

# ARBOR-HAVEN

COMPLETE HERD DISPERSAL

WAUKON, IOWA

OCTOBER 21ST, 2022 › 9:30 AM

# TESTIMONIALS...

“Working side by side with the Palmer family, I have first-hand knowledge of how stellar their cattle management and handling are. They have used the newest technologies to help them monitor and care for their herd. They have been testing for Johnes and Leukosis for more than 10 years. All cattle of breeding age are given Virashield L5 annually and youngstock are given Bovishield L5 HB and Ultra 7/Som at calthood vaccination. Scour vaccinations are given at dry off. Additionally, the Palmers utilize their nutritionist, veterinarian and other specialists to make solid decisions for their cows. Dairying is a family passion. I see it in each of the kids and in Eric and Stephanie. Seeing this herd go and not getting to visit with them as often makes this sale hard, but I know it’s time for them to concentrate on each other and the changes that will be ahead.”

Dr. Jessica Hammell  
Postville Veterinary Clinic  
(563) 864-3631

“We have been trimming for Arbor-Haven for six years now. They are one of the best herds we have worked with. The attention to detail and management from Eric and Stephanie, their kids and employees are topnotch. We were fortunate enough to work with their cows that have such good feet and legs that lameness was almost nonexistent. We were always impressed with their cleanliness and lack of hairy warts (digital dermatitis). We will miss having this amazing family as a client and hope others will enjoy their hard work and genetics with purchasing their cows and heifers.”

Chris Viljoen  
Sound Step Hoof Care  
(507) 525-2132

“It is truly with mixed emotions that we work to prepare for the Arbor-Haven dispersal. The Palmer’s have been a true friends and customers for over 25 years. This herd was started Greg Palmer and is continued today by Eric and Stephanie and family. The details that are practiced each day are a great model for all dairy producers. The health and management of the herd is to always help all cows be at their highest ability each and every day. The management practices have allowed them to build the herd from within and to continue to have extra cows for sale on numerous occasions. We have been able to help market extra cattle for them several times. The stories that have come back to us from replacements other dairies have purchased is very rewarding. Cows from this herd have been sold to South Dakota, Wisconsin, Minnesota and NW Iowa. In the fall of 2018 Palmcrest Olympian Dixie was part of a group of fresh young cows. Dixie was purchased by Minglewood farm in Wisconsin and went on to be EX-92 in their herd. They have flushed her to make more daughters from this special cow. This is just one of many success stories that have come from buyers.

Please join us for this special opportunity as dairy enthusiasts and friends of the Palmer’s. We know that the will be many more stores like Dixie’s. Thank you for your support and we look forward to seeing you on October 21st.”

# WELCOME TO ARBOR-HAVEN HOLSTEINS,

formerly Palmcrest Farms, where for the last 21 years, Eric and I have established our family and laid the foundation for the love of the dairy industry in our four kids, Madalyn, Emma, Keagan, and Sophia. Eric has been farming on his family farm his whole life. Our journey as a family began in 2001, when Eric and I were married, and I, too, took an active role in the farm, while working off the farm, by taking over sick cow care, calvings, and helping with crops as needed. With the arrival of Madalyn, in 2003, I gave up my "town job" and concentrated on our family and the farm. In 2005, we took the first step of achieving Eric's lifelong goal of passing this farm on to the future generations, by buying into ownership of the cows, forming the partnership of Palmer Farms, with Eric's Dad, Greg. I took over the remaining herd health decisions, records, and genetic decisions. Eric focused on producing high quality forages to feed our ladies and other farm duties. At that point we began to build a herd of cows with our goals in mind. We began to breed cows that work hard, last for generations, and look good doing it. We have done this by focusing on longevity, fertility, productive life, udder composite, feet and legs, milk and components, all while maintaining type. This combination of characteristics has allowed us to breed high quality cattle, leading to numerous production and quality awards.

