Terms of sale: We are not a bank & we do not finance cattle! Buyers will be invoiced immediately by email with overnight payments expected by money wires or good check sent by priority mail to sale manager.

We welcome participation from buyers who understand the proceeds need to be issued immediately!

Buyers of live cattle should make immediate arrangements with sellers for transportation of purchases after payment has been made to sale manager. We encourage buyers to insure their purchases at least until they arrive at their new homes! Buyers are guaranteed their purchase will be healthy at time of pick up.

(Pictured above)

Lot 1 – Westcoast Parfect

We purchased this heifer from Westcoast Holsteins. It is interesting to find a heifer this high GTPI from such an attractive conformation dam. And with long teats as well. And we liked her pedigree (Parfect x Pursuit x Doc) directly tracing straight back to Laurie Sheik! Her dam is a full sister to 200HO11862 Comestar Lambeau.

2nd Dam: Comestar Laumabia Doc

(4th Dam of Lot 2)

Lot 2 – Brave 9835 ~ At the World Dairy Expo 2015, we were interested in a heifer selling Thursday night: Endco Yoder 9839 (Yoder x Liquid Gold x Epic), with strong components and a different maternal line. Hendrik Albada was on the phone with us, and she sold for over \$80,000. Although Yoder 9839 received recognition as the dam of 7HO14250 Pine-Tree CW LEGACY, another very likeable branch of this family at Pine-Tree emerged: Skywalker 8177 (via Burley then Yoder 9839). She is due for her 3rd lactation soon (pictured), and is the granddam of 9835 Brave, this exciting donor.

We re-sold Endco Yoder 9839 in the 2017 World Classic sale to Arnie Gruenes, who has multiple family members from her. In fact, the #1 GTPI Perfect son (Phoenix) is an own grandson of Endco Yoder 9839.

LOT 2 IVF Session

**Buyer is purchasing rights to control the next IVF session(s). Buyer is guaranteed IVF sessions until a minimum of 8 #1 or #2 IVF embryos are produced. Embryo grades are determined at the time of transfer if fresh embryos or at time of freezing if freezing is requested by buyer. Buyer keeps all resulting embryos from these controlled IVF sessions. Buyer is responsible for all costs of the aspiration and mating sire decisions.*

Lot 3 – Siemers Paris ~ Our Dad has often had an attraction to buying milking age donors because of the increased pedigree reliability, such as Rudy Missy. Early 2023, we began looking for a new milking donor, and came across this VG-86 Riveting daughter of the EX-91 Siemers Lambda Paris. With her strong DPR & FLC, and solid cow family, we hoped she would complement our genetic program. She was purchased privately from the Siemers Family, and she has exceeded our expectations, in particular with a great IVF performance. Thank you Siemers!
 Darren Sheffield researched this criteria: Females in the breed that are GTPI+3040, DPR+2.3, and PTAT +2.57? “She is the only female that meets this criteria.”

Lot 4 – Lionel 688 ~ Back in 2016, we were intrigued with high components (maybe still are!). With this in mind, we bought a heifer from Sandy-Valley Holsteins privately (Sandy-Valley No Limit). Then, at the same time, we purchased a milking donor from them, the GP +83 Sandy Valley Morgan Era. Tracing back to Snow-N-Denises Dellia, this Morgan Era cow started a new family at Pine-Tree. Now via her prolific Achiever daughter, we now are offering this Lionel Donor Heifer (Lionel x Highflier x Pursuit x Achiever), and a few other family members in this auction.

Lot 5 – No-Fla Billy Shadow

Billy Shadow sold two years ago in our Summer Pine-Tree Sale. She was a yearling heifer then, very outcross, and high protein. We were grateful to Don Bennick for offering her to that sale. Her low stature combined with Protein of 85 lbs, along with the outcross pedigree (Jalib x Jonah) are all neat parts of her. Billy Shadow herself sells.

 Sire: Winstar Galileo-ET
(Pictured above)

Lot 6

In Spring 2022, we first noticed a newly proven sire at Select Sires, 7H014578 BPS Panther Foxcatcher. Look him up if you haven't lately. Panther x Foxsong! His sire stack is rare! As he added daughters, his proof stayed strong.

Lot 6 traces back to Sandy-Valley No Limit (by Delta). She is dry after her 5th lactation. Her daughter, Prophecy 7829, is milking in her 3rd lactation and pregnant. Her daughter, Galileo 8864 (pictured) has been a neat donor to mate, with excellent strength and teat placement. The Sire stack on this calf is Foxcatcher x Galileo x Prophecy!

