AMPLIFY

AMP UP YOUR GENETIC BASE

HILMAR, CALIFORNIA

We are very excited and honored to welcome you to Vierra Dairy - a place that has been near and dear to our hearts for many generations. Our family has been in the dairy business since the 1940's. Anthony and Marie Vierra landed at this location in Hilmar in 1967 and we have been operating here ever since. Anthony and Marie's eldest daughter Maria, and her husband, Matt Swanson, took over the dairy in 2009, and built it to what it is today. The family business has continued to today, as Matt and Maria's eldest daughter Maia, and her husband, Peter Cipponeri, now manage the 1,500 acre dairy and herd of over 6,000 cows. Most days, you can see Maia, Peter, and three-year-old twins, Reagan and River, on the dairy, raising their children in the dairy lifestyle, as the generations before them.

We are incredibly blessed to continue what Anthony and Marie started so many years ago. The strong foundation of Vierra Dairy has been set by the family before us and we look forward to continuing the legacy for years to come!

Our main goal is to concentrate on breeding an elite genetic herd. We have invested in top genetic families, and now continue to enhance these families by using top production bulls like Chief, Listowel-P, Completely, and Skyler resulting in current and future high impact sires such as - Tenpenny, Clapton, Sinatra, TheBoss, Monarch, Pretenders and ZZTop. Looking to the future, we are excited for the potential impact from our donor program and continue to add high impact females to meet genetic needs for production, health and udders.

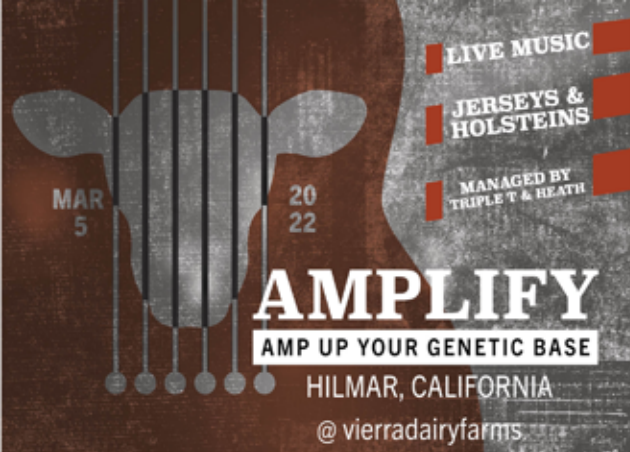

In 2018, we purchased Showdown Justine (E-93%), and that purchase led to the growth and development of our show string and elite type genetic program. In 2019, we were honored to take home Grand and Reserve Grand Champion and Premier Exhibitor at the Jersey Show at both World Dairy Expo and the Royal Winter Fair. In 2021, that feat was repeated with the addition of winning Junior and Intermediate Champion.

This sale has been in planning for over two years. With an extensive IVF and flush program, we are now in the position to offer some of our best genetics as well as an incredible group of consignments to our industry friends. We would like to thank all of the consignors for giving us your best for this exciting event.

Welcome to Vierra Dairy and the AMPLIFY -Amp Up Your Genetic Base Sale!

THE MOST EFFECTIVE PEST CONTROL AVAILABLE

Our Year-Round IPM (Integrated Pest Management) program is designed to reduce fly populations at your dairy by targeting not just adult flies, but the eggs, larve, and pupae that hide in soil and turn your farm into a breeding site.

- Systematic pesticide applications will alleviate adult fly pressure
- Good sanitation will reduce food and harborage that flies need in order to maintain high populations

INTEGRATING TECHNOLOGY AND PEST MANAGEMENT

At Clark, we use the latest technologies available when implementing a dairy pest management program.

Clark is dedicated to providing its clients with the most effective dairy pest management program in the world.

GALAXIS™ FRONTIER HAS ARRIVED.

The most scientifically advanced microbial solution is now available. GALAXIS™ Frontier is the only product made with live microbes that are native to the dairy cow's rumen. The result is optimized digestion for more energy production. And more energy means more of what lactating cows do best.
