The host motel will be at the: Super 8 Motel in Carthage, MO 417-359-9000. If you need assistance with a room, just let us know.

**LIABILITY:**

We are not responsible for any injury or accidents.

**SALE CATALOG DESIGN:**

Jocelyn Washam, Rural Route Creations

**WEB MASTER:**

Joan Thorne, TLC Website Designs

**WELCOME TO OUR 2023 AKAUSHI PRODUCTION SALE**

We are featuring the offspring of two proven foundation herd sires. First a Rueshaw 430 son, HB Rhubarb, also HB H5070S, a Hikari son. We used those two sires early and often in our ET program. Both sires are out of Big Al's daughters.

One hundred percent of our 2021 embryo production will be offered at this event. They have it all, foundation genetics, growth and eye appeal.

Our philosophy is it takes both growth and quality grade, for our breed to thrive in an industry that has lots of options.

If there is anything we can do to help with your next investment in making your cows and banker happy, let us know. Hope to see you on the 29th.

*Larry & Peggy*

*P.S. - Each lot has listed a birth weight and 3-10-23 weight.*

**H5070S X 7205Z**

This is a fullblood ribeye photo provided by Jerry Vaughan, Derby, KS. It was taken in plastic wrap and still graded an 8. Three grades better than high prime.

**HB Hot Dam X Charolais**

This ribeye photo was taken by myself at J-H Meat Co. in Joplin, MO. The contributing beef was purchased at our sale last spring by Brandon Bowen from Arkansas. She was 18-months-old and fed for 150 to finishing. She weighed 1495 pounds.

**7228Z (AF21722) FOUNDATION SISTER DONORS 754Y (AF11063)**

Both of these donors were very prolific. They served us well. These great donors are now working for Jerry Vaughan, Derby, KS. It was a sad for us the day they left, however, they went to a good home!

## FULLBLOOD BRED HEIFER COMMENTS

We are offering 19 exposed heifers to calve in the fall. We will pregnancy test just prior to the sale. The results will be listed on the supplement sheet. Lots 17, 18, 19, 20, 21, 22, 23 and 25 are were AI'ed to Dos Equis, a homozygous polled bull. March 10 - Tank 916 was used as clean up. Lots 24, 26, 27, 28, 29, 30, 31, 32, 33 and 34 were serviced by a full brother to Lot 1.

Most of the time the heifers will be presented two at a time. The winning bidder will have the option to take one or both. In the event the buyer only selects one, the remaining heifer will be retained for our program.

These females are special breeding pieces. If you are trying to build a breeding program, this gives you the opportunity to buy like kind genetics. We always try to sell our cattle like we want to buy them. Sisters have worked very well for us.

### BREEDING PLAN

It was very important to us that we used time-tested foundation genetics for our ET program.

Our second criteria would be E.P.D.'s, however, calculations predicted on limited input basically from one source can be misleading and most often have low accuracies.

As the breed expands, more data will be collected, and accuracies will improve. At this point and time, calving ease with growth is our performance focus.

E.P.D.'s will become more important to us in the future.

The dam of these females, ACE MS PRIMECUT 5070-824 ET, was some of our first out of our ET program. We had a group of four. Two topped our 2021 sale going to Circle K from Missouri and Tom Rose from Oklahoma. The fourth had twins and was damaged calving. She went to the feedlot. She produced the ribeye mentioned earlier. What more could you want? Growth and quality in one package. Brian Adair from Oklahoma purchased 824 after the sale last year for his new ET program. He reports she flushed well!

Akiko is a preeminent conformation and carcass improving cow with high marbling potential coming from both sides of her pedigree. In the 1993 paper "Sire Effects on Carcass Traits for Japanese Brown Cattle," her sire Naminmaru was ranked #8 in marbling score and her maternal grandfather Mitsutake was ranked #2, only behind his son Mitsushige ET. Akiko is known for producing exceptionally fertile offspring with strong top-lines, deep chests, and calm temperaments.

If there was such a thing as Akaushi Royalty, Akiko would surely be "The Queen."

Akiko 354B

**We are stacking this classic in our program!**

# FULLBLOOD BRED HEIFERS

**Heartbrand Rhubarb 2142A**

There are lots of adjectives that we could use to describe this herd sire. Ours is "WOW." He has done it all for us. Not only is he a son of Rueshaw 430, he is also out of a Big AL daughter. Rueshaw semen has sold recently for \$17,000 up to \$22,000 per straw. *This is not a printing error!*

**7228Z**

The mother of Tank 916 has eleven full sibs selling.

