

LAZY ACRES ANGUS PRESENTS THEIR 8TH ANNUAL SPRING

# FOCUS NOW

VALUE LATER SALE

APRIL 29, 2023

COWBOY AUCTION STARTING AT 1PM

LAZY ACRES ANGUS PRESENTS THEIR 8TH ANNUAL SPRING

# FOCUS NOW

## VALUE LATER SALE

### SALE LOCATION

Lazy Acres Angus Farm  
703 Woodman Rd.  
Rocky Mount, VA 24151

### DIRECTIONS

From intersection of Hwy. 220/Hwy. 40 in Rocky Mount, VA travel East on Hwy. 40 for 1.8 miles, turn left on Woodman Rd. (watch for sign).

### AUCTIONEER

Dalton Bennett. . . . . 434.664.7946

### SALE DAY CONTACTS

Steve Furrow. . . . . 540.520.4804  
Jason Thurman . . . . . 540.493.4813  
John Thurman. . . . . 540.493.6025  
Mike Hodges . . . . . 540 263 0731

### SALE FORMAT

Cattle will be shown by video on sale day. In addition to on site, bidding will be available online via Cowbuyer. Please see Page 4 for details.

### INSPECTION OF CATTLE

Offering may be viewed at the farm anytime. Please call ahead to arrange viewing. Videos are available at [www.lazyacresangus.com](http://www.lazyacresangus.com).

### LUNCH

Angus Bar-B-Q lunch will be provided.

### SALES & CONDITIONS

#### HEALTH

All cattle will be accompanied by proper health certificates for immediate shipment.

#### EPDS & VALUES

The American Angus Association is calculating and updating EPD's on a weekly basis. EPD information is current at time of printing and any new data submitted between the print date and sale date could affect individual EPD's. If your purchase decision is heavily dependent on EPD's, please refer to [www.angus.org](http://www.angus.org) for the latest information. Any changes will be noted on sale day supplemental sheet. Catalog EPD's are as of 4.14.23.

#### TERMS

Cattle sell under the suggested Terms and Conditions of the American Angus Association. [www.angus.org/Pub/suggested\\_sale\\_terms.pdf](http://www.angus.org/Pub/suggested_sale_terms.pdf).

### HERD HEALTH

Routine herd health and vaccinations up to date on all animals. Bulls and Heifers ear notched and tested negative for PI-BVD. All bulls have passed a Breeding Soundness Exam performed by Dr. Pete Fulper.

### GUARANTEE

All cattle sell satisfaction guaranteed. All bulls are guaranteed for one year provided he has been properly cared for. Buyer is entitled to credit or replacement.

### DELIVERY

We offer free delivery on the bulls. If you pick up your bull purchase, deduct \$75 off the purchase price.

### BULL DEVELOPMENT

All bulls were weaned in early May and placed on fescue paddocks after weaning. They were shipped in early June to Wardensville, WV and tested using the Growsafe systems there. They returned home in mid-October. Ultrasound and yearling weights were taken in October. After collecting yearling information, bulls were placed on a maintenance ration of hay and silage. 30 days prior to sale, bulls were supplemented with a commodity pellet. Every effort has been made to ensure bulls are sound and healthy. We feel our development allows the bulls to be best prepared for the upcoming breeding season.

### GENETIC ABNORMALITIES

The American Angus Association has identified genetic abnormalities and all potential carriers in our sale have been tested and identified. As carriers, they are not affected by the defect, but could have an affected calf if bred to another carrier. For additional information, refer to [www.angus.org](http://www.angus.org). Please ask if you have any questions.

# WELCOME

Welcome to the 8 th Annual "FOCUS Now, VALUE Later" bull and female sale. We are very excited about the sale offering, but before we talk about the cattle here a couple industry highlights.

- High quality beef has never seen a greater demand.
- Programs like Certified Angus Beef are setting records for pounds and dollars sold.
- Calf prices are reaching levels not seen in several years.
- Access to proven genetics to create high quality beef has never been better.

All of these are reasons to be excited about the beef business. Droughts, inflation, and market access are examples of current challenges, but challenges exist in any business. Challenges are overcome by good management. By FOCUSing on the things you can control. There is no better way to manage risk than to purchase genetics capable of producing better beef.

When you FOCUS on the genetics offered, you will find a set of bulls that have an average \$Maternal(\$M) that ranks in the top 10% of the Angus breed while maintaining an average \$Combined(\$C) in the top 30%. The crew at Wardsville did an excellent job in development and data collection and you will find the RFI EPD's by Vytelle included on each bull. Large scale feed efficiency data is hard to capture, but we feel it is one more way of capturing information to drive VALUE. For example, lot 4, his RFI EPD ranks him in the top 3%. He combination of growth and feed efficiency is very rare and just one example of the genetics being offered.

