Sale Catalog

Sale begins at 1:00pm

Glenbrook Farm

About Us

Matt started raising commercial Katahdin sheep in 2008 on his parent's farm. In 2009, he sold that flock and bought a registered flock of Katahdins and moved them to the current farm location. In 2013, he joined the National Sheep Improvement Program which provides estimated breeding values to help select animals using data. In 2018, he added a small flock of White Dorpers from Paul Lewis in Oregon. He also added a few Romanovs that same year. Last year, we added Texels from the WVU flock dispersal which brings our current ewe flock total to approximately 130 Katahdin, 30 White Dorper, 20 Romanov and 20 Texel sheep.

Our goal as a farm is to use data and visual appraisal to breed sheep that excel in commercial sheep production. For any questions please contact Matt Nolt at **(717) 419-1980**.

Thank you for your interest in our sheep!

Matt and Katie Nolt

Schedule

7:30 AM—Coffee and Donuts

8:00 AM to 12:00PM — Lambing and Kidding School

1:00 PM — Sheep Sale Begins

Food Truck Available For Lunch

Biosecurity is very important to us. PLEASE wear clothes and shoes that are clean or have not been in contact with your sheep.

Made Possible By

Special thanks to Cowbuyer.com for helping with the online auction and Tim Weaver Auction Service. The terms and conditions for the auction are as follows: the auction company and sellers are not responsible for accidents. Auction day announcements take precedence over all advertising. Forms of payment include cash, approved check or credit card with 3% fee.

Auctioneers for this event include Tim Weaver who can be reached by phone at **(717) 354-9524**. The license number is AY2109.

For those interested about the online auction service, live internet bidding is taking place at cowbuyer.com. Participants can view and bid online in real time, but high speed internet is required. Registration is also required at least one hour prior to sale time at www.cowbuyerlive.com. Please note that purchasing online constitutes as a legal contract and promise for payment of purchases must be paid within five days of sale date and prior to load and delivery of sheep purchased. Cowbuyer.com is a service provider and is not responsible for the activity or inactivity of any technology, internet connection at the sale site or connection and technology of the bidders. For more questions or information about Cowbuyer.com please contact Aaron Ray Tompkins by phone **(336) 363-4639** or by email at atompkin@vt.edu.

Terms Used Throughout Catalog

Registration:

Lots listed with registration “available” can be registered at buyer request within 30 days after the sale. Seller will cover cost of registration for animals that sell for over \$500. Buyers cover the cost of registration for animals that sell for under \$500.

NSIP EBV and Indexes Descriptions

BWT: Birth Weight EBV (kg) estimates direct genetic effects on weight at birth. Positive selection is anticipated to increase birth weight and have correlated positive effects on early lamb survival, especially with twins and triplets. Negative selection is anticipated to reduce birth weight and lambing difficulty associated with oversize lambs, especially in singles.

WWT: Weaning Weight EBV (kg) provides an estimate of preweaning growth potential and will likely receive positive selection emphasis in most flocks.

PWWT: Postweaning Weight EBV (kg) combines information on preweaning and postweaning growth to predict genetic merit for postweaning weight at 120 days. Positive selection is expected to favor rapid growth to typical market ages.

NLB: Number of Lambs Born EBV evaluates genetic potential for prolificacy. Expressed as numbers of lambs born per ewe lambing. Ewes with +0.10 are expected to have an average of 0.10 more lambs at each lambing than average ewes and their daughters are expected to have an average of 0.05 more lambs at each lambing compare to daughters of average ewes.

NLW: Number of Lambs Weaned EBV evaluates combined ewe effects on prolificacy and lamb survival to weaning. Expressed as number of lambs weaned per ewe lambing. Ewes with 0.10 are expected to wean an average of 0.10 more lambs at each lambing than average ewes, and their daughters are expected to wean an average of 0.05.

MWWT: Maternal Weaning Weight EBV (kg) estimates the genetic effects of the ewe on the weaning weight of her lambs (a measure of the ewe’s merit for mothering ability). Mainly reflects genetic differences in ewe milk production. Ewes whose lambs grow faster than predicted are assumed to be better milk producers, those that grow slower are assumed to produce less milk.