In the Fall of 2016, while working our way to 50% ownership, life threw us the biggest curve ball, as Eric was diagnosed with a very aggressive form of brain cancer. We are so proud of the fight he has fought as he has outlived his initial diagnosis by years. During this time, we moved forward with our vision for the future; completely buying the herd from Eric's Dad, Greg, and transitioning the herd from the partnership prefix of Palmcrest to our own prefix, Arbor-Haven, fulfilling a vision of our children. Our children have grown not only in size and maturity, during these years, but also in skills, to take on much larger rolls to help keep the farm going. Madalyn learned how to breed cows, run the bagger, translate Spanish for our milking crew, and fills in wherever we need her. Emma became very proficient at raking hay, hauling loads of feed, translating Spanish, and doing whatever else is needed. Keagan has become proficient at running skid loader, helping run the bagger, and doing more chores. Sophia has kept us all well-fed during our many days in the field and has spent countless nights feeding calves alone during harvest. I have struggled to balance the many medical appointments and doctor visits for Eric, taking care of our ladies, and being a Mom to four active, involved, kids. We can't thank the team on the farm enough. We, also, can't express enough thanks to our family and friends for the never-ending support we receive in so many different ways, from prayer to food to transporting the kids to their many activities when I have been busy on the farm or taking Eric to his many medical appointments.

During our time in the dairy industry, we have formed many close bonds and have gained many close friends, who are family. We will cherish our business and dairy industry friendships and connections for years to come. Our kids have a lifelong passion for all things dairy, the great things to eat, great activities to do, and the great people in the industry. This is evident through their involvement as County Dairy Princesses and promoting our products and by their involvement on the dairy judging team and in the show ring. We may not have won the class, but we were proud of our homebred show animals that also perform outside the show ring, here on the farm. The opportunities provided by our dairy industry have been vast, and for our kids, they will be lifelasting.

**As Eric's battle is entering the final phase, we have had to make the very difficult decision to sell the cows and exit the dairy industry we love so much. We hope our kids let this passion lead them to do great things in life.**

**We would like to thank the team that has helped take care of our girls throughout the years, specifically Daniel, Greg, and Lyle. We would also like to thank Chris, our hoof trimmer, David and Jessica, our herd health vets, Postville Vet Clinic, Dan our nutritionist, Dave our agronomist, our Select Sires Repro team, Richard, our Foremost Farms fieldman, and our many milkmen. We would also like to thank the Courtney Sales LLC crew, our fitters for the week, our salesforce, and our ringmen, especially Scott and Amy, Blake, Brooke, Brody and Brinlee.**

**High quality cattle, as a result of our breeding program, and reduced cull rates, has allowed us to sell several groups of young cows for dairy, enabling other herds to benefit from our philosophies and cow families. Today is your chance to take a part of Arbor-Haven home with you. Thank-you for coming, and we hope you find some of our ladies that you, too, can find success within your herds.**

# HOLSTEIN ASSOCIATION TERMS AND CONDITIONS FOR PUBLIC SALES

EFFECTIVE MARCH 2, 1996 - Amended October 1, 1997, June 28, 2000, June 23, 2002, and March 26, 2010

**TERMS:** The terms of the sale are cash unless arrangements are made prior to the sale or are printed in the sale catalog. Only when the above conditions are met will the buyer be entitled to the warranties listed below. In no case will animals be released unless settlement is made with the clerk of the sale.

**RESPONSIBILITY:** The seller, buyer, and manager of this sale are obligated to comply with the provisions of these terms and conditions.

**EXPORT SALES:** Buyer assumes all responsibility for health tests required by the importing country.

**BIDS:** The highest bidder is the buyer. Bidding parties or their agents are responsible for all bids placed. Every animal or lot presented for bidding is pledged to absolute sale. In case of dispute, the animal or lot will again be put up for advance bids, and if there is no advance bid, the animal or lot will be sold to the person the auctioneer accepted the last bid from. In case two or more claim the bid, the auctioneer will indicate the party whose bid he recognized. Other claimants will be given an opportunity to increase the bid and bidding will be restricted to the two or more claimants.

**BY-BIDDING:** Bidding directly or indirectly by the sole owner of any animal or lot is prohibited unless the intention to bid is disclosed specific to each animal in the catalog and announced when the animal enters the ring. Bidding by any member of a partnership, syndicate, or other entity having an ownership interest in an animal or lot is permitted.

