VALUE LATER SALE

APRIL 30, 2022

COWBOY AUCTION AT 1PM ON 4.30.22

LAZY ACRES ANGUS PRESENTS THEIR 7TH ANNUAL SPRING

FOCUS NOW

VALUE LATER SALE

SALE LOCATION

Lazy Acres Angus Farm
703 Woodman Rd.
Rocky Mount, VA 24151

DIRECTIONS

From intersection of Hwy. 220/Hwy. 40 in Rocky Mount, VA travel
East on Hwy. 40 for 1.8 miles, turn left on Woodman Rd. (watch for sign).

AUCTIONEER

Dalton Bennett. 434.664.7946

SALE DAY CONTACTS

Steve Furrow. 540.520.4804
Jason Thurman 540.493.4813
John Thurman. 540.493.6025
Mike Hodges 540.263.0731

SALE FORMAT

Cattle will be shown by video on sale day. In addition to on site, bidding will be available
online via Cowbuyer. Please see Page 4 for details.

INSPECTION OF CATTLE

Offering may be viewed at the farm anytime. Please call ahead to arrange viewing. Videos
are available at www.lazyacresangus.com.

LUNCH

Angus Bar-B-Q lunch will be provided.

SALES & CONDITIONS

HEALTH

All cattle will be accompanied by proper health certificates for immediate shipment.

EPDS & VALUES

The American Angus Association is calculating and updating EPD's on a weekly basis.
EPD information is current at time of printing and any new data submitted between the
print date and sale date could affect individual EPD's. If your purchase decision is heavily
dependent on EPD's, please refer to www.angus.org for the latest information. Any changes
will be noted on sale day supplemental sheet. Catalog EPD's are as of 4.15.22.

TERMS

Cattle sell under the suggested Terms and Conditions of the American Angus Association.
www.angus.org/Pub/suggested_sale_terms.pdf.

HERD HEALTH

Routine herd health and vaccinations up to date on all animals. Bulls and Heifers ear
notched and tested negative for PI-BVD. All bulls have passed a Breeding Soundness Exam
performed by Dr. Pete Fulper.

GUARANTEE

All cattle sell satisfaction guaranteed. All bulls are guaranteed for one year provided he has
been properly cared for. Buyer is entitled to credit or replacement.

DELIVERY

We offer free delivery. If you pick up your purchase, deduct \$75 off the purchase price.

BULL DEVELOPMENT

All bulls were weaned in early May and placed on fescue paddocks after weaning. They were
shipped in early June to Wardensville, WV and tested using the Growsafe systems there.
They returned home in mid-October. Ultrasound and yearling weights were taken in October.
After collecting yearling information, bulls were placed on a maintenance ration of hay and
silage. 30 days prior to sale, bulls were supplemented with a commodity pellet. Every effort
has been made to ensure bulls are sound and healthy. We feel our development allows the
bulls to be best prepared for the upcoming breeding season.

GENETIC ABNORMALITIES

The American Angus Association has identified genetic abnormalities and all potential
carriers in our sale have been tested and identified. As carriers, they are not affected by the
defect, but could have an affected calf if bred to another carrier. For additional information,
refer to www.angus.org. Please ask if you have any questions.

WELCOME

Everyone at Lazy Acres Angus would like to welcome you to the "FOCUS Now, VALUE Later" bull and female sale.

2022 marks the 7th Annual sale and we FOCUS hard on bringing you a great set of cattle. Without your continued support, we would not be able to pursue our mission of creating VALUE for our customers through reliable genetics and FOCUSED customer service while maintaining a viable and enjoyable family farm for generations.

This set of bulls represent some tried and true sire lines including Tahoe, Citadel and Niagara. We are excited to offer a couple new sires in Uptown 7813 and Dark Fire, both being a great compliment to our genetic base. For the first time we are sharing the residual feed intake (RFI) EPD's from Vytelle. These EPD's take into account the feed efficiency data collected at the Wardensville Bull Development Center. Lower RFI EPDs are more favorable. The Vytelle feed efficiency database is the world's largest multi-breed repository with over 260,000 individual EPD animals. For more information, please check out www.vytelle.com.