*Bull Lots 6, 7 and 8.*

*Female Lots 26, 27, 28, 29, 30, 31, 32 and 33.*

## Proven Reference Sires

**MCC 4032 (AF49761)**

- Mature weight 1675 lbs.
- Very sound feet and legs.
  - Great disposition.
- Top 15% for marbling EPD.
  - Excellent vigor at birth.
- This bull was purchased to use on our Charolais cows to provide a base for our upgrading program.
  - J-H Cattle Co. purchased 1030 straws of semen in 2018 from us.

**HB Hot Dam 9249E (AF103980)**

- High WW and eye appeal .
- Great disposition and proven ancestors.
  - Maximum growth.
- We searched for over a year to find genetics that would help secure our two main concerns with Japanese cattle. Most lacked the growth and eye appeal to fit our bull selling program.
- J-H Cattle Co. purchased Hot Dam last year for their lead herd sire. He currently weighs over a ton.

# GUEST CONSIGNORS

**John Hobbs, Huntsville, MO** - These three proven donors are truly a rare find. The only reason for them being offered is because John has enough daughters retained. John is a retired corporate executive wanting a small herd of a select few in his program.

Do your research on these foundation genetics. They represent all of the greats. Pages of comments could be written about these premier donors. Lot 35 is a daughter of Big AL out of a Judo daughter. Go find one like her. Judo semen just sold for \$3,250 per straw. Get ready to ad some great ones to your program.

Sells with a bull calf born 3-9-23, BW 70, sired by ACE MR Prime Cut RHUB-989 ET (AF150471)

J-H have supported our sales from the very start. Their first purchase was half blood bulls. Roger & Shelly so liked the taste of the meat, they opened a meat store featuring Akaushi beef.

# EMBRYOS

*Consigned by Mark Byler - Weathery, MO*

Mark and his family have been reaching for the stars this past year. They have assembled a powerful set of donors and are using some hard to find and expensive semen. The sky is the limit for these young enthusiasts, they will be an industry force.

## **LOT 40** 3 IVF Grade 1 Embryos LAG 1105D X Heartbrand 6027H

The sire of this lot is LAG 1105D. He is a son of Shigemaru and Kaedamaru 2, the Tamamaru daughter of legendary original import Kaedamaru! The dam of this lot is Heartbrand 6027H. She is true in her kind, balanced from all angles and tremendous in her lines. Heartbrand 6027H is level in her spine, deep in her rib and center body and reads with all of the flexibility in the world. She is sired by Rhubarb, one of the great Rueshaw sons. Stored at TransOva in Chillicothe, MO.

## **LOT 41** 3 IVF Grade 1 Embryos Rhubarb X TJ Ms Homare

The sire of this lot is Rhubarb, one of the great Rueshaw sons. The dam of this lot is TJ Ms Homare, one of the finest Red Wagyu females you can find anywhere! She is absolutely stunning in person and represents a very sought after and remarkable pedigree, sired by Big AL and a granddaughter of JVP Ms Homare J 30E who is a daughter of the original import sire, Judo. Don't miss out on this opportunity! Stored at Reprologix in Fort Scott, KS.

## **LOT 42** 3 IVF Grade 1 Embryos Hikari X ACE Ms Prime Cut Rhub 047 ET

The sire of this lot is the great Hikari. Hikari has a fantastic legacy that precedes him! Hikari is known for his extreme balance of growth with high marbling and carcass traits. His is a son of Japanese legend, Dai 10 Mitsumaru 76 who also sired breed legends Big AL, Kaedamaru, and "the Elephant Cow" Heartbrand T0504E. Hikari is a leading proven sire of sons having produced elite bulls such as WSI Umemaru, TWA Kajikari, Kotsukari, and Heartbrand Hercules 2619A! The dam of this lot is a daughter of Rhubarb, one of the greatest Rueshaw sons out there and on the bottom side a granddaughter of another foundation sire Tamamaru. Stored at Reprologix in Fort Scott, KS.

754Y - the dam of 047

*Semen is stored at Lookout Mountain Genetics in Alabama and Show-Me Genetics in Missouri.*

# FATS & PERCENTAGE FEMALES

Not many this year due to the fact that direct sales have been fantastic. That is a good thing proving the demand is out there for this wonderful breed of cattle. Better yet, it is good for customers. It's a win-win. More could be consigned closer to sale time.