Lot 7 & 8 – Figaro x Foxcatcher. Pearce x Foxcatcher

In the Spring 2022, when we had first noticed Foxcatcher, his highest daughter, Foxcatcher 2689, owned by the Buschur Family, caught our attention. She performed really well on IVF, and Steve Buschur & family were interested in partnering on her. We are grateful for that opportunity. She is milking, 2nd lactation, and is one of the highest producing cows at Plain-Knoll. She herself has made a couple of terrific IVF performances. She is still an active donor in our programs.

Lot 9

The Adams family (Adaway) consigned Letchworth 3424 to the February Fun in the Sun Sale. Our team member Hannah really liked her GTPI combined with her Type data, along with solid production and DPR. The double Renegade in her pedigree was neat as well. We had nothing in our program from this family line at Adaway.

Lot 13: ~ Polled Opportunity: GTPI +3079 polled calf sells!
 In 2016, Andrew introduced Green-Banks Damaris 6586 to our team. Dan & Anna Crowell's family agreed to price her privately, which we are thankful for. She is a Damaris x Tango daughter of Oman Mirror herself. 6586 scored EX-90 for us, and via her Achiever daughter and Lionel 8361 came this branch. Her daughter Engineer 9327 produced this polled Remover heifer selling. This is the same family as Pine-Tree Cowen (Lionel x Achiever x Damaris) who sired 551H04520 STgen Cowen Thorson-ET.

Pine-Tree Helix 7938-ET
(Dam of Lot 14)

LOT 14 IVF Session

**Buyer is purchasing rights to control the next IVF session(s). Buyer is guaranteed IVF sessions until a minimum of 8 #1 or #2 IVF embryos are produced. Embryo grades are determined at the time of transfer if fresh embryos or at time of freezing if freezing is requested by buyer. Buyer keeps all resulting embryos from these controlled IVF sessions. Buyer is responsible for all costs of the aspiration and mating sire decisions.*

Lot 17-19

I guess we will just confess this point upfront. Within our own team, not everyone always agrees on which mating sires to use. Siemers Brave fit into that category. But we agree it is important to use a variety of mating sires. This combination, Brave x Highflier x Pursuit, produced a couple of interesting heifers...and that is something we all agree upon!

#2 NM\$ Engineer daughter!

Maternal sister:

Pine-Tree 8361 Conw 8999-ET
(Pictured above)

Lot 20 ~ This Engineer donor goes back to that EX-90 Green-Banks Damaris. Her first-born daughter here is the polled Remover, Lot 14, with GPTPI +3079 for a polled heifer. 9327 Engineer's DPR is -0.3 which seems pleasing considering Lionel being the next sire. And her teat placement and FLC are both workable.

Lot 21 & 22 are 2 Frost Bites from the same cow, Acura 8721. She is pictured above, and is pregnant 1st lactation. Numerous times she has exceeded 10 embryos in an IVF. In 2016 we purchased Seagull-Bay My Octavia (by Octoberfest) from Seagull-Bay's auction for over \$70,000. Her nice teat placement, DPR, and strength, combined with a neat sire, caught our interest. She is now fresh 5th lactation, milking 103 Lbs last test! Lots 21 & 22 are Frost Bites x Acura x Helix x Octavia.

Lot 24 is a Gordon x Conway 8999, this A2A2 heifer carries Pro +80 lbs with GTPI +3092. Lot 25 is a Bigshot x Conway 8899, this heifer carries Pro +67, positive DPR and slight slope to rump. Conway 8999 is just fresh. We really like our Conway daughters. Each proof round, we try to identify a couple milking cows that could qualify as donors in our IVF program, with the added reliability/information that brings. This cow was an easy decision to graduate into our milking donor program.

Lot 27 A-D ~ We sold Frazz 7613 to Select Sires as a heifer. She blossomed into a nice young cow at Mike & Julie Ducketts. Now she is owned by Mason Ziemba, with Pine-Tree retaining the opportunity to IVF her at times. Her sire-stack is different than many type pedigrees, and she also has SCC +2.68 and she IVFs well: Selling 4 lots, each with 5 #1 embryos sired by sorted-female Maximum-Red. So these embryos combine Frazz 7613 EX-94, with Blondin Rd Unstopabull Maple-RED!

LOT 35 Jersey IVF Session

**Buyer is purchasing rights to control the next IVF session(s). Buyer is guaranteed IVF sessions until a minimum of 8 #1 or #2 IVF embryos are produced. Embryo grades are determined at the time of transfer if fresh embryos or at time of freezing if freezing is requested by buyer. Buyer keeps all resulting embryos from these controlled IVF sessions. Buyer is responsible for all costs of the aspiration and mating sire decisions.*