Scrapie Genotype Resistance Descriptions

RR — Resistant **QR** — Moderately Susceptible **QQ** — Highly Susceptible

Our Sires

LWD 20241: Dorper Sire Ram

Registration: RP54227 **Genotype:** **Date of Birth:** 3/27/2020

Birth Type: 1

Weight:

N/A

Sire: Ida Vale 112227

Dam: LWD 160063

NSIP ID: 470LWD2020200241

BWT	WWT	PWWT	NLB	NLW	MWWT
.1	1.6	4.6	-3	-3	.7

Description

I bought this sire at Paul Lewis sale spring of 2021. This is an awesome ram that will add pounds and quality to your lambs. Clean shedding coat. We have semen available to sell from this ram.

GLENBROOK 20107: Katahdin Sire Ram

Registration: 179711 **Genotype:** QR **Date of Birth:** 2/9/2020

Birth Type: 3

Weight: 105 lbs. as of 5/18/2020

Sire: 5570 666

Dam: GLENBROOK 758

NSIP ID: 6401052020GB0107

BWT	WWT	PWWT	NLB	NLW	MWWT
.2	1.8	2.1	-7	4	1.2

Description

This is a home grown sire out of a tank of a ram we call Rusty. His dam had quads this year and raised 3 of them. He's a very straight and correct ram that sires well.

GLENBROOK 20223: Katahdin Sire Ram

Registration: 186336 **Genotype:** **Date of Birth:** 4/25/2020
Birth Type: 2
Weight: 136 lbs. as of 9/2/2020
Sire: 5570 19279
Dam: NGM 1598
NSIP ID: 6401052020GB0223

BWT	WWT	PWWT	NLB	NLW	MWWT
.4	3.5	7.5	18	17	.5

Description

This sire is out of a line I have been working for a while. He stamps his lambs with heavy muscle, fast growth, and early maturing. He is currently the second highest proven ram for WWT and Pwwt in NSIP! We really like this sire! We have semen available to sell from this ram.

GLENBROOK 20255: KAT 75% Sire Ram

Registration: 186337 **Genotype:** **Date of Birth:** 5/6/2020
Birth Type: 2
Weight: 110 lbs. as of 9/2/2020
Sire: USD 18274
Dam: GLENBROOK 571
NSIP ID: 6401052020GB0255

BWT	WWT	PWWT	NLB	NLW	MWWT
.1	.6	1.4	11	14	1.2

Description

This is a nice correct sire with a high MWWT and is out of one of our best ewes. This sire was sold on our sale last year.

GLENBROOK 22149: Katahdin Sire Ram

Registration: **Genotype:** QR **Date of Birth:** 2/8/2022
Birth Type: 2
Weight: 110 lbs. as of 5/20/2022
Sire: GLENBROOK 20223
Dam: GLENBROOK 20060
NSIP ID: 6401052022GB2149

BWT	WWT	PWWT	NLB	NLW	MWWT
.5	4.1	7.7	10	13	.9

Description

This sire is a good example of the legacy of Glenbrook 20223. We had sold him to LC ranch on our sale last year and end up purchasing 50% shares back. We bred him to a few ewes and collected semen for him last fall. We're super excited about this ram. We do have semen available to sell from this ram.

HRS 20007: Romanov Sire Ram

Registration: U16459 **Genotype:** **Date of Birth:** 12/27/2019
Birth Type: 3
Weight: N/A
Sire: HRS 0015E
Dam: RPM 631Z
NSIP ID: N/A

BWT	WWT	PWWT	NLB	NLW	MWWT

Description

This my main Romanov sire. If you're looking to increase your lambing rates and fall lambing, the Romanovs are the way to go.

FETT 274J: Romanov Sire Ram

Registration: U16744 **Genotype:** QR **Date of Birth:** 3/27/2021
Birth Type: 2
Weight: 125 lbs. as of 6/1/2022
Sire: USAMARC 1514103
Dam: FETT 111H
NSIP ID: N/A

BWT	WWT	PWWT	NLB	NLW	MWWT

Description

I picked this ram up in Iowa while on our belated honeymoon the summer of 2021. We needed the new genetics and are happy with him.