1. Cattle will be weighed before the sale.
2. The base price will be determined at the auction.
3. A \$.35 per pound genetic premium will be added in the office.
4. The final price to be paid will be base price plus the premium.

**LOT 50 - 933**  
**3/4 Akaushi, 1/4 Charolais**

## ANIMAL HEALTH:

The health of the cattle selling is excellent. Each animal will be accompanied by an individual health certificate for immediate interstate shipment. All bulls have passed a breeding soundness exam and have been tested for trichomoniasis and BVD.

Bulls sell with a first breeding season guarantee defined as 90 days from date of sale, provided the bull is managed for acceptable nutritional and physical health. Guarantee applies to bulls in single bull pastures only! In the event of a customer having a problem with a bull (health, injury, or death) prior to or during the first breeding season, the buyer should contact Aschermann Akaushi immediately. A vet statement will be required so the decision to return the bull to Aschermann Akaushi or sold by the buyer may be made. A sale credit will be given towards next year sale at the value of the purchase price minus salvage value.

Females selling as bred sell with a 45-day pregnancy guarantee.

*WE ARE OFFERING...*

## THE NEW GENERATION OF OLD GENETICS

In 2013, we took a chance and bought twenty straws of Akaushi semen to A.I. some of our Charolais heifers. To say I was a skeptic would be an understatement. Most promoters of any breed overstate all the great attributes their breed offers. For our experiment, we used the same selection criteria that we used when starting our Charolais program in 1993: eye appeal, disposition, fescue tolerant, and sound feet and legs. Akaushi checked all the boxes and then some, giving us more growth than expected.

Fast forward to early 2017. Combining our premium grading Charolais with front-end Akaushi sires from Heartbrand, we developed a herd of F1's. Using both A.I. and E.T. our experiment had exciting results. Our next step was to purchase foundation Akaushi females for embryo production. We only wanted genetics that were direct descendants of the original imports that also met our original selection criteria. This was a big challenge given the fact that the only fullblood imports were three bulls and eight cows about thirty years ago. After extensive research, we found what we wanted with the purchase of five fullblood females.

As 2023 rolls around, our excitement for this Japanese breed has increased. Over the past years, we have discovered Akaushi fertility is outstanding with embryo and semen production - way better than other breeds we have sampled. Based on our previous auctions, we found there is more demand at the grass roots level in our area than we expected. Considering Akaushi is relatively new and most cattlemen have never heard of these genetics.