Several of the dams of the bulls selling will be offered as well. For the past seven years, we have offered every coming six-year-old female and these females are in the prime of their life. Lots 15 and 16 are full sisters resulting from our embryo program and their dam was the top selling female three years ago. Lot 29 has served as a donor dam and we are extremely excited about her progeny's future. The bred heifers are headlined by a couple full sisters as well, Lot 33 and 36 which represent the tried-and-true Weigh Up with the ever-consistent Matilda cow family. After careful consideration, Top Cut was chosen as the service sire on many of the females. If you are unfamiliar with him, a quick study will reveal he does many things right and we feel he will sire the kind to produce better beef.

Since 1960, we have been working to create better cattle. We stand behind the cattle we are offering and are confident these bulls and females will work for you. If you have questions about the cattle before or after the sale, please let us know.

Sincerely,

Steve Furrow  
540.520.4804

Jason Thurman  
540.493.4813

John Thurman  
540.493.6025

# ONLINE BIDDING

**LIVE INTERNET BIDDING  
AT WWW.COWBUYER.COM**

- View/bid online in Real Time
- Registration is required. Please register at least one (1) hour prior to sale time at [www.cowbuyer.com](http://www.cowbuyer.com)
- High Speed Internet is required. Slower speed will not permit you to bid and keep pace in real time.
- Terms: Purchasing online constitutes a legal contract and promise for payment of purchases. All purchases must be paid within five (5) days of sale date and prior to load out or delivery of cattle purchased.
- Cowbuyer.com is a service provider and is not responsible for the activity or inactivity of any technology, internet connection at the sale site or connection and technology of the bidders.
- No APP required on mobile devices.

Questions please contact Aaron Ray Tompkins 336.363.4639.

**WE WOULD LIKE TO  
EXTEND A BIG**

*Thank You!*

to Wardensville Bull Test. Dr. Kevin Shaffer,  
Jerry Yates & crew.

Also, Thank you to Dr. Pete Fulper,  
Dr. Andy Meadows and Mike Hodges.

<b>RFI EPD: 0.24</b>															

**Calving Ease Direct (CED)**, is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

**Birth Weight EPD (BW)**, expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

**Weaning Weight EPD (WW)**, expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

**Yearling Weight EPD (YW)**, expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

**Yearling Height EPD (YH)**, is a predictor of a sire's ability to transmit yearling height, expressed in inches, compared to that of other sires.

**Scrotal Circumference EPD (SC)**, expressed in centimeters, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

**Docility (DOC)**, is expressed as a difference in yearling cattle temperament, with a higher value indicating more favorable docility. It predicts the average difference of progeny from a sire in comparison with another sire's calves. In herds where temperament problems are not an issue, this expected difference would not be realized.

**Milk EPD (Milk)**, is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

**Carcass Weight EPD (CW)**, expressed in pounds is a predictor of the differences in hot carcass weight of a sire's progeny compared to progeny of other sires.

**Marbling EPD (Marb)**, expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

**Ribeye Area EPD (REA)**, expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

**Fat Thickness EPD (Fat)**, expressed in inches, is a predictor of the differences in external fat thickness at the 12th rib (as measured between the 12th and 13th ribs) of a sire's progeny compared to progeny of other sires.

**Maternal Weaned Calf Value (SM)**, an index, expressed in dollar per head, predicts profitability differences from conception to weaning with the underlying breeding objective assuming that individuals retain their own replacement females within herd and sell the rest of the cull female and all male progeny as feeder calves. Traits included are as follows: calving ease direct, calving ease maternal, weaning weight, milk, heifer pregnancy, docility, mature cow weight, claw set and foot angle.

**Weaned Calf Value (SW)**, an index, expressed in dollars per head, to predict profitability differences in progeny due to genetics from birth to weaning. The underlying objective being producers will retain 20% of the female progeny as replacements and sell the rest of the cull females and their male counterparts as feeder calves. Traits included are as follows (in no particular order): birth weight, weaning weight, milk, and mature cow weight.

**Beef Value (SB)**, an index value expressed in dollars per head, is the expected average difference in future progeny performance for postweaning and carcass value compared to progeny of other sires.

**Combined Value (SC)**, an index, that is the combination of \$Maternal and \$Beef.

## Interpreting RFI EPDS

The residual feed intake (RFI) EPD range displayed below encompasses Vytelle's feed efficiency database, regardless of accuracy. The RFI EPD calculated for each individual animal is based on their phenotypic RFI values and pedigree information. Lower RFI EPDs are more favorable. When an animal with an RFI EPD of -2.16 lb is bred to an animal with a RFI EPD of 0, its progeny are expected to consume 2.16 lb less each day than the average progeny.

-0.98 kg  
-2.16 lb
