

New York State Jersey Cattle Club

A photograph showing the rear view of a brown Jersey cow. The cow's hindquarters are the central focus, featuring a large, irregular, reddish-orange patch with a cracked, textured appearance. The cow's tail is visible, hanging down. The background is a dark grey gradient with a blue curved shape at the top.

HOSKING SALES LLC

Auctioneers

Tom Hosking 607-972-1770
Dan Hosking 607-972-8773
Brenda (607) 972-1771

The Terms of Sale

Cash or good check or Credit Card is accepted with a 4% charge. Nothing removed until settled for. Any cattle purchased on line (Cowbuyer) or by phone bids they are expected to be settled for immediately. All Cattle have been pregnancy examined. Females bred when sold and pronounced in calf are presumed pregnant but pregnancy is not guaranteed. The seller makes no warranty that pregnant cows will deliver calves or that they will carry full term.

All sales are FINAL

Please examine your purchases before the close of the sale. All animals are sold to be right in every way unless otherwise announced. Report any discrepancies to the sale management immediately. At close of the sale, all sales will be considered final and there can be no recourse.

Cattle examined for pregnancy and inoculated against shipping fever.

Trucking

Our Staff & Committee will be happy to help you arrange trucking

**REQUIRED HEALTH TESTS FOR THE
NEW YORK NEXT GENERATION JERSEY SALE**
Genesee County Fairgrounds 5056 E Main Street Rd Batavia NY 14020
Saturday, May 21st, 2022

TUBERCULOSIS: All animals must have a negative Tuberculosis test conducted within 30 days of the sale. This is a requirement even if you are a Certified Free Herd or from a Certified Free State. An individual copy of the Tuberculosis chart must be attached to the health chart as there are some states that require this form for entry into their state.

BRUCELLOSIS: We highly recommends that all animals be calthood vaccinates so they can be purchased by breeders from all states. All animals must have a negative Brucellosis test (BAPA test is recommended) conducted within 30 days of the sale. Official calthood vaccinates under 6 months of age as of sale day do not need to be tested, however, their vaccination tattoo must be legible and listed on the health certificate.

BVD-PI (Persistent Infection): All animals must have a negative Antigen Detection test (ear notch, nucleic acid hybridization, polymerase chain reaction amplification (PCR), viral isolation or Elisa). Proper documentation of a negative test is required. This test can take longer than a week to get the results.

SHIPPING FEVER BOOSTER: All animals need to have a Shipping Fever Booster shot (An intra-nasal is recommended) no less than 10 days prior to the sale and not more than 60 days prior to the sale. The documentation and date of this shot needs to be listed on the health chart.

MILKING COWS ONLY: Each lactating cow must have a negative composite milk culture for Staph aureus and Mycoplasma Species. A bulk tank sample is acceptable as long as it is negative. If not, each lactating animal in the sale will need an individual negative test before arriving at the sale. This test takes approximately 10 days to complete.

HEALTH CERTIFICATE: An individual Interstate Health Certificate is required for each animal. The health certificate must include the "Permanent" identification for the animal. Recent USDA regulatory changes list 840 Electronic ID tags or National Uniform Ear Tag System tags (metal clips with state code, nine-digit alphanumeric sequence, ex...orange brucellosis calthood vaccination tag) as approved Permanent ID tag identification. Farm tags, tattoos or registration numbers are no longer acceptable. All of the test results must be written on the Interstate Health Certificate. Attached supporting test information should only be an "addition". The Interstate Health Certificate must be with the animal upon arrival at the sale. An individual copy of the Tuberculosis test chart must be attached to the health chart as there are some states that require this form.

REGISTRATION CERTIFICATES: Please send the registration certificate for the animal with your Interstate Health Certificate. On the back of the registration certificate please list the accurate breeding date (if applicable) and service sire information.

PRODUCTION FORMS: If your animal is milking, please send the most recent production form with your animal. The buyer of your sale consignment needs this information in order to transfer the milk records into their herd.

PREPARATION OF CONSIGNMENTS: Listed below are a few things that you need to take care of before sending your animal to the sale.

Trim the feet on your consignment now, if needed.

Remove extra teats.

Get your animal used to being fed and watered from a bucket and break to lead.

A pregnancy check is recommended for animals bred over 35 days. All animals will be examined prior to the sale by a veterinarian prior to sale.

ARRIVAL DATE: We will be ready to accept your consignments starting at noon on Tuesday, May 17th. All consignments should be in place by afternoon on Wednesday, May 18th.

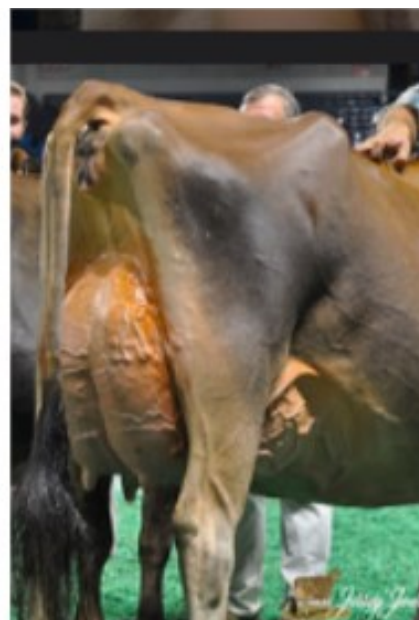

TRUCKING: If you need assistance with trucking your consignments to the sale, please contact Becky Ferry at least 3 weeks prior to the sale.

INJURY/DEATH: Sale Management is not responsible for the injury or death of any sale consignment while at the sale or being trucked to the sale. Any Veterinarian bills incurred at the sale for sick animals will be the owner's responsibility.

Thank you for supporting the New York Next Generation Jersey Sale with your consignments. The sales staff will do their best to promote each animal.

Sincerely,

NYS Sale Committee