We continue to offer ALL of our coming six-year old females. These females represent the heart of our herd and a great opportunity for you to purchase proven females that do their job. Barbara 6831 (Lot 21) represents the Ideal cow at Lazy Acres. She is a donor female and will add VALUE anywhere she goes. There are several heifers in this offering that have the potential to be great. One example is Lot 49, who is a daughter of Barbara 6831 and blends two great Lazy Acres cow families.

Since 1960, we have been working to create better cattle. We stand behind the cattle we are offering and are confident these bulls and females will work for you. If you have questions about the cattle before or after the sale, please let us know.

God Bless you and yours.

Sincerely,

Steve Furrow

ONLINE BIDDING

**LIVE INTERNET BIDDING
AT WWW.COWBUYER.COM**

- View/bid online in Real Time
- Registration is required. Please register at least one (1) hour prior to sale time at www.cowbuyer.com
- High Speed Internet is required. Slower speed will not permit you to bid and keep pace in real time.
- Terms: Purchasing online constitutes a legal contract and promise for payment of purchases. All purchases must be paid within five (5) days of sale date and prior to load out or delivery of cattle purchased.
- Cowbuyer.com is a service provider and is not responsible for the activity or inactivity of any technology, internet connection at the sale site or connection and technology of the bidders.
- No APP required on mobile devices.

Questions please contact Aaron Ray Tompkins 336.363.4639.

**WE WOULD LIKE TO
EXTEND A BIG**

Thank You!

to Wardensville Bull Test. Dr. Kevin Shaffer,
Jerry Yates & crew.

Also, Thank you to Dr. Pete Fulper,
Dr. Andy Meadows and Mike Hodges.

RFI EPD: 0.4026

How To Read THE CATALOG

Calving Ease Direct (CED), is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

Birth Weight EPD (BW), expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

Weaning Weight EPD (WW), expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

Yearling Weight EPD (YW), expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

Yearling Height EPD (YH), is a predictor of a sire's ability to transmit yearling height, expressed in inches, compared to that of other sires.

Scrotal Circumference EPD (SC), expressed in centimeters, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

Docility (DOC), is expressed as a difference in yearling cattle temperament, with a higher value indicating more favorable docility. It predicts the average difference of progeny from a sire in comparison with another sire's calves. In herds where temperament problems are not an issue, this expected difference would not be realized.

Milk EPD (Milk), is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

Carcass Weight EPD (CW), expressed in pounds is a predictor of the differences in hot carcass weight of a sire's progeny compared to progeny of other sires.

Marbling EPD (Marb), expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

Ribeye Area EPD (REA), expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

Fat Thickness EPD (Fat), expressed in inches, is a predictor of the differences in external fat thickness at the 12th rib (as measured between the 12th and 13th ribs) of a sire's progeny compared to progeny of other sires.

Maternal Weaned Calf Value (\$M), an index, expressed in dollar per head, predicts profitability differences from conception to weaning with the underlying breeding objective assuming that individuals retain their own replacement females within herd and sell the rest of the cull female and all male progeny as feeder calves. Traits included are as follows: calving ease direct, calving ease maternal, weaning weight, milk, heifer pregnancy, docility, mature cow weight, claw set and foot angle.

Weaned Calf Value (\$W), an index, expressed in dollars per head, to predict profitability differences in progeny due to genetics from birth to weaning. The underlying objective being producers will retain 20% of the female progeny as replacements and sell the rest of the cull females and their male counterparts as feeder calves. Traits included are as follows (in no particular order): birth weight, weaning weight, milk, and mature cow weight.

Beef Value (\$B), an index value expressed in dollars per head, is the expected average difference in future progeny performance for postweaning and carcass value compared to progeny of other sires.

Combined Value (\$C), an index, that is the combination of \$Maternal and \$Beef.