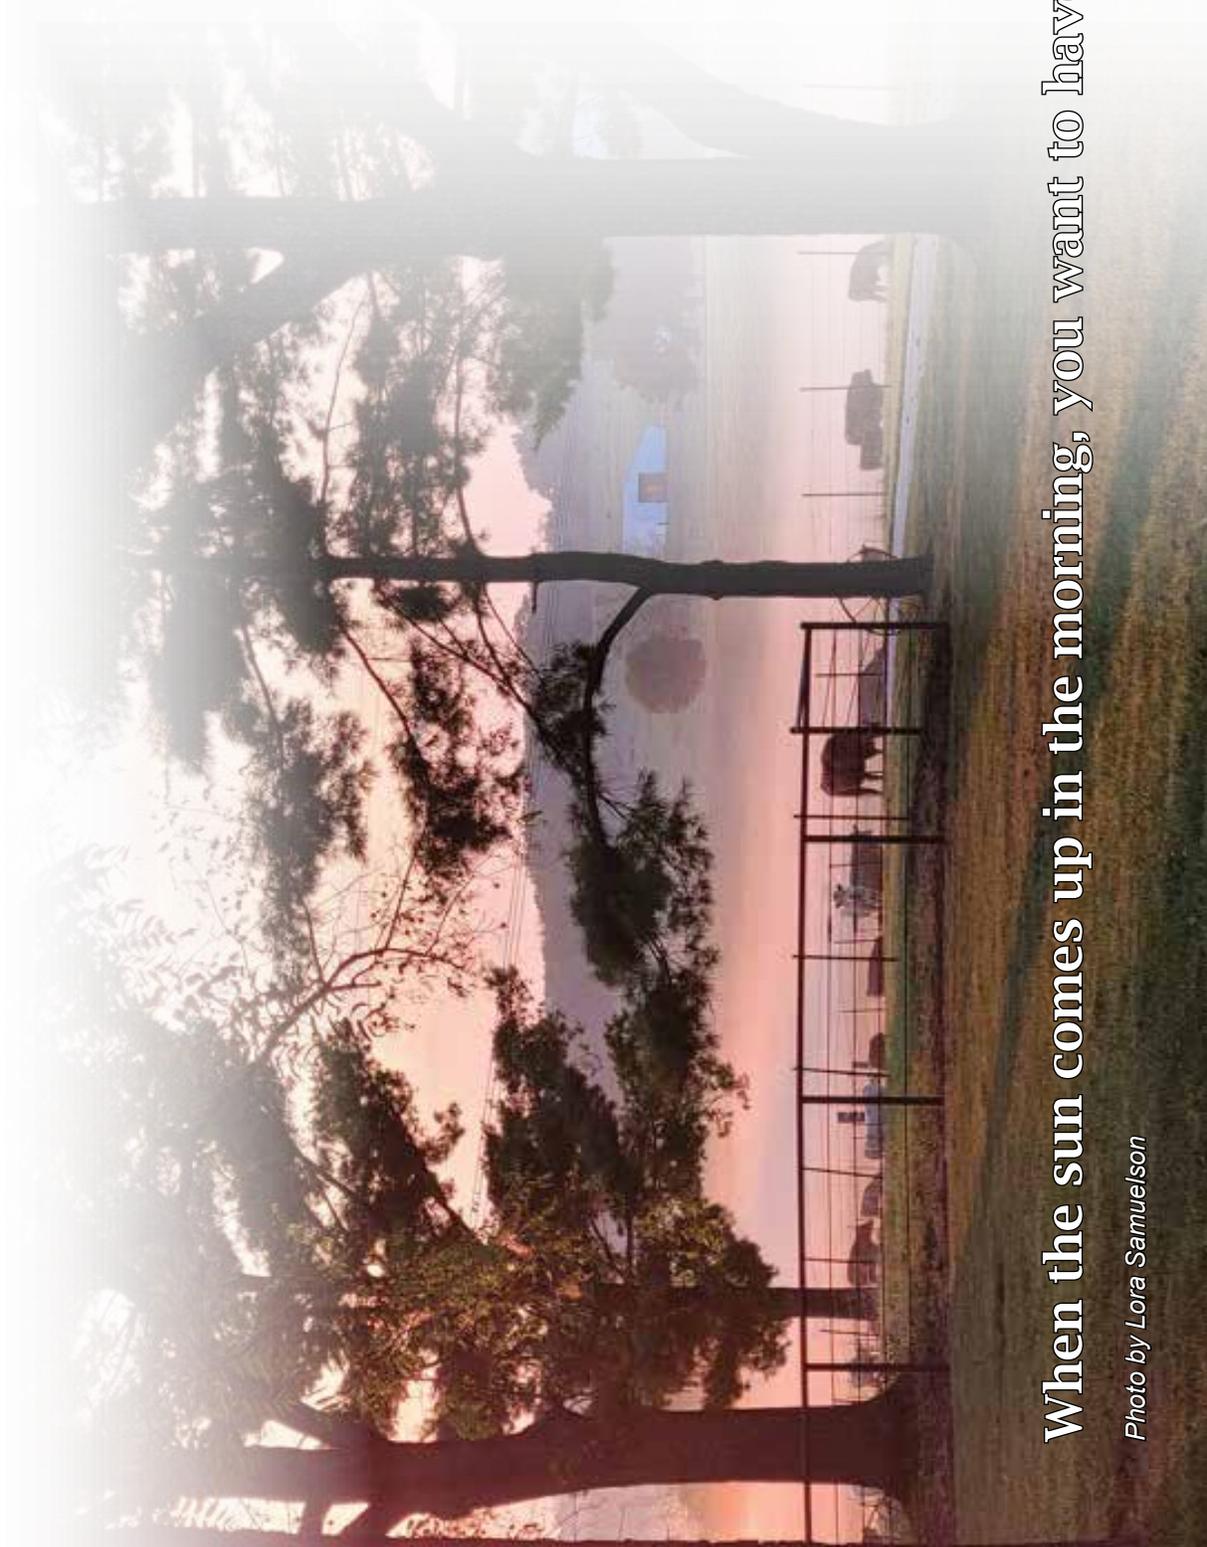

Lastly, but most important, is the taste and tenderness of the meat. It is unique and delicious. We fed the F1's that did not produce as breeding cattle just as a commercial feedlot would. The meat sold direct and each carcass was sampled by us. Surveys were taken and buyers without exception said they wanted more!

"The beginning is the most important part of any work" - Author Unknown
