend the next 18 months caring for, training, and showing their very own dairy heifer.

This Bred Heifer Sale is the culmination of their project. Project members will be selling the heifer they have worked so hard with over the last year and a half. I am extremely pleased with how much each project member has accomplished and grown over the duration of this project. It speaks well of our state's 4-H Dairy Program, Extension efforts, volunteers, as well as the entire dairy industry.

Numerous excellent animals, cows with outstanding milk production records, show ring winnings, and outstanding cow families have been developed from heifers purchased through this sale in previous years. Some of which now have descendants in this year's sale. This year's sale format will be a little different, but the quality animals and the hard work put forth by these youth remains the same. These youth have done an excellent job raising these heifers and this group of bred heifers is now ready to go to work for you.

If you are looking for quality, milk production, and deep cow families, I encourage you to take time to participate in the 47th Annual 4-H Dairy Bred Heifer Sale on Wednesday, October 27, 2021 at 7:00 pm. on Cowbuyer.com. You will not only be helping your dairy herd with your purchase, but you will also be demonstrating your confidence in South Carolina 4-H members and the Dairy Heifer Project.

Sale Notes

South Carolina 4-H Dairy Heifer Project

Many 4-H members from around the state have, for the past 18 months, been experiencing the dairy industry by caring for, training, showing their very own dairy heifer. Their project comes to an end with the annual SC Dairy Project Bred Heifer Sale. This project and the sale serve as a way for those youth who do not have the facilities to milk cows to experience raising a dairy animal and learning first-hand about the dairy industry.

The SC 4-H Dairy Heifer Project is unique in several ways. These animals were selected when they were approximately six months old. Heifers were then assigned to each child by a random drawing. Each youth must sell his or her heifer at the conclusion of the project and many of these youth and family members have become very attached to these heifers. The SC 4-H Dairy Heifer Project Advisory Committee does permit family members to purchase heifers being sold where prior permission has been asked for and granted by the project committee. For the 2021 Bred Heifer Sale, no buy-back permission has been granted

These youth have worked hard during the past 18 months and have made every effort to learn about raising dairy heifers. This year has been a challenge with circumstances out of their control, but each youth had done their best and these sale animals are indicative of a job well done. This sale provides an opportunity for you to purchase well-grown replacement heifers for your herd while supporting this project and demonstrating your confidence in these youth.

This project would not be possible without the generous producers who place high quality calves into the project and support the sale at its culmination.

Due to the success of the 2020 online sale, this year's sale will be virtual and will be held on cowbuyer.com on Wednesday, October 27, 2021 at 7:00 p.m.

LIVE INTERNET BIDDING AT www.cowbuyer.com

- View/bid online in Real Time
- Registration is required. Please register at least one (1) hour prior to sale time at www.cowbuyerlive.com
- High Speed Internet is required. Slower speed will not permit you to bid and keep pace in real time.
- Terms: Purchasing online constitutes a legal contract and promise for payment of purchases. All purchases must be paid within five (5) days of sale date and prior to load out or delivery of cattle purchased.
- Cowbuyer.com is a service provider and is not responsible for the activity or inactivity of any technology, internet connection at the sale site or connection and technology of the bidders.

For questions or information, contact:

Aaron Ray Tompkins – 336/363-4639, atompkin@vt.edu

Conditions of Sale

Every animal is pledged to absolute sale if there are two or more bidders. If two or more persons claim the same bid, the sale manager shall designate the purchaser unless one of the claimants will advance, in which case the bidding shall be reopened. The sale manager reserves the right to reject any bid deemed irresponsible or too low. Should an animal be sick or unfit to sell, it will be withdrawn, and the cause announced. All animals have been inspected by a Heifer Project Committee member and a licensed veterinarian the week prior to the sale.

By-bidding is prohibited: by-bidding is defined as the bidding on animals sold at auction by any person or corporation having an interest in the animal. In the event any such person as above defined intends to bid at the sale, he may do so if notice of such intention to bid and for whom shall be announced prior to the sale of the animal. Any person who shall by-bid in violation of these conditions as above defined, shall be reported to the respective breed club.

Registration: All animals are entered in the herd register of the respective breed association headquarters. Seller guarantees the identity of each animal to appear on the registration certificate.

Transfer: Transferring of the animal shall be completed in the name of the buyer and recorded immediately following the close of the sale. Seller will cover the cost of the transfer.

Warranties: When an animal is warranted the facts and particulars will be stated from the auction stand; otherwise, the animals are sold with all faults and nothing warranted except right and title to property. Care will be taken to announce known defects in the cattle and errors or changes to information printed in the catalog. Information announced from auction stand will take precedence over printed matter.

Health: Health papers will be available on all animals

Terms: Terms of the sale are cash unless other arrangements are made with the sale manager before the sale.

I like 4-H and I like showing heifers. I get to show with my cousins and have made new friends. I learned this year that I must go slow and hold her head up. I have been to a lot of new places. I like when I show Buttercup because she is good. She is getting better at holding her head up. I think she is pretty. I love her because she is a Jersey and is calm and sweet.

"Willie Mae" has been one of my favorite project heifers. She is well-conditioned and easy to lead. I wish she was more open ribbed. I am thankful for the opportunity to be in the project heifer program. I have learned a lot about taking care of an animal and the family involved in showing.

Katie is my last project heifer. I have enjoyed the project heifer program for over 13 years and will cherish the things I have learned and the memories I have made due to this important program. Katie is a powerful well-conditioned heifer that I have enjoyed showing. I wish she had more definition from hooks to pins, but over-all she shows good dairy character.

By participating in the Heifer Project each year, I continue to learn what it takes to raise a quality heifer that is ready to go to work for the dairy farmers. I have enjoyed raising and showing this heifer. She is a big, strong, healthy calf and will make a good milk cow