**TRANSFER OF OWNERSHIP:** For all Registered Holsteins<sup>SM</sup>, the transfer of ownership to the buyer will be recorded on the records of Holstein Association USA and a certificate of registration showing that transfer of ownership will be provided to the buyer free of charge. For embryos, the transfer of ownership to the buyer will be recorded on the records of Holstein Association USA free of charge to the buyer.

**RISK:** All animals located at sale site are at the purchaser's risk as soon as struck off, but will be cared for free of charge for a maximum of 24 hours following the end of the sale.

## WARRANTIES:

- 1) Each consignor warrants clear title to the animal or lot, and the right to sell same.
- 2) To the best of the seller's knowledge, each animal is sound and healthy in every respect and embryos have been recovered, processed, frozen, transferred and graded in keeping with IETS recommendations unless otherwise noted in the catalog or announced from the auction stand. Every precaution will be taken to represent the physical condition of each lot exactly as is known. Examination of all purchases should be made immediately after the purchase and before the close of the sale, and if found not to be as represented, complaint must be reported to the sale management before the close of the sale. In the event no complaint is filed, it is understood that the buyer assumes full ownership in the case of animals at sale site together with all risks, after which no representations of the seller can be challenged through the sale management. Heifers that never calved are in no way guaranteed as to the condition of their udders following calving.

### 3) Breeding Warranty

The seller guarantees all animals to be breeders, but not beyond the purchase price, with the following understanding:

- a. Males - Should any bull after reaching the age of fourteen months fail to prove a breeder after being used for two months on cows or heifers known to be breeders, the matter shall be reported in writing to the seller within three months of the sale date. The report must include the animal's examination record, a written statement of treatment, and a statement of the animals' inability to breed,

by a licensed veterinarian. The seller has the option to refund the purchase price or make other settlement that is satisfactory to the buyer. In either case the rights of ownership of the animal return to the seller. The seller makes no guarantees with respect to the ability to freeze semen.

- b. Females - All females are guaranteed to be breeders with the exception of:
  1. Cows over 7 years of age when sold;
  2. Cows and/or heifers carrying a pregnancy that is the result of an embryo transfer.

Report of a non-breeder must occur in writing within 3 months of the date of sale or before the animal reaches 21 months of age and must be submitted to the seller. The report must include the animal's examination record, a written statement of treatment, and a statement of the animals' inability to breed, by a licensed veterinarian. The seller has the option to refund the purchase price or make other settlement that is satisfactory to the buyer. In either case the rights of ownership of the animal return to the seller.

Females bred when sold and pronounced in calf are presumed to be pregnant but pregnancy is not guaranteed unless so announced. The seller makes no warranty that pregnant cows will deliver calves or that they will carry calves full term.

- c. If, after the sale, embryos or oocytes are recovered from a female or an attempt is made to superovulate her, this negates the breeding warranty unless there is a separate written agreement between buyer and seller.

**SHIPPING:** Assistance will be given in arranging shipping of the animals after the sale. All costs, risks and responsibility will be borne by the purchaser.

**PEDIGREE INFORMATION:** All production, classification, type and production summaries are current. Only information recorded on Holstein Association USA pedigrees is used. Any production or classification records supplied by the seller or consignor will be properly identified as provided by owner. Records in progress are identified as such.

**GENOMIC INFORMATION:** If genomic information on the animal or embryo is available, it must be dated and disclosed at or before the time of sale.

**EMBRYO TRANSFER:** All registered animals that have resulted from embryo transfer are identified with one of the following suffixes in the name: ET, ETS (from split embryo), or ETN (from nuclear transfer). If unregistered, the appropriate technology will be identified. Donor dams are identified.

**HEALTH WARRANTY:** The seller will provide an official health certificate to the buyer for each animal showing the results of all health tests made in preparation for this sale as required by the state where the cattle reside. Other health tests completed for this sale will be disclosed.

**ERRORS:** The material in this catalog has been carefully edited. If any errors or omissions are discovered, they will be announced. Such announcements take precedence over that printed in this catalog.

**ACCIDENT:** The sale management, the consignors, and the owner of the grounds will not be responsible in any case for the condition of the grounds or the behavior of the animals and disclaim any liability in the event of personal accident or property loss.

**LIMITATIONS OF WARRANTIES:** Warranties contained herein, unless terminated earlier, will cease upon the resale of an animal.
